Uncertainties of key parameters

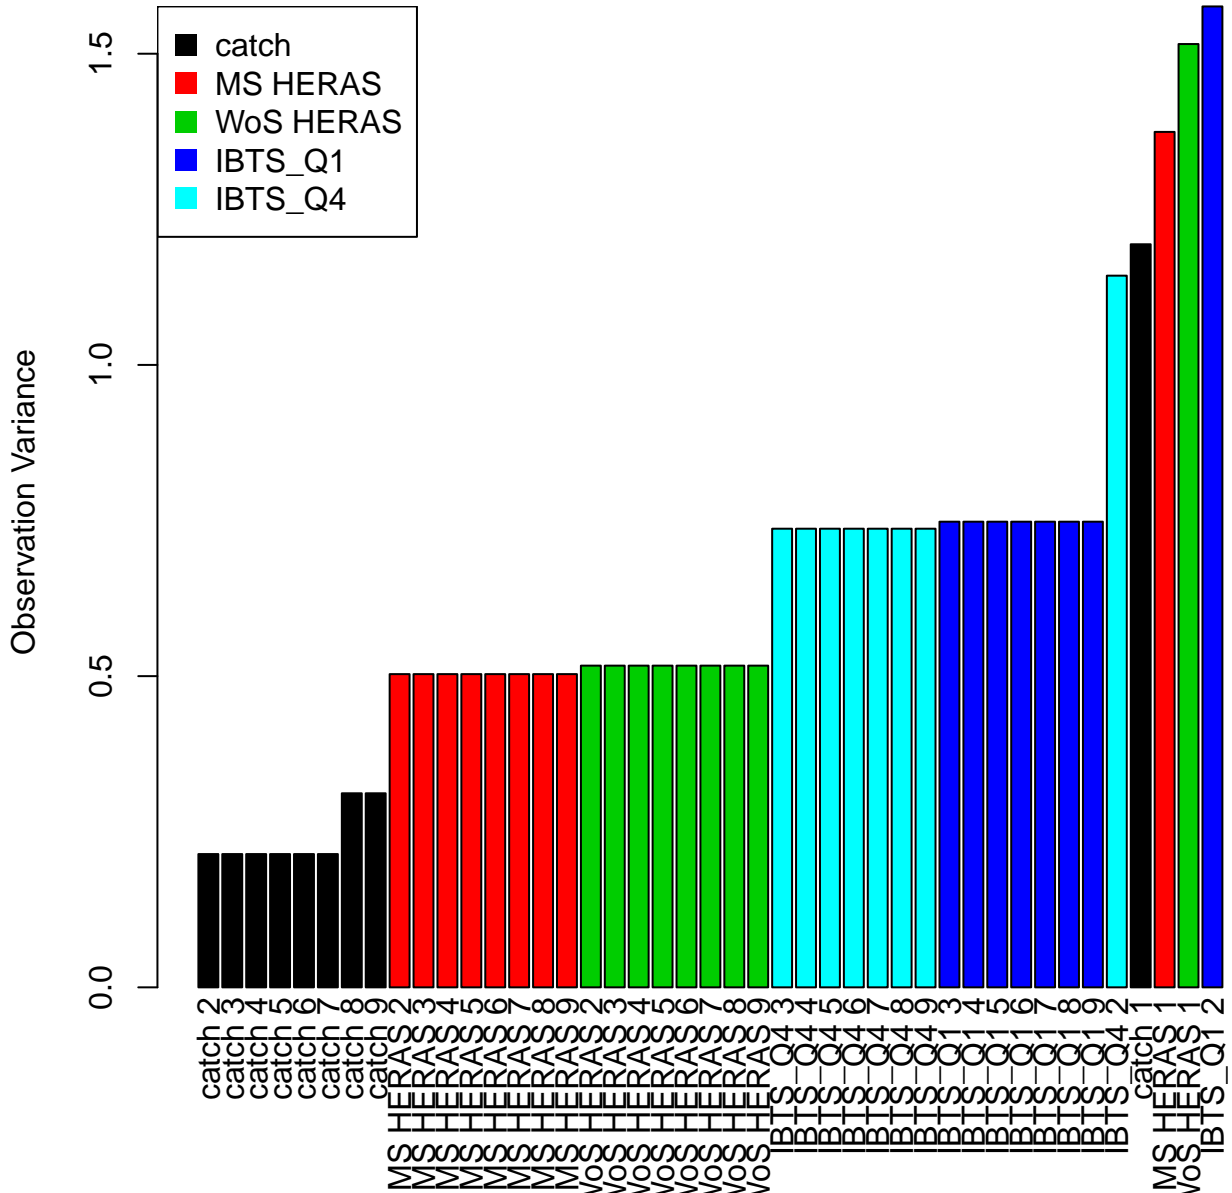

Survey catchability parameters

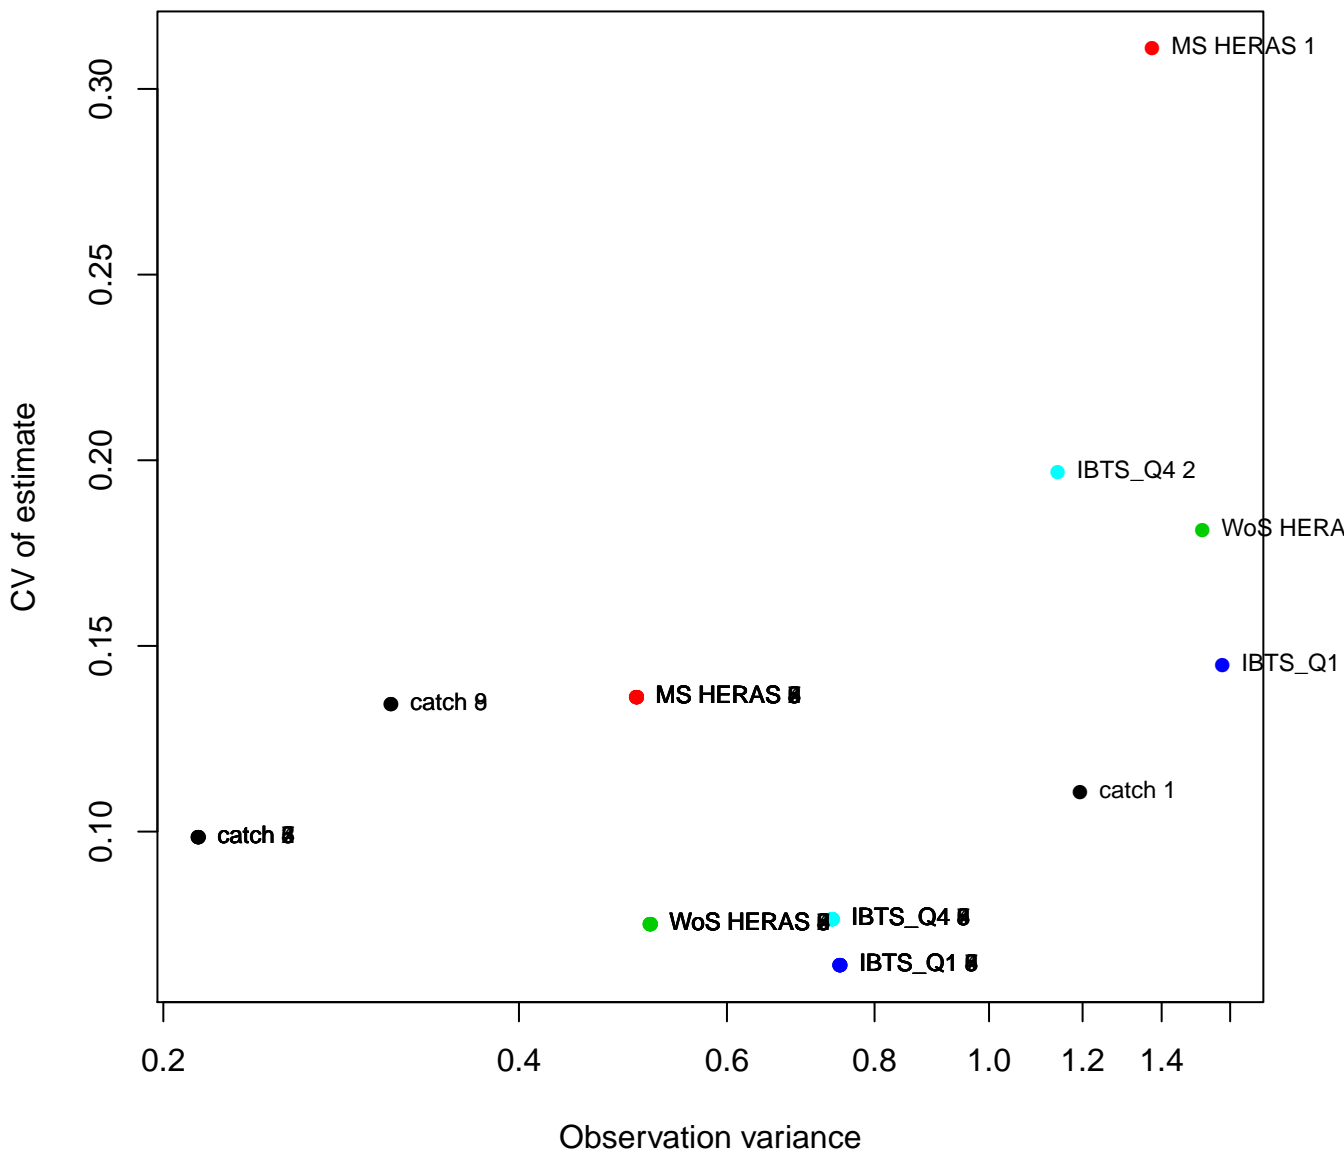

Survey catchability parameters

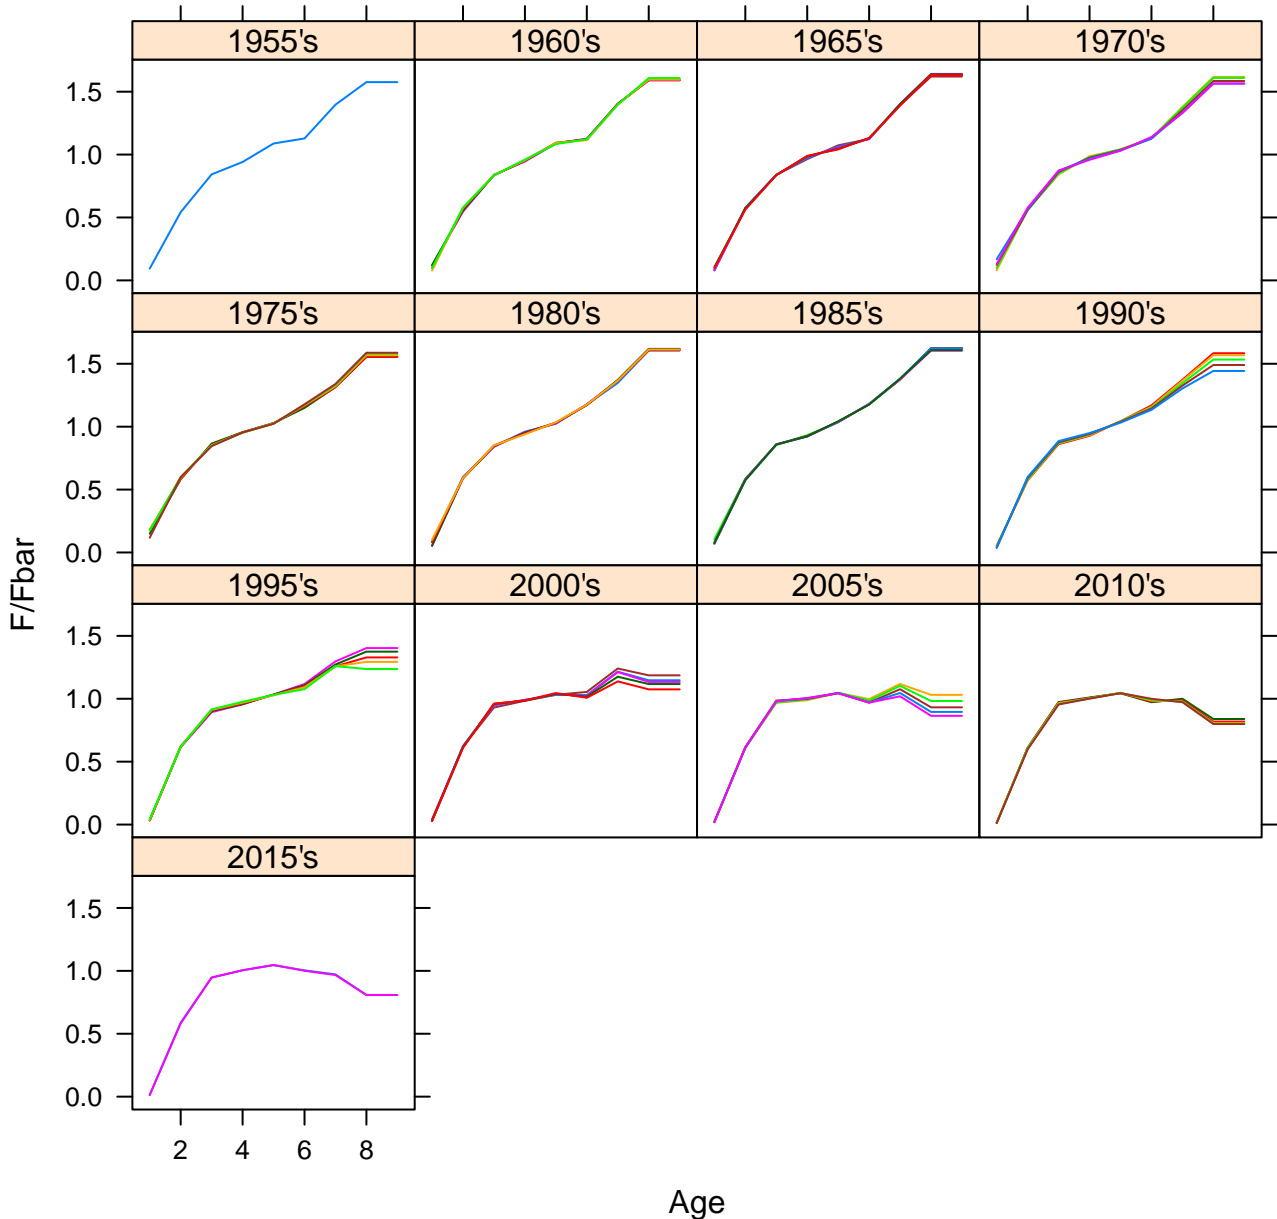

Observation variances by data source

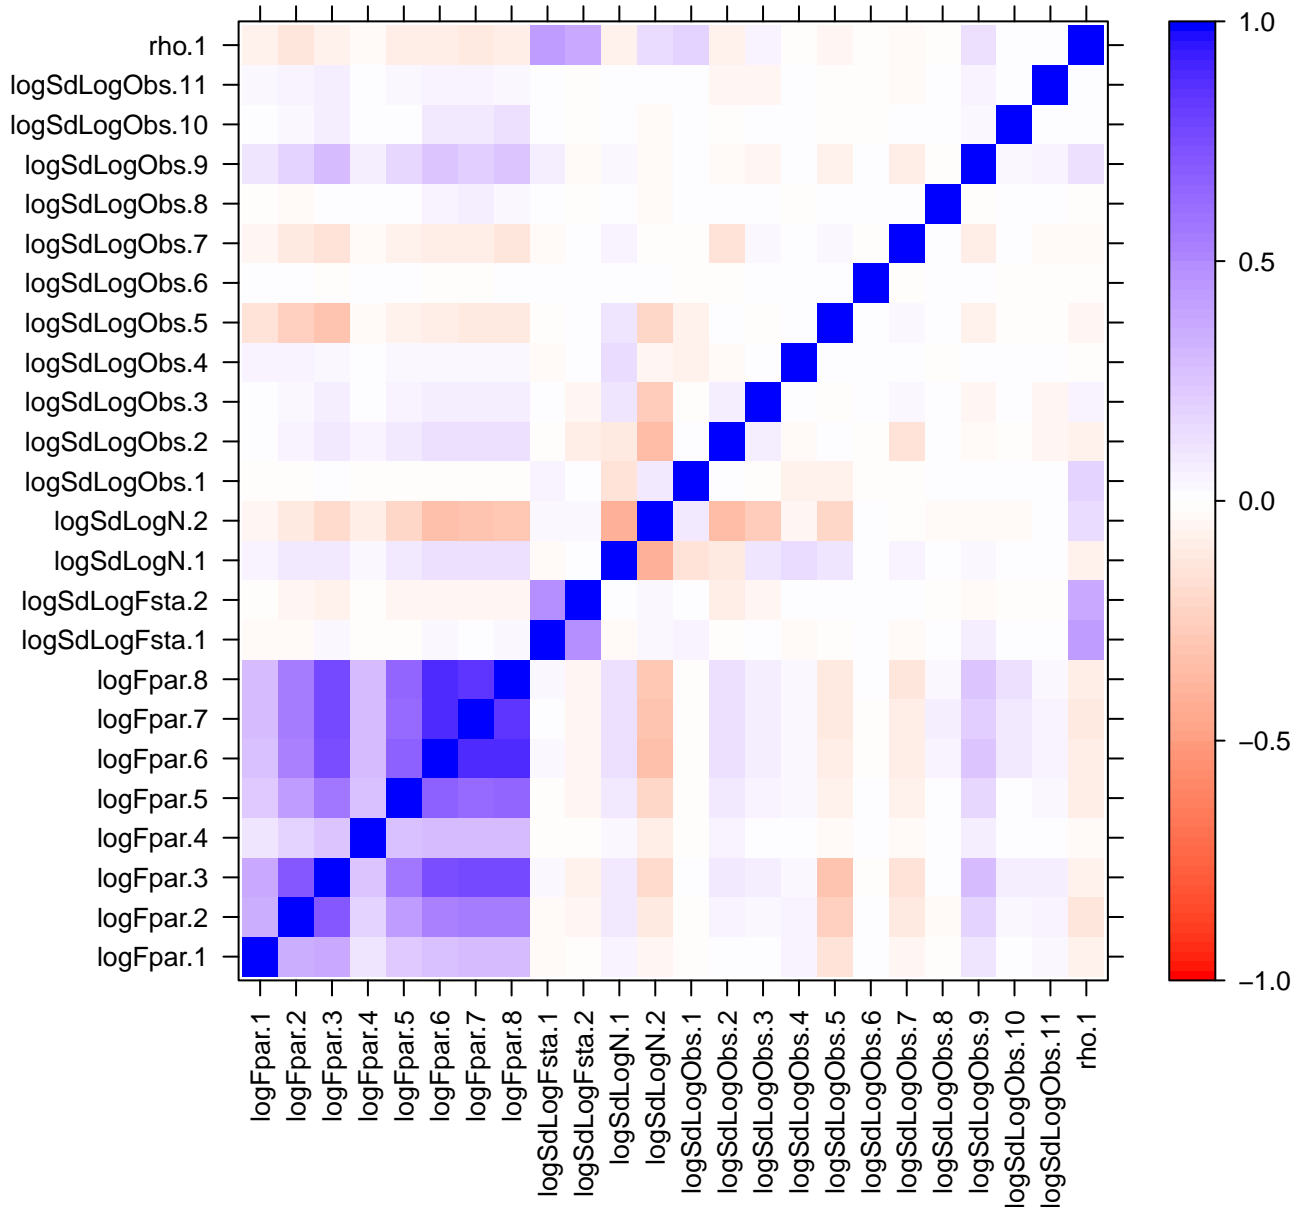

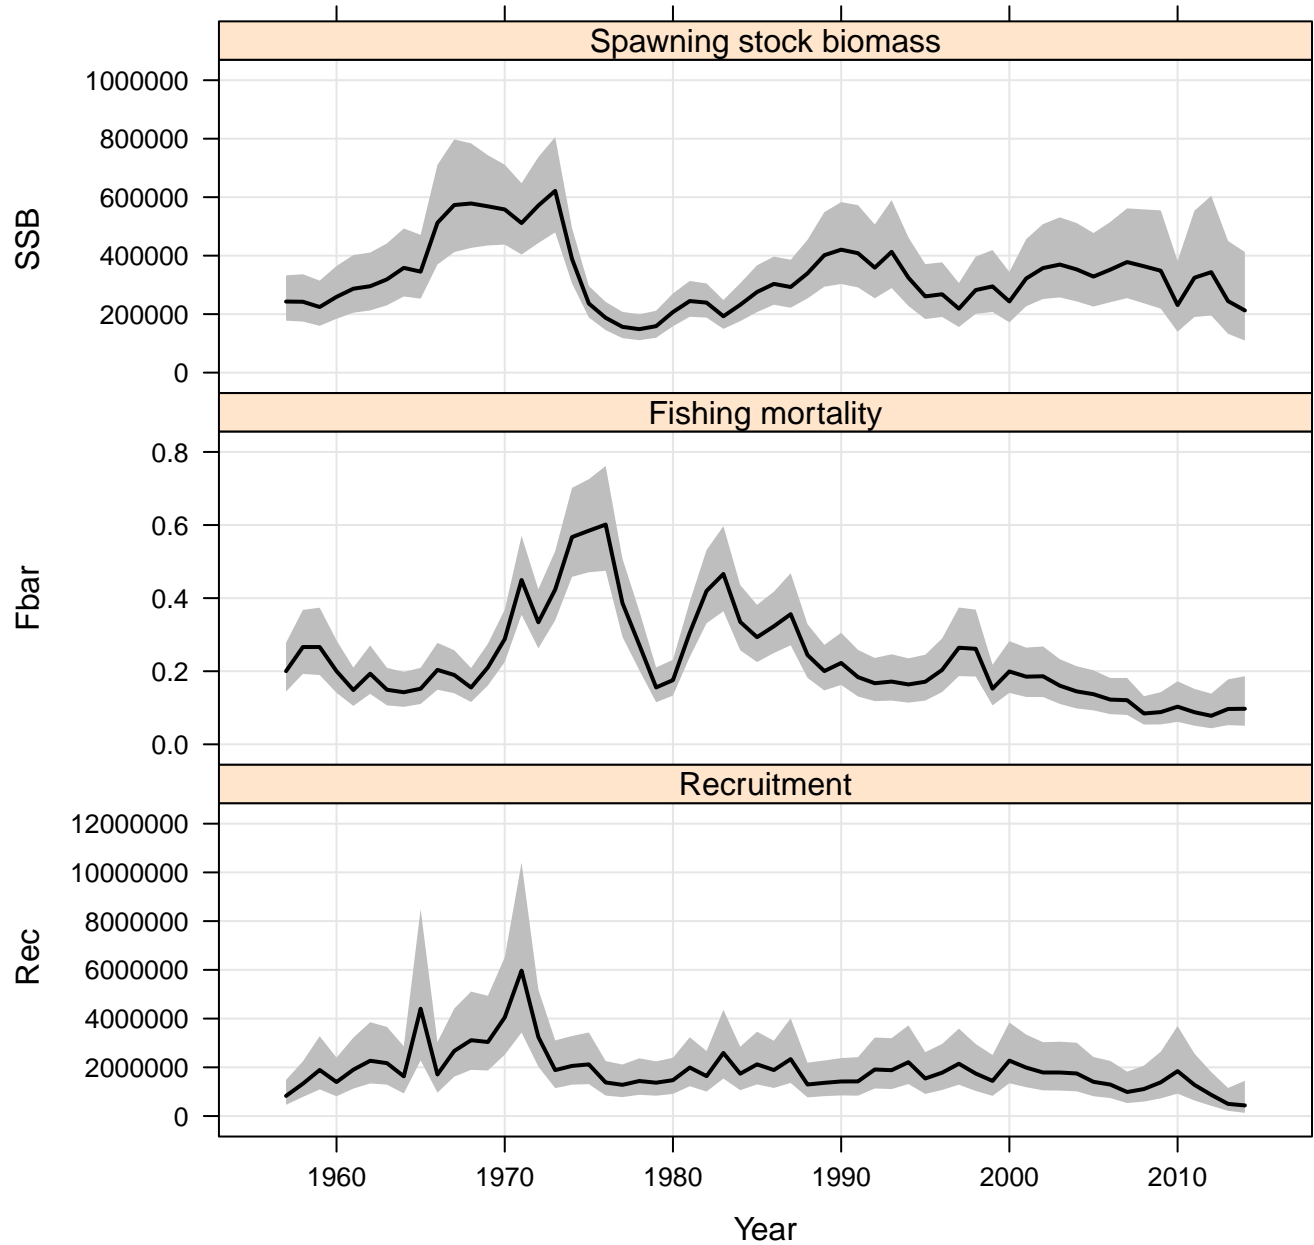

Observation variance vs uncertainty

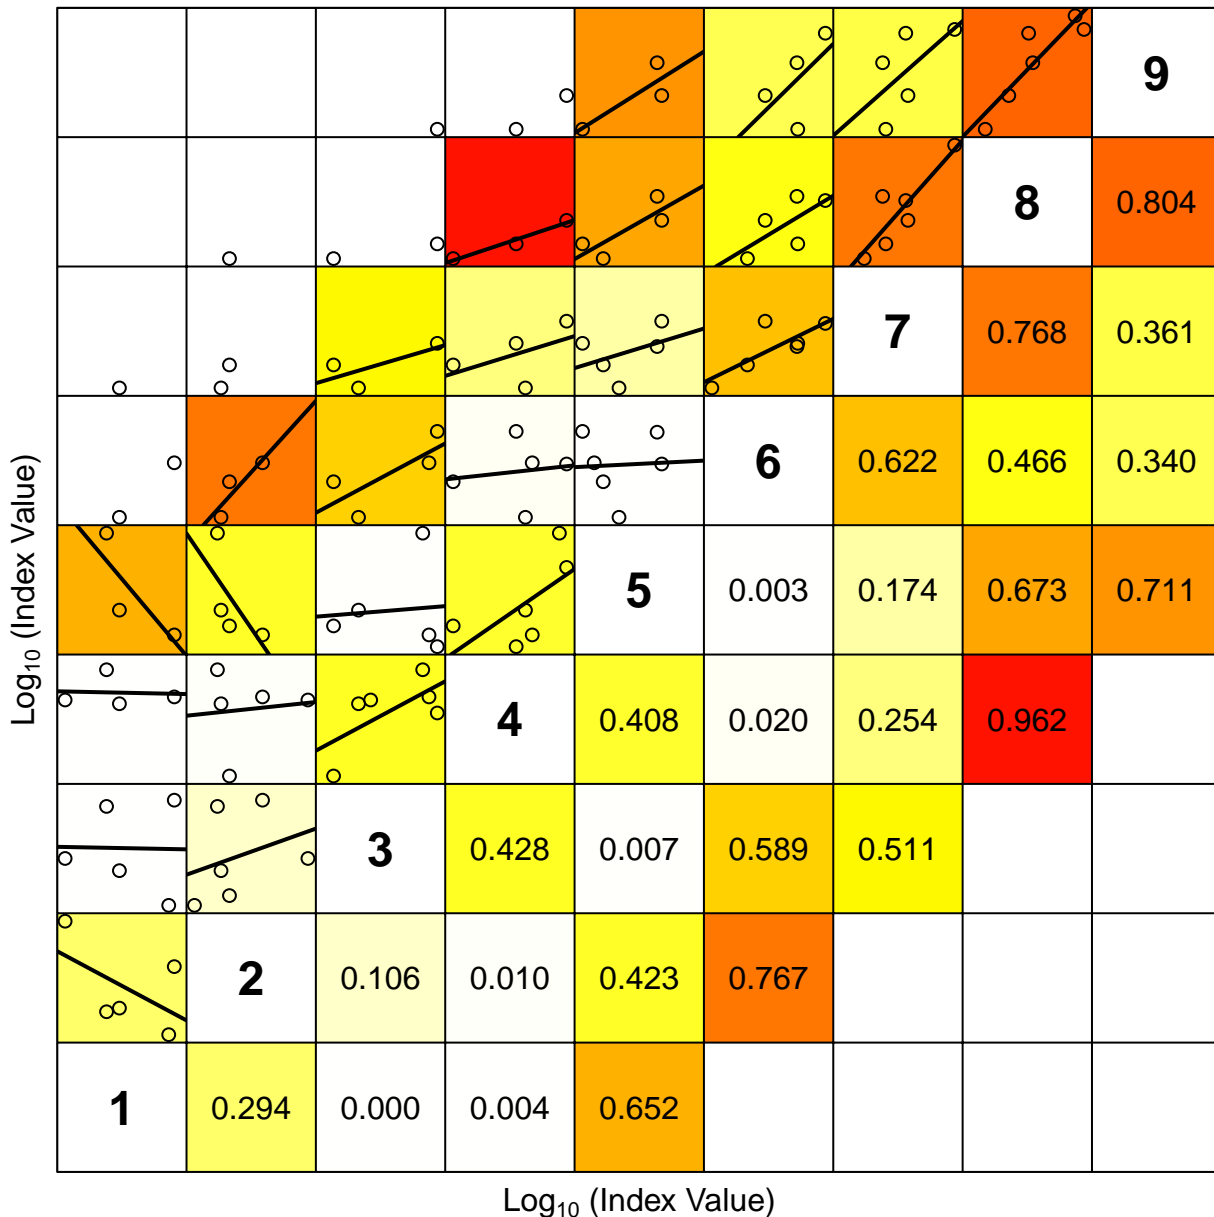

Selectivity of the Fishery by Period

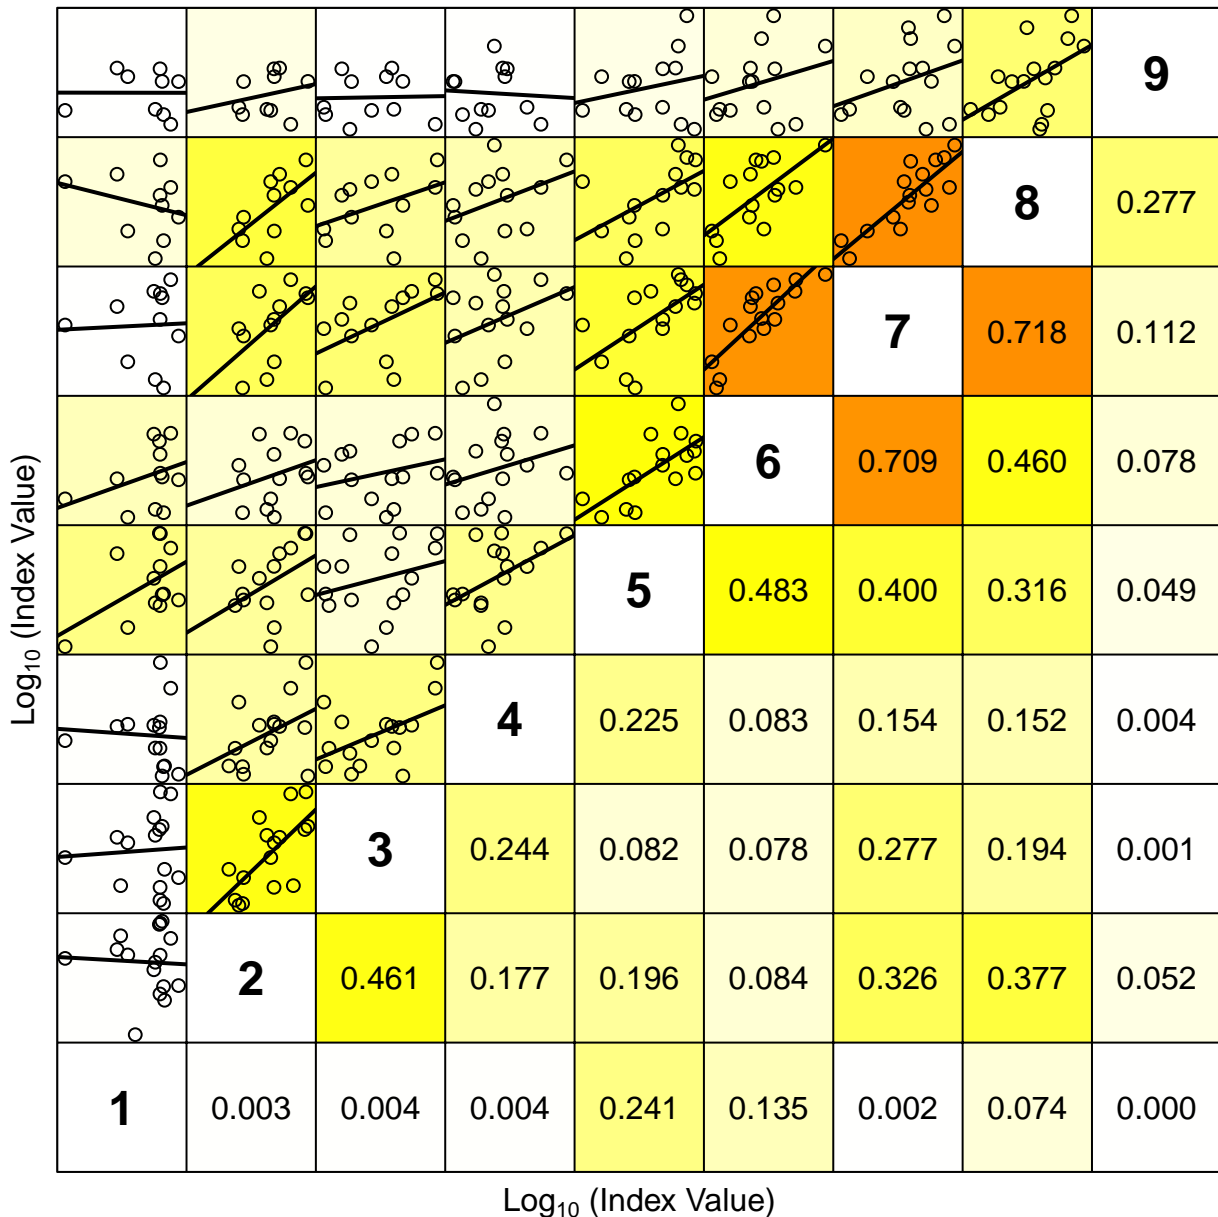

MS HERAS

Lower right panels show the Coefficient of Determination (r^2)

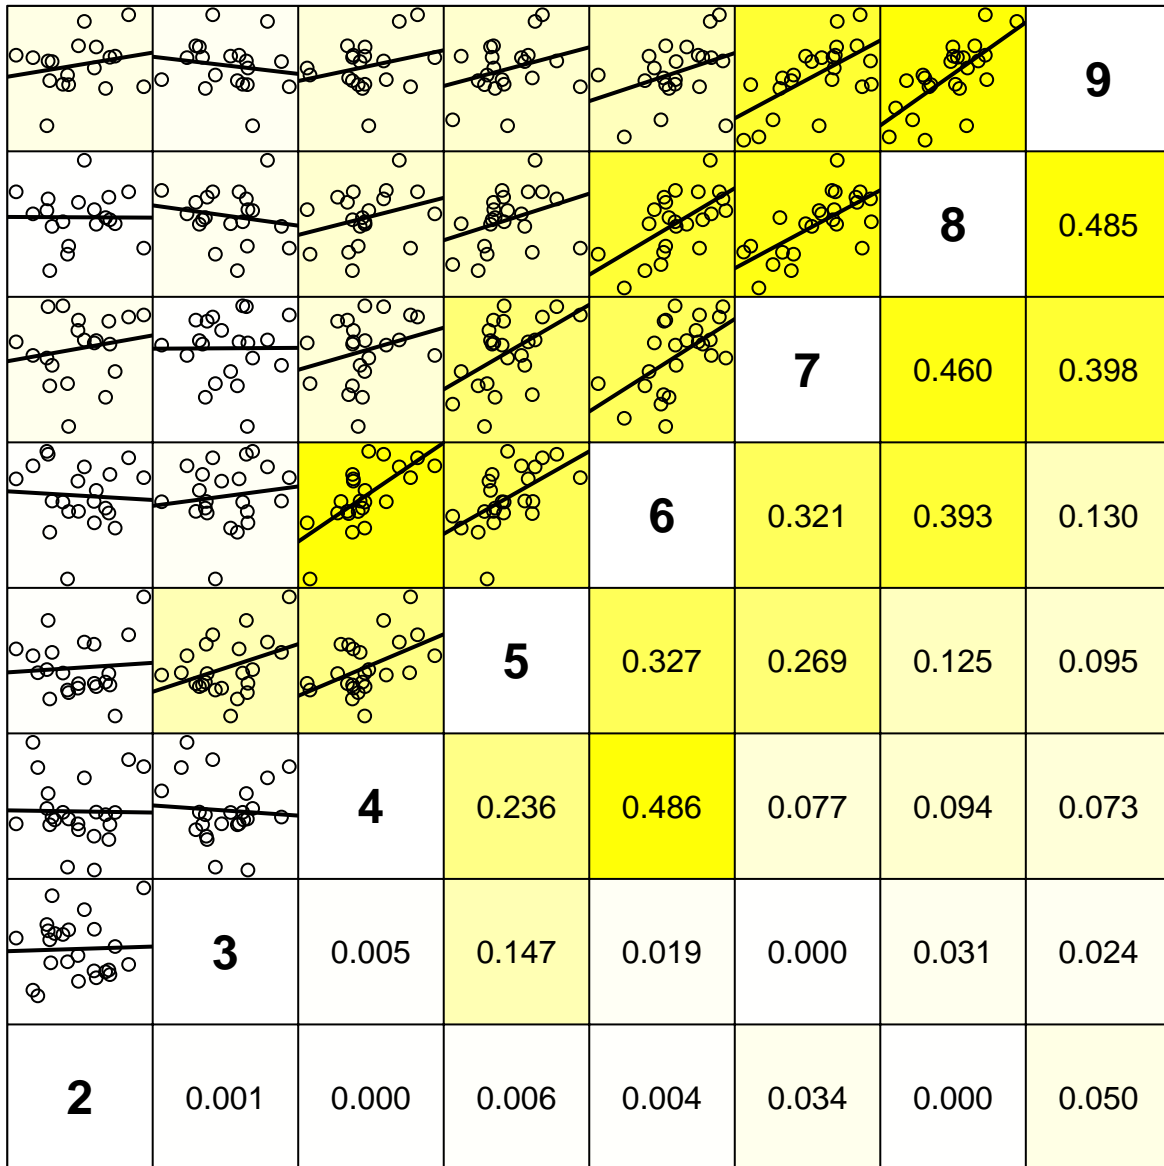

WoS HERAS

Lower right panels show the Coefficient of Determination (r^2)

IBTS_Q1

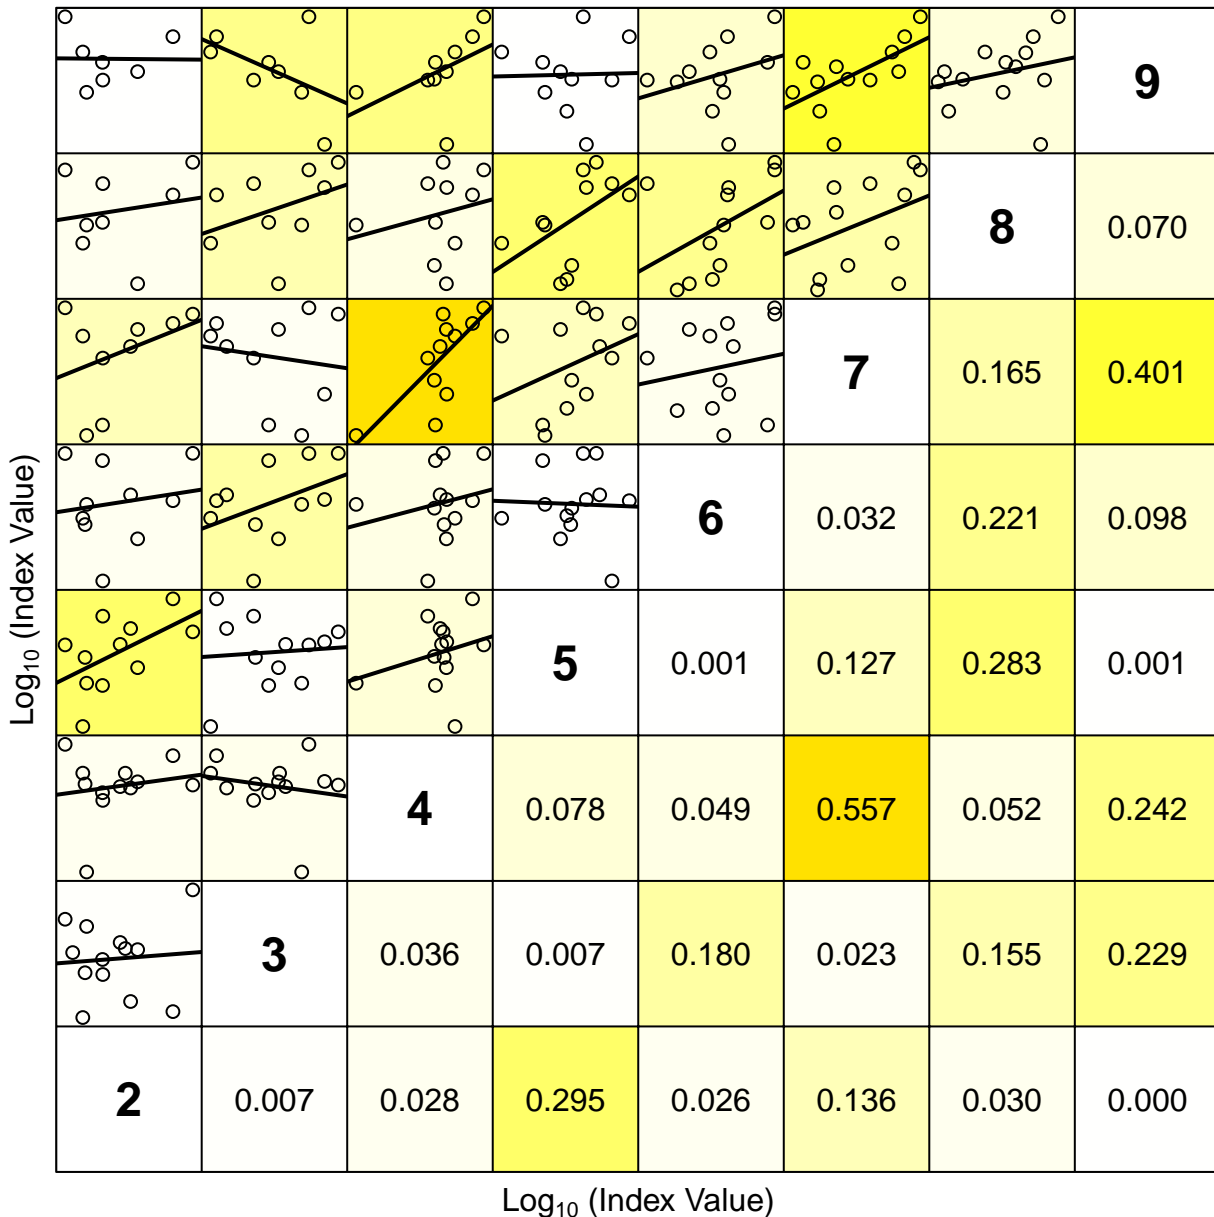

Log₁₀ (Index Value)

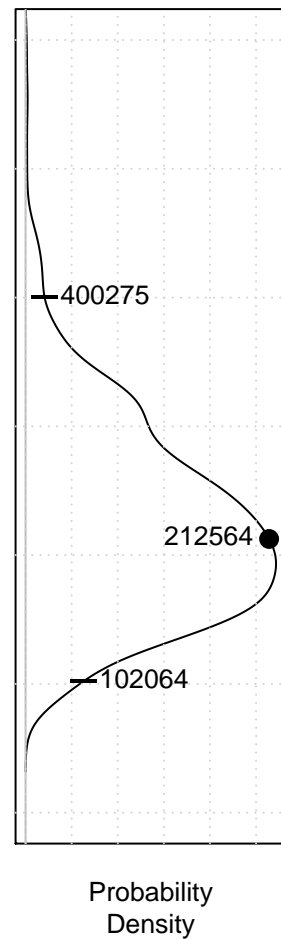

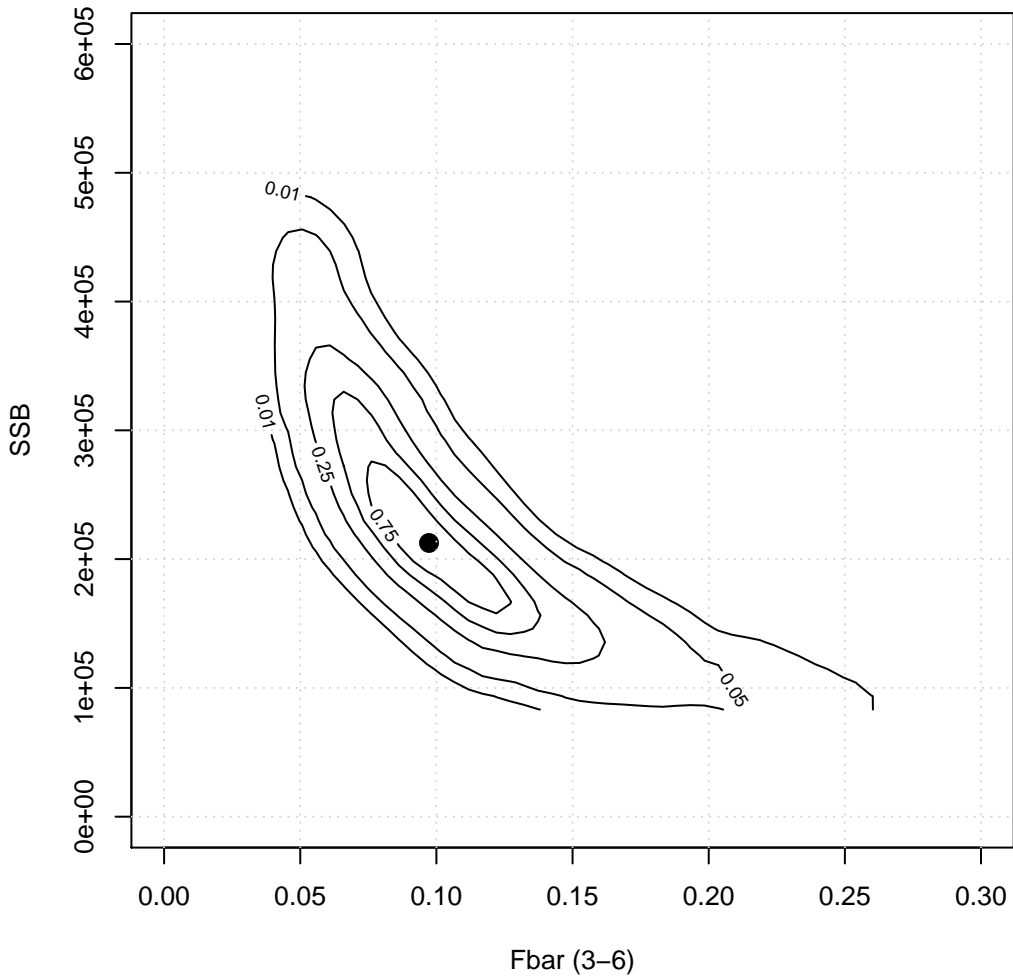

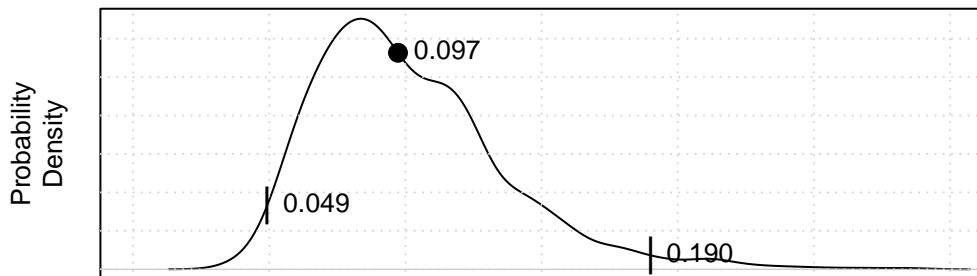

Log₁₀ (Index Value)

Lower right panels show the Coefficient of Determination (r^2)

IBTS_Q4

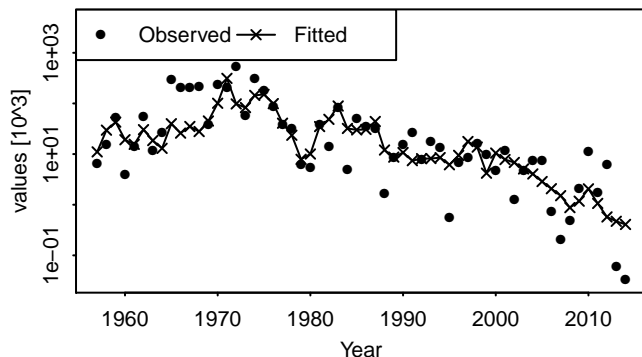

Lower right panels show the Coefficient of Determination (r^2)

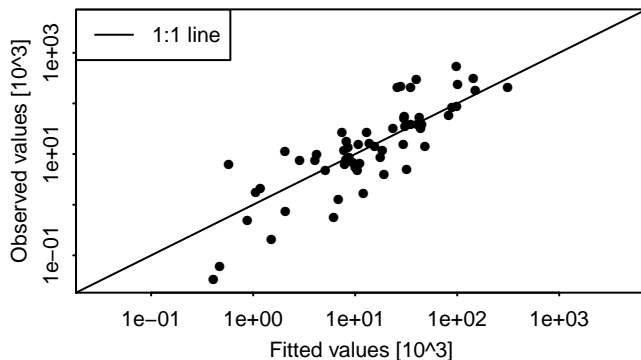

Diagnostics – catch, age 1

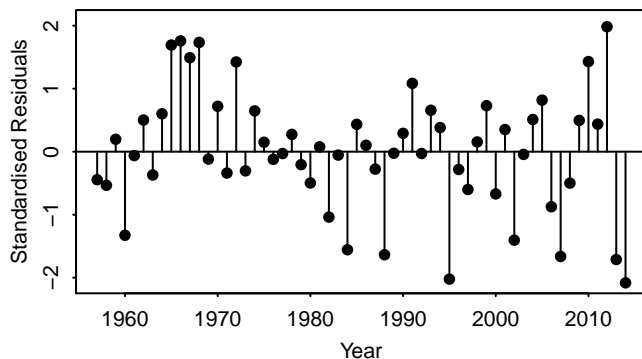

a) Observed and fitted values time series

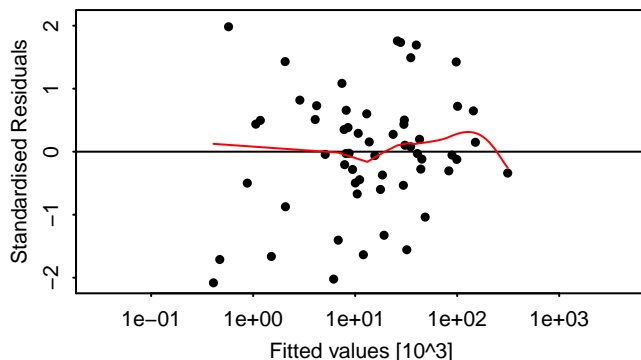

b) Observed vs fitted values

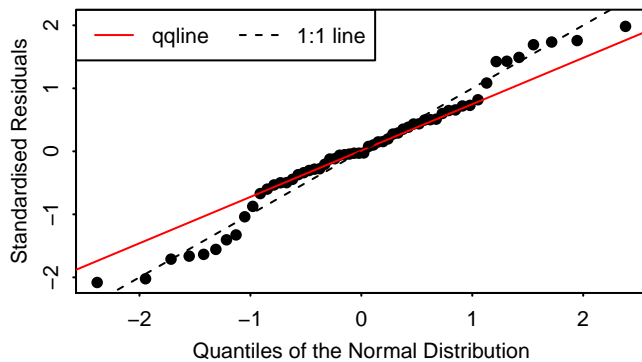

c) Standardised residuals over time

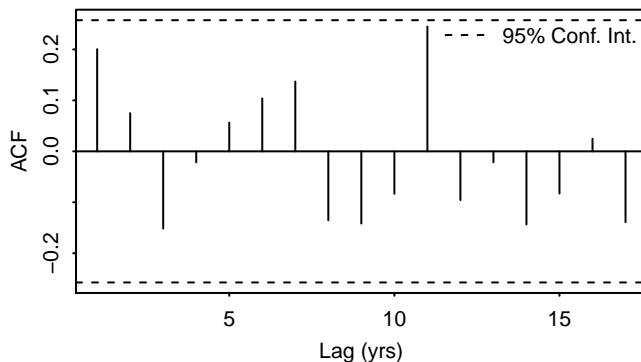

d) Tukey–Anscombe plot

e) Normal Q–Q plot

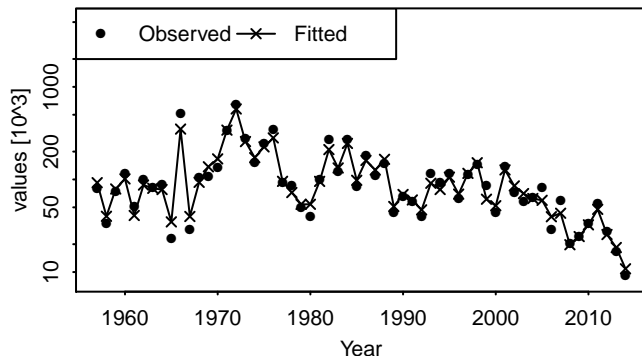

f) Autocorrelation of Residuals

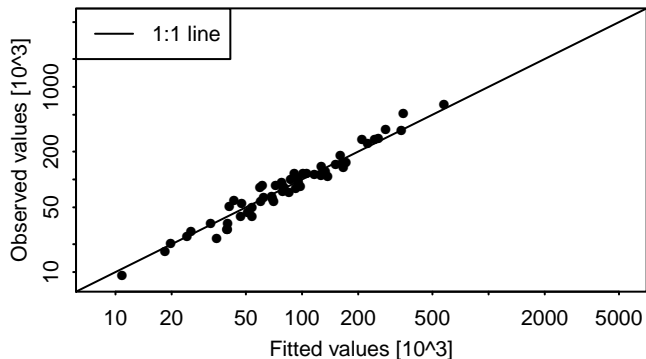

Diagnostics – catch, age 2

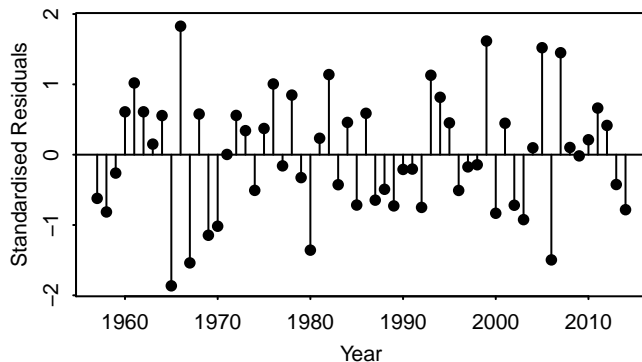

a) Observed and fitted values time series

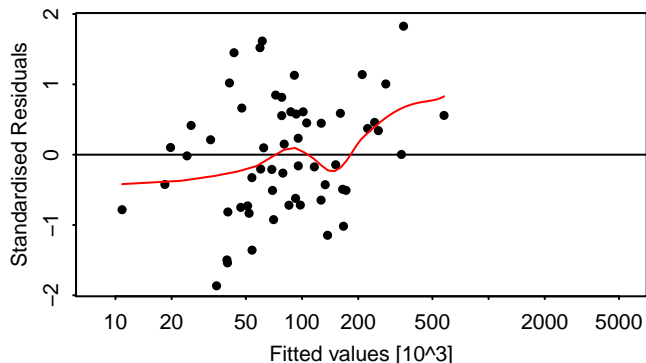

b) Observed vs fitted values

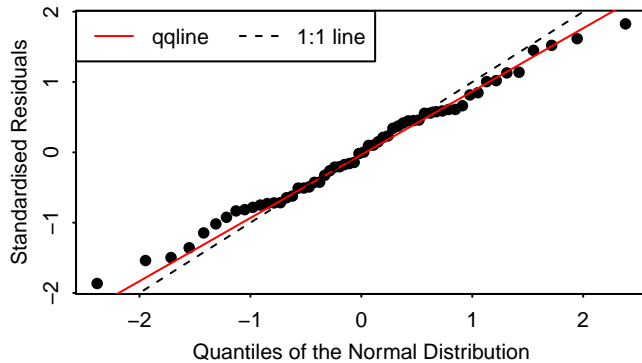

c) Standardised residuals over time

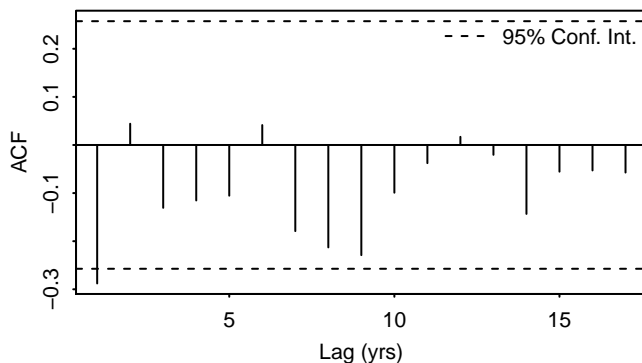

d) Tukey–Anscombe plot

e) Normal Q–Q plot

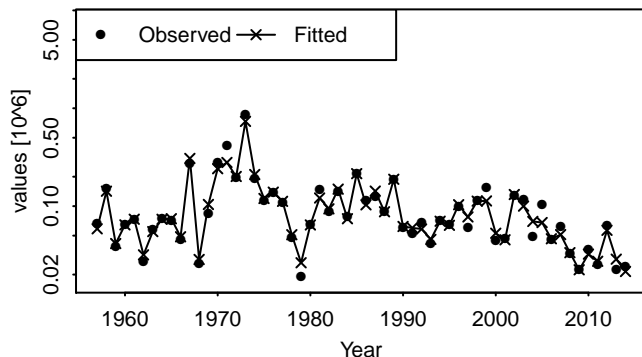

f) Autocorrelation of Residuals

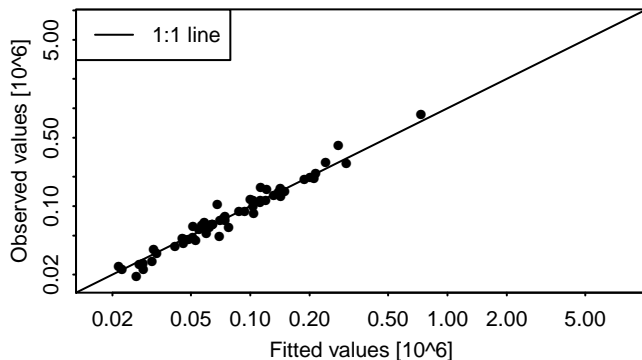

Diagnostics – catch, age 3

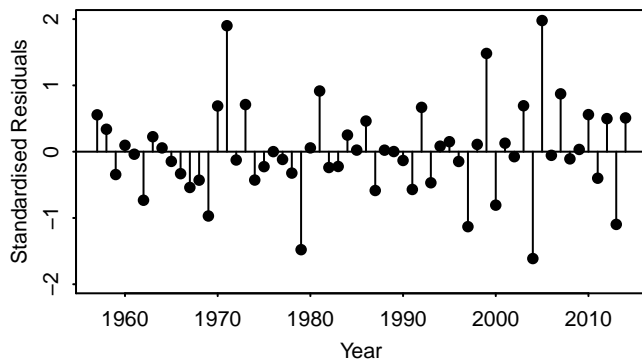

a) Observed and fitted values time series

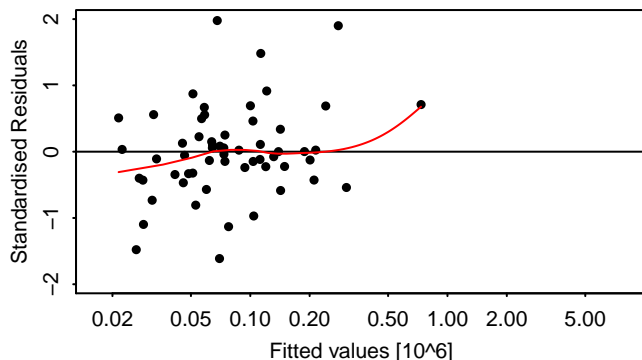

b) Observed vs fitted values

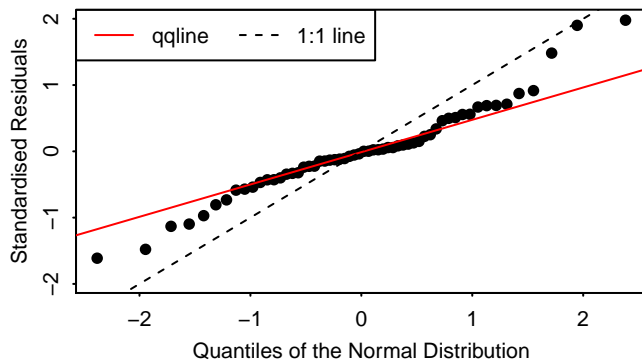

c) Standardised residuals over time

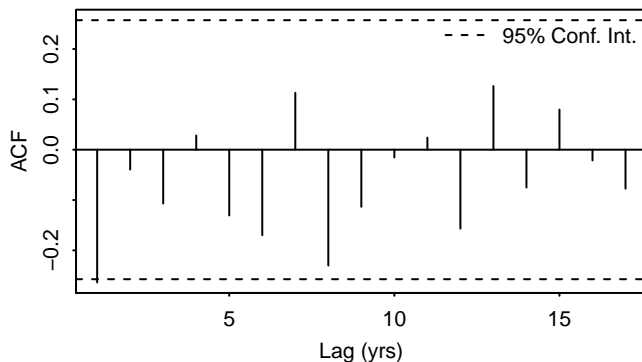

d) Tukey–Anscombe plot

e) Normal Q–Q plot

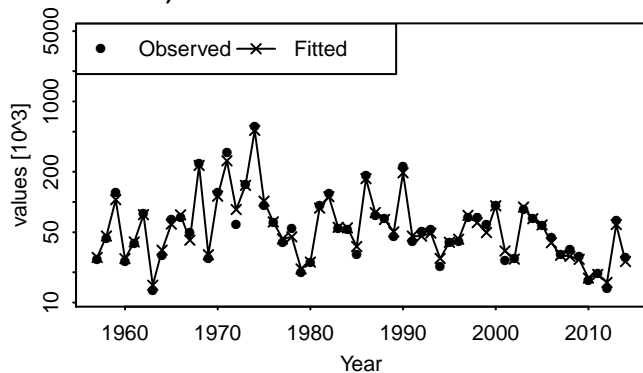

f) Autocorrelation of Residuals

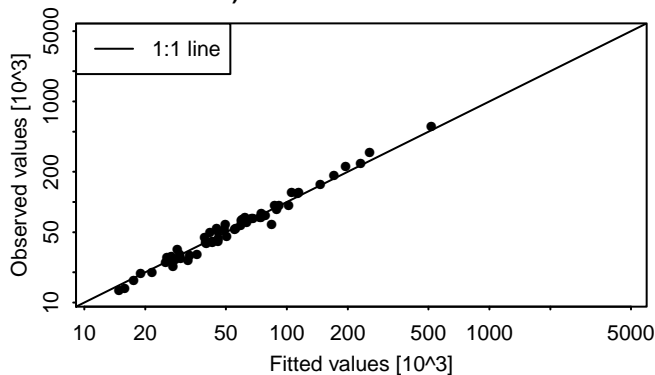

Diagnostics – catch, age 4

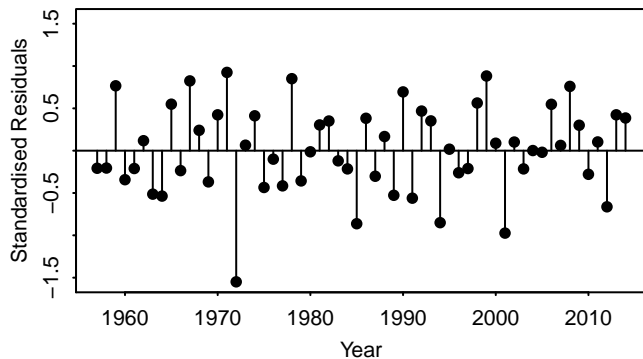

a) Observed and fitted values time series

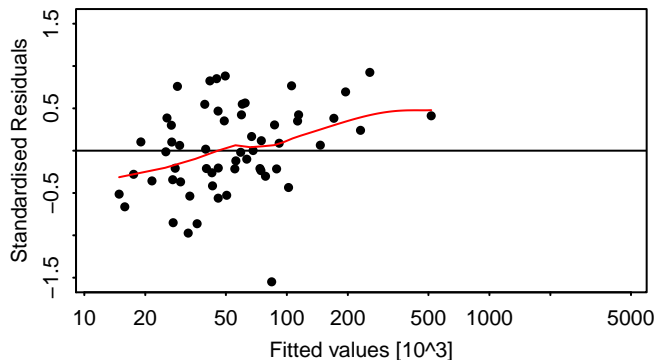

b) Observed vs fitted values

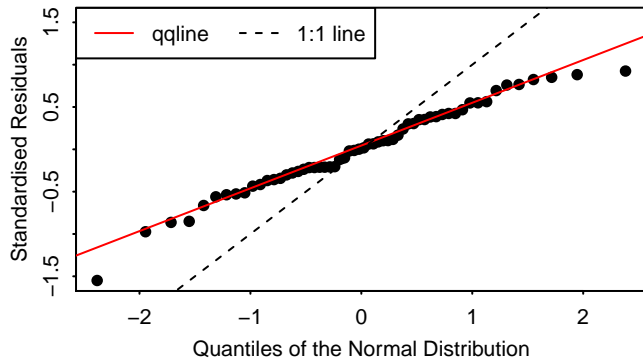

c) Standardised residuals over time

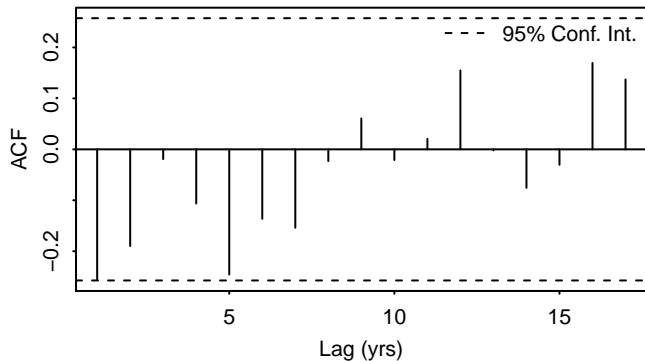

d) Tukey–Anscombe plot

e) Normal Q–Q plot

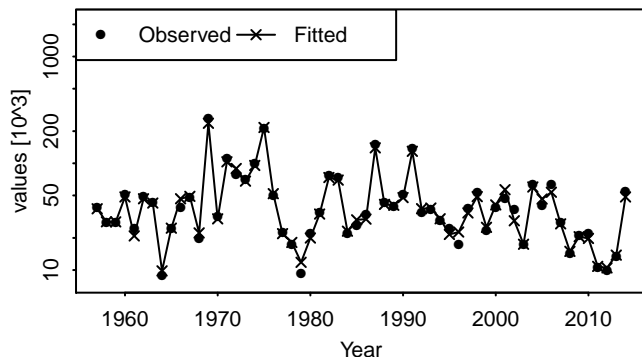

f) Autocorrelation of Residuals

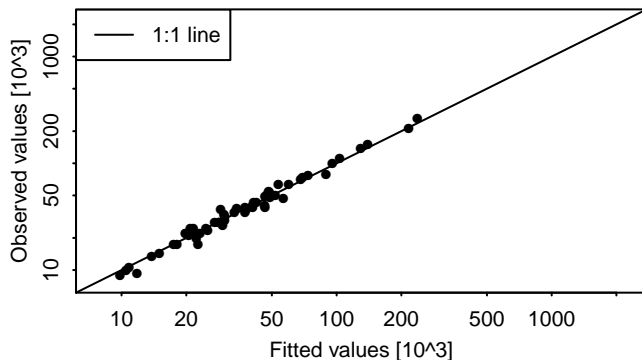

Diagnostics – catch, age 5

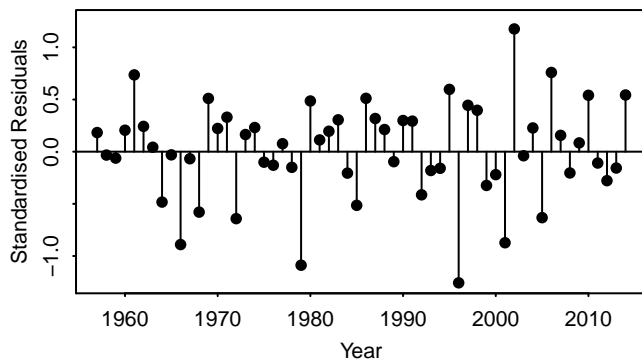

a) Observed and fitted values time series

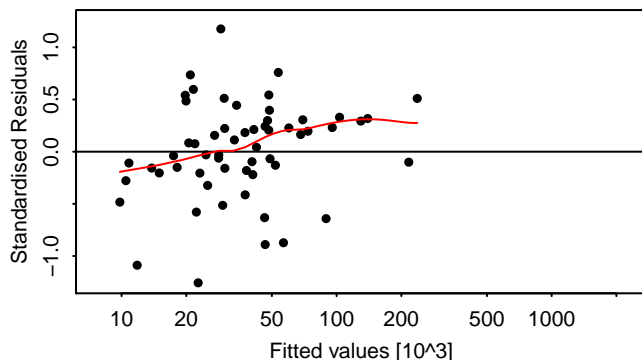

b) Observed vs fitted values

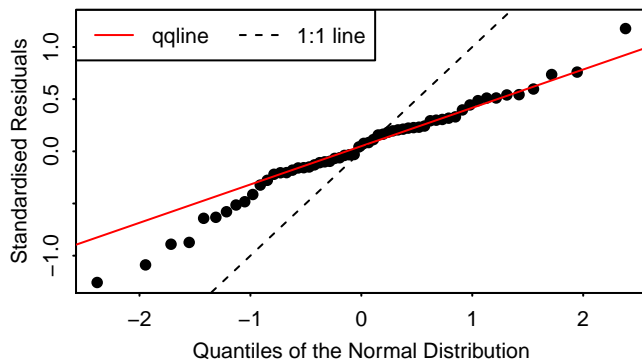

c) Standardised residuals over time

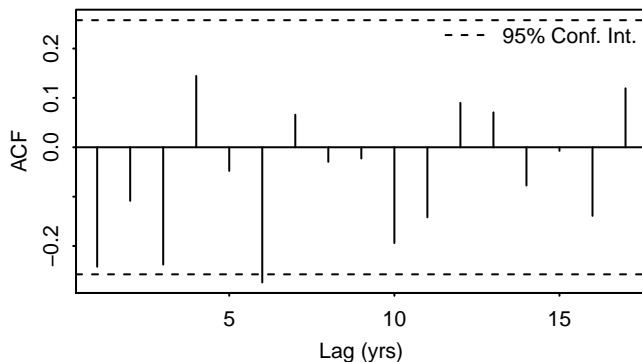

d) Tukey–Anscombe plot

e) Normal Q–Q plot

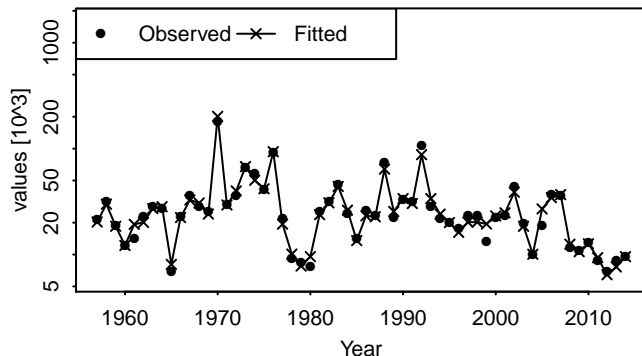

f) Autocorrelation of Residuals

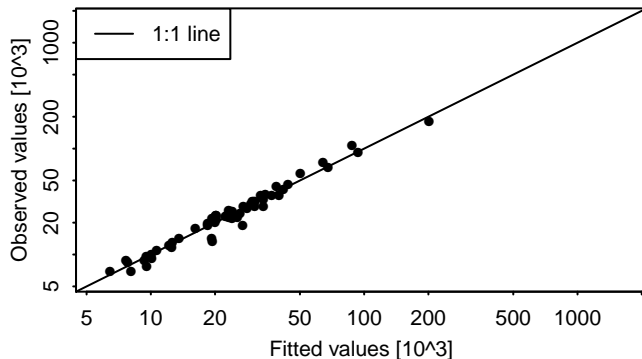

Diagnostics – catch, age 6

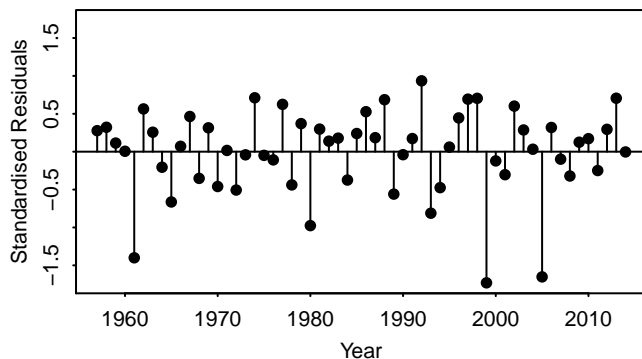

a) Observed and fitted values time series

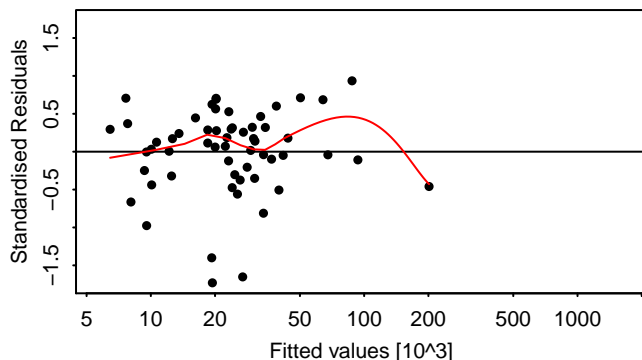

b) Observed vs fitted values

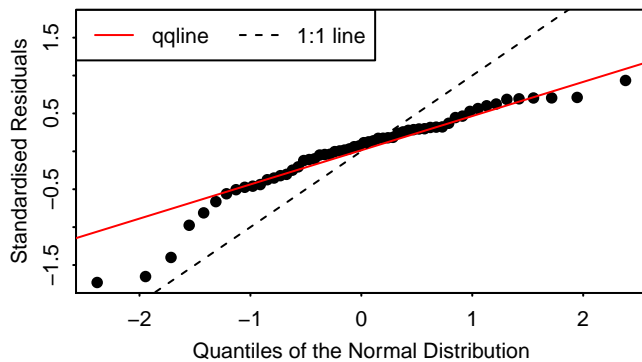

c) Standardised residuals over time

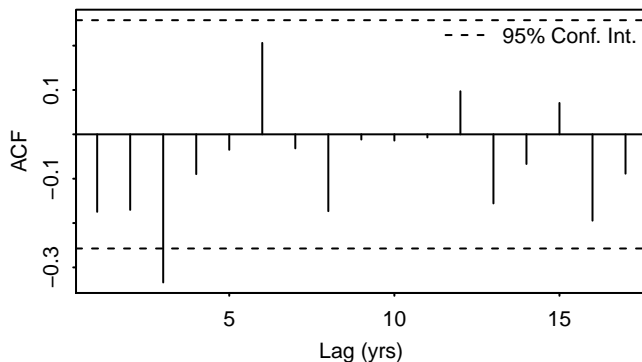

d) Tukey–Anscombe plot

e) Normal Q–Q plot

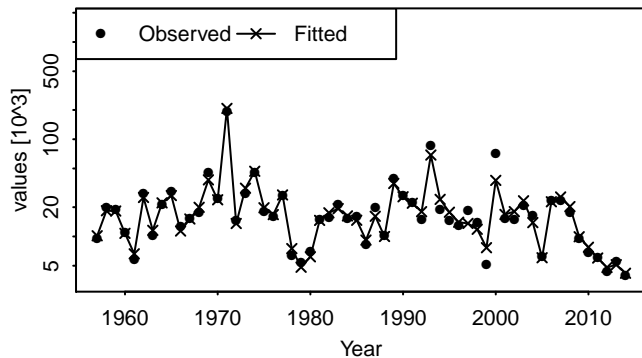

f) Autocorrelation of Residuals

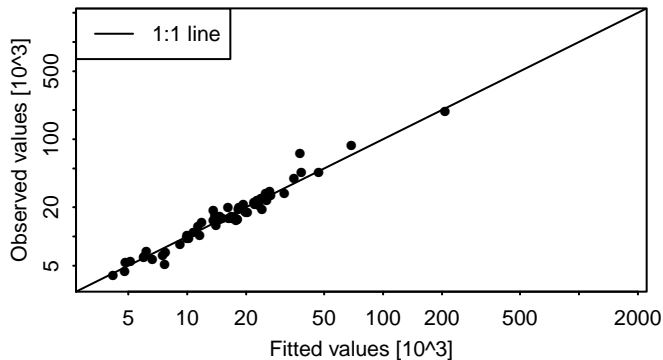

Diagnostics – catch, age 7

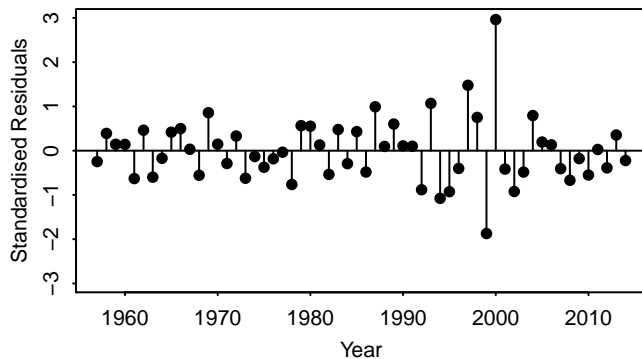

a) Observed and fitted values time series

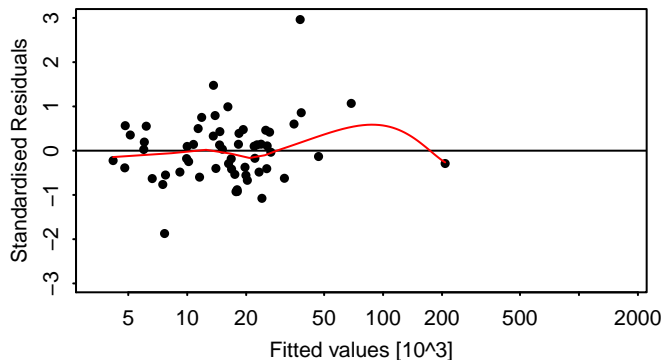

b) Observed vs fitted values

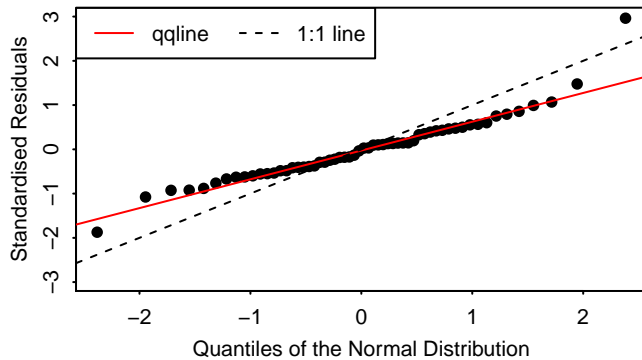

c) Standardised residuals over time

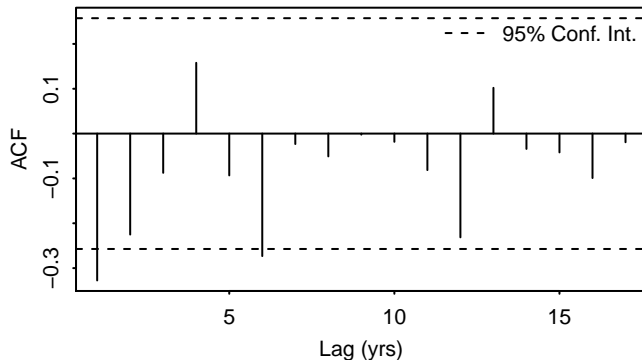

d) Tukey–Anscombe plot

e) Normal Q–Q plot

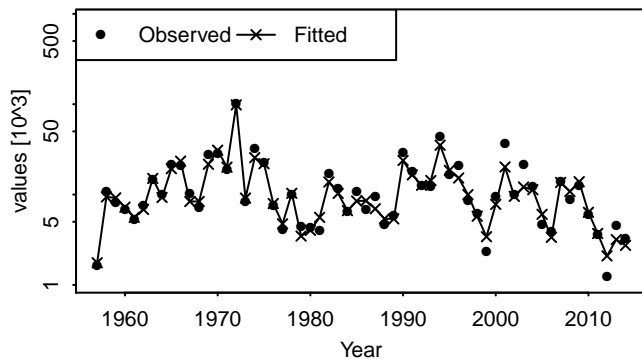

f) Autocorrelation of Residuals

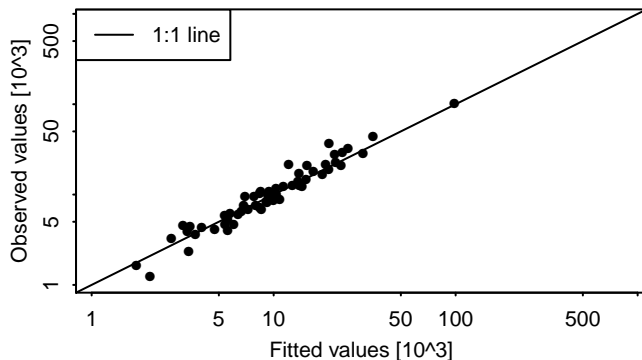

Diagnostics – catch, age 8

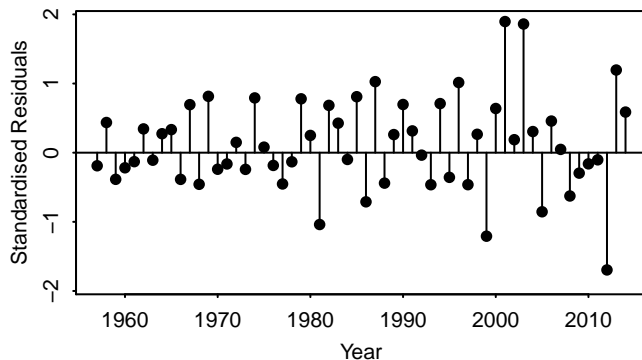

a) Observed and fitted values time series

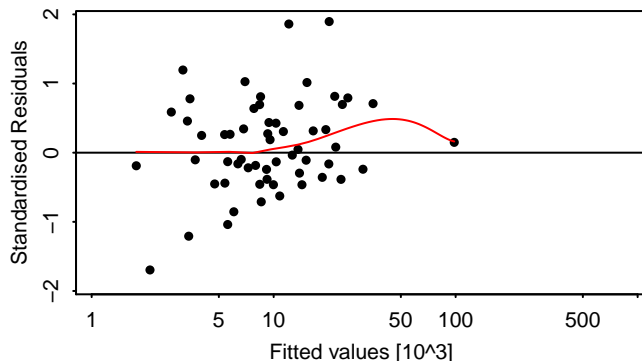

b) Observed vs fitted values

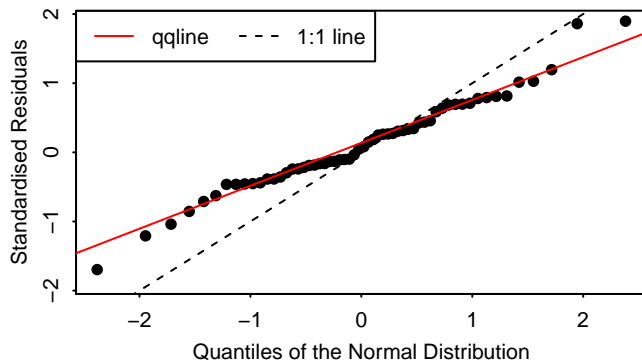

c) Standardised residuals over time

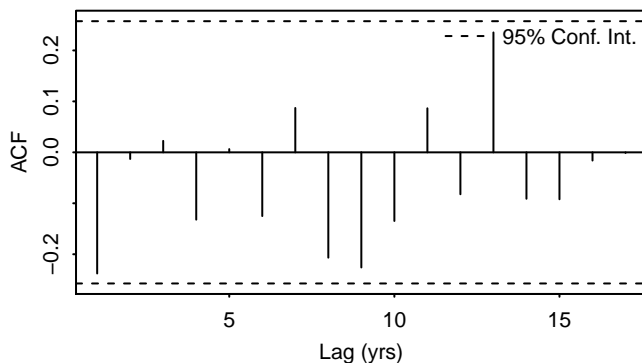

d) Tukey–Anscombe plot

e) Normal Q–Q plot

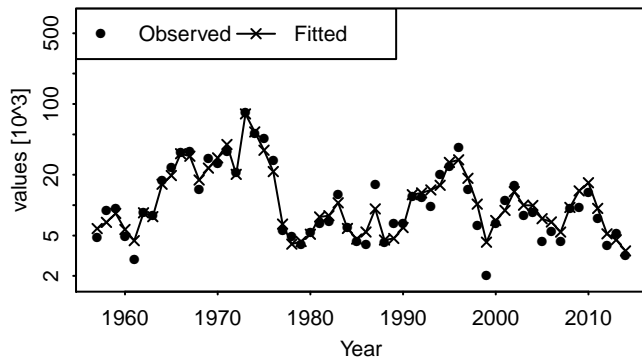

f) Autocorrelation of Residuals

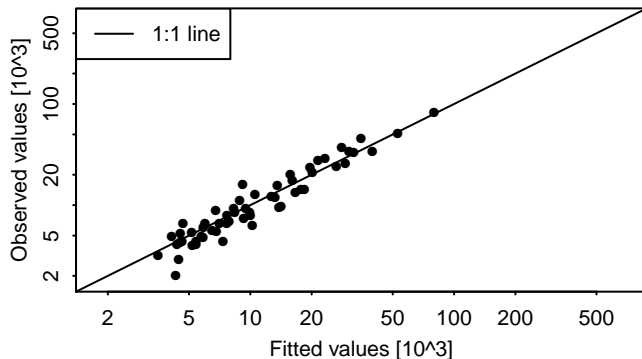

Diagnostics – catch, age 9

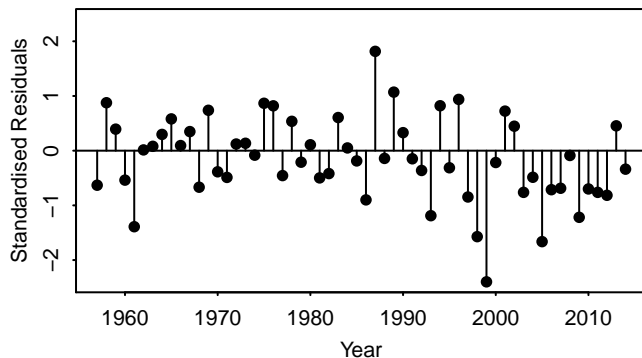

a) Observed and fitted values time series

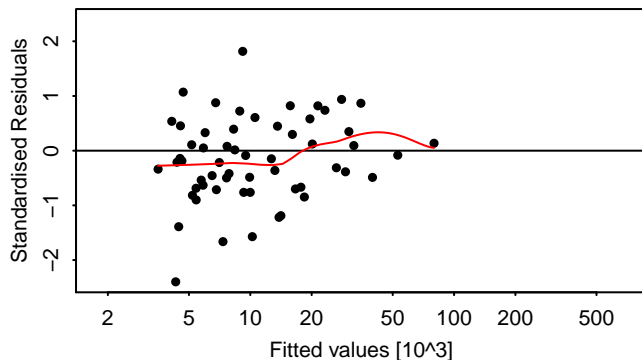

b) Observed vs fitted values

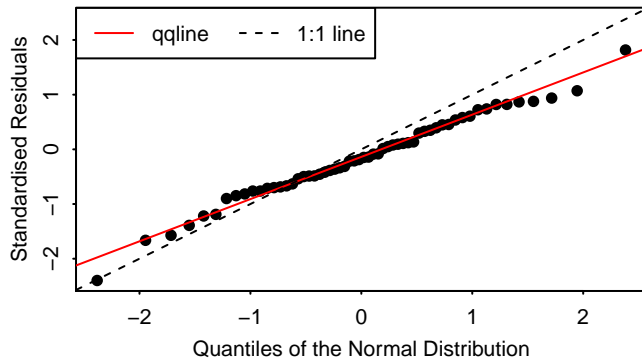

c) Standardised residuals over time

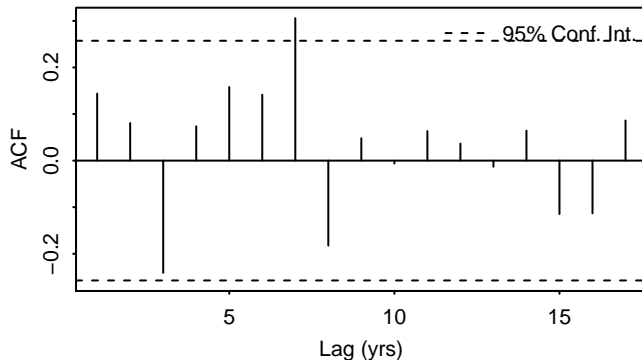

d) Tukey–Anscombe plot

e) Normal Q–Q plot

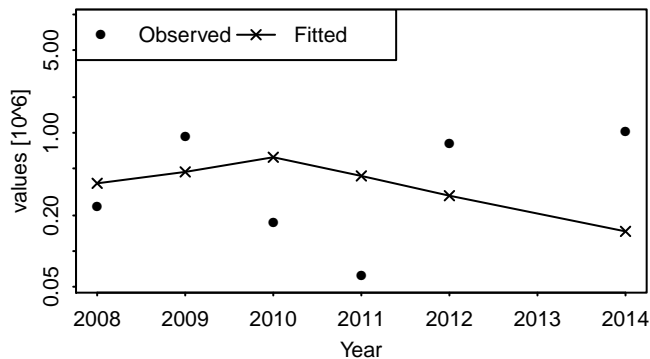

f) Autocorrelation of Residuals

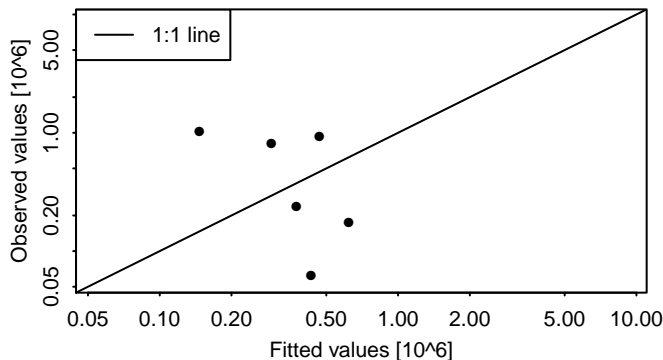

Diagnostics – MS HERAS, age 1

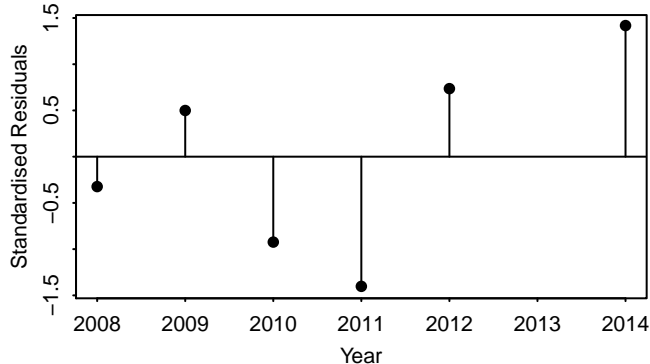

a) Observed and fitted values time series

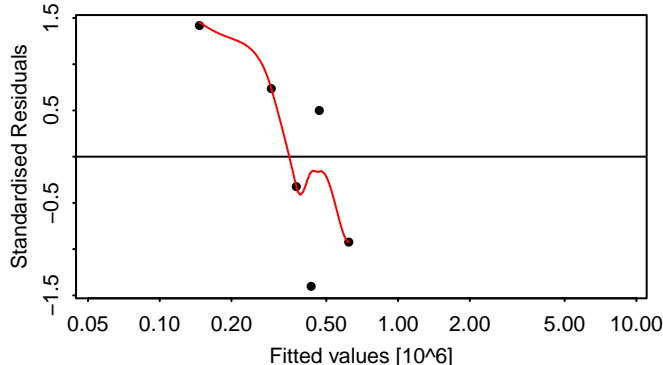

b) Observed vs fitted values

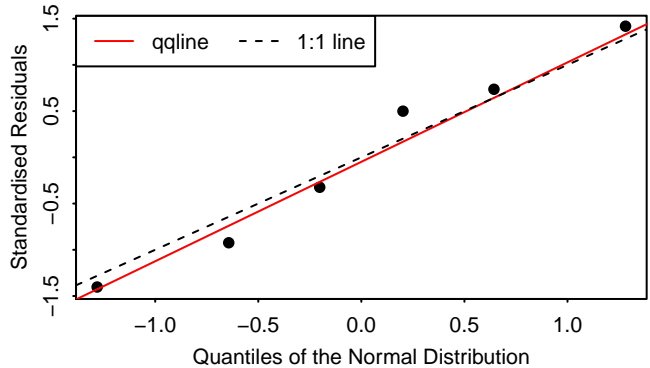

c) Standardised residuals over time

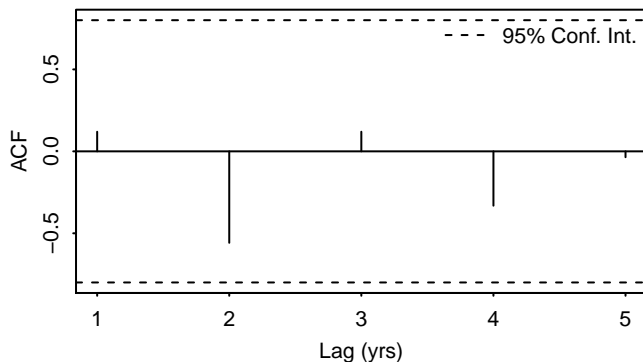

d) Tukey–Anscombe plot

e) Normal Q–Q plot

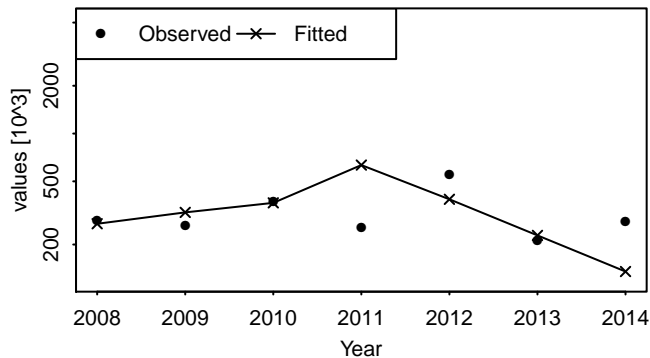

f) Autocorrelation of Residuals

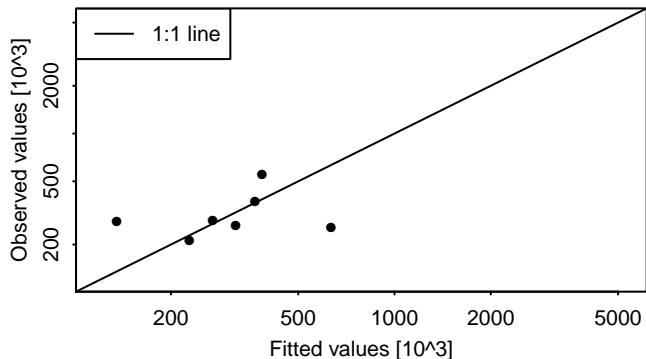

Diagnostics – MS HERAS, age 2

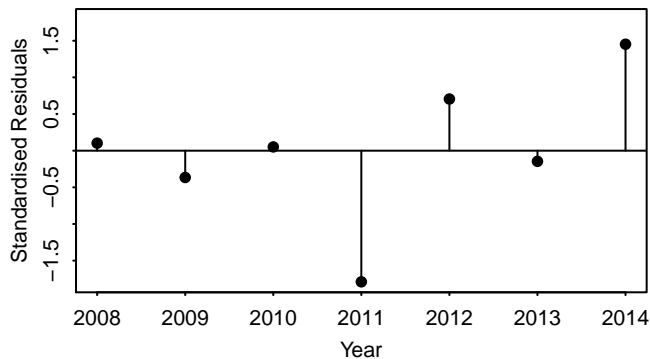

a) Observed and fitted values time series

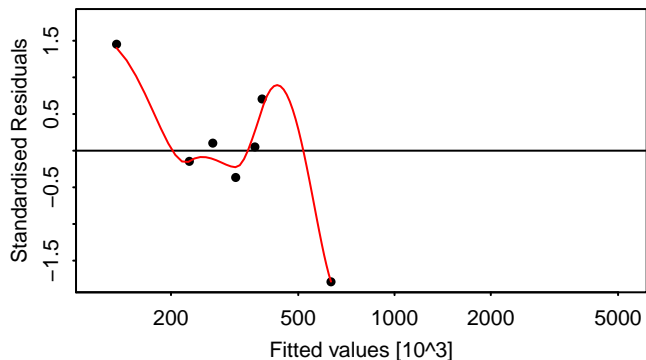

b) Observed vs fitted values

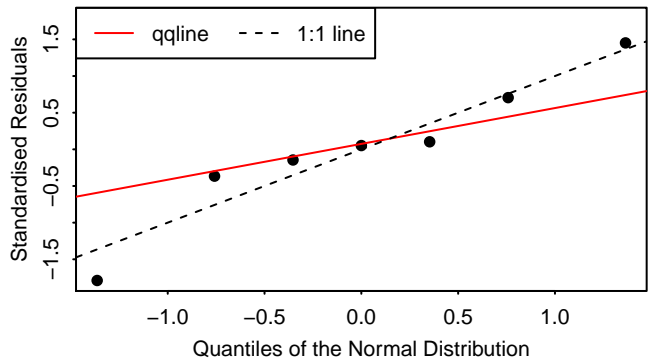

c) Standardised residuals over time

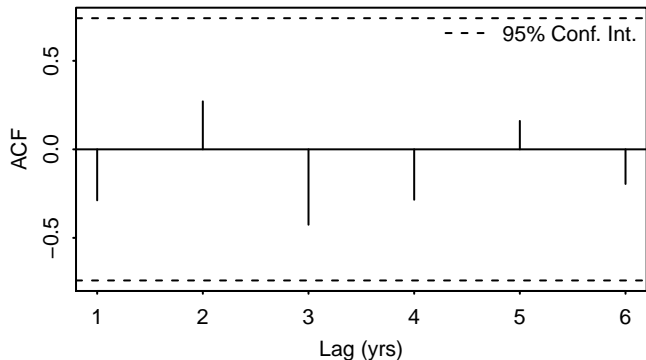

d) Tukey–Anscombe plot

e) Normal Q–Q plot

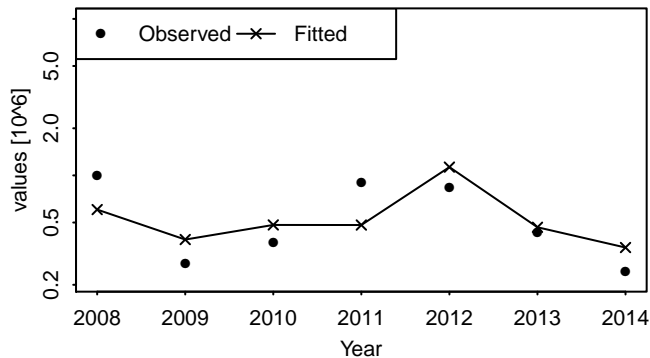

f) Autocorrelation of Residuals

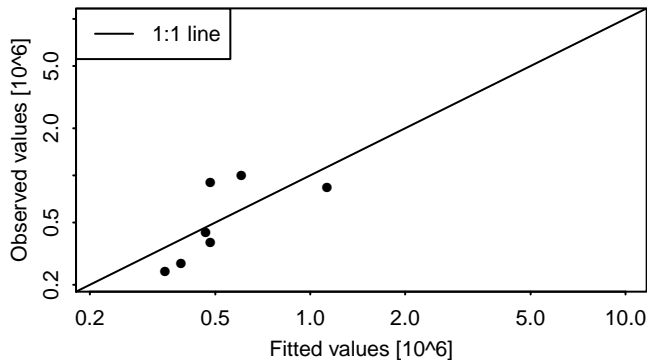

Diagnostics – MS HERAS, age 3

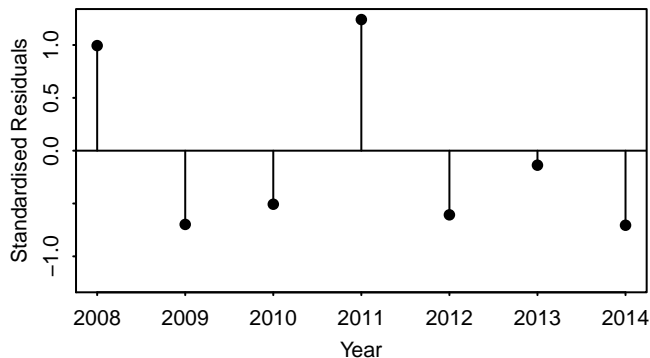

a) Observed and fitted values time series

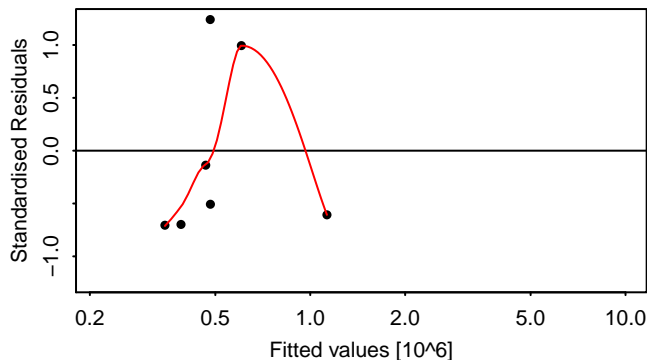

b) Observed vs fitted values

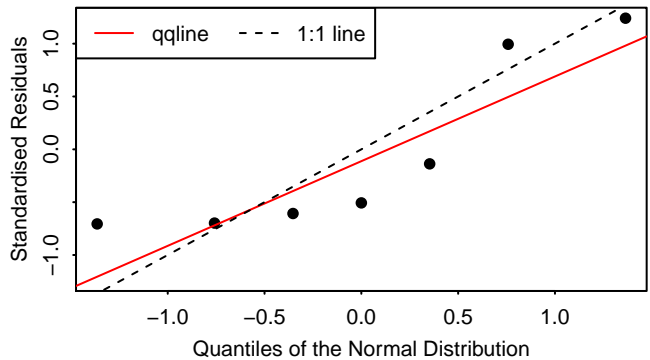

c) Standardised residuals over time

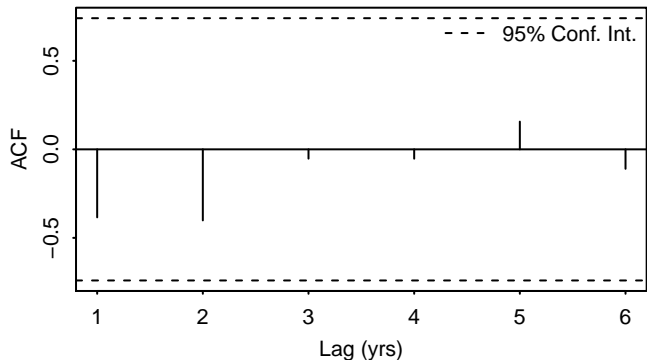

d) Tukey–Anscombe plot

e) Normal Q–Q plot

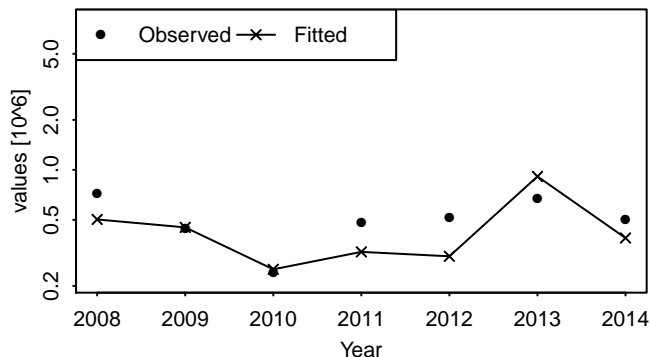

f) Autocorrelation of Residuals

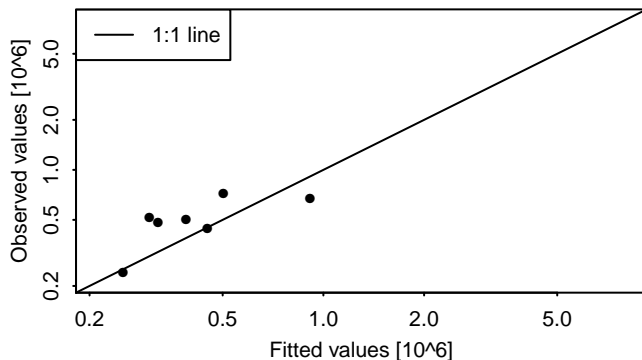

Diagnostics – MS HERAS, age 4

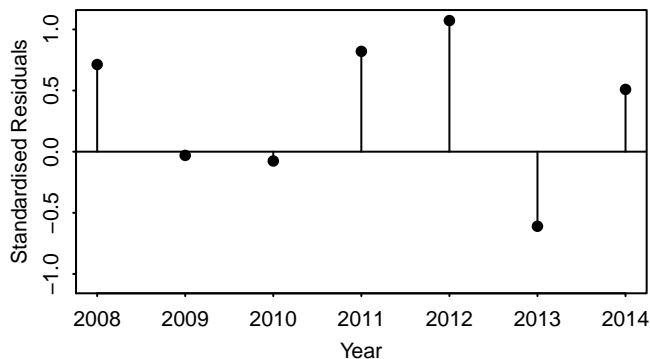

a) Observed and fitted values time series

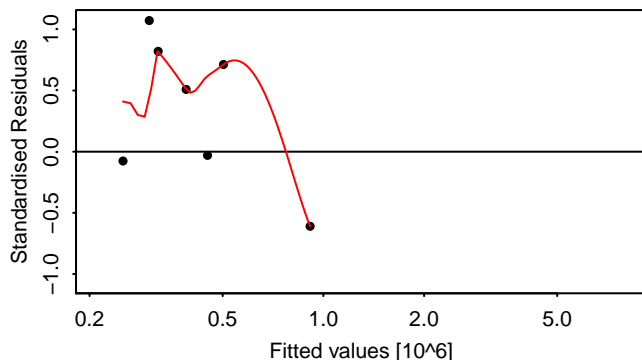

b) Observed vs fitted values

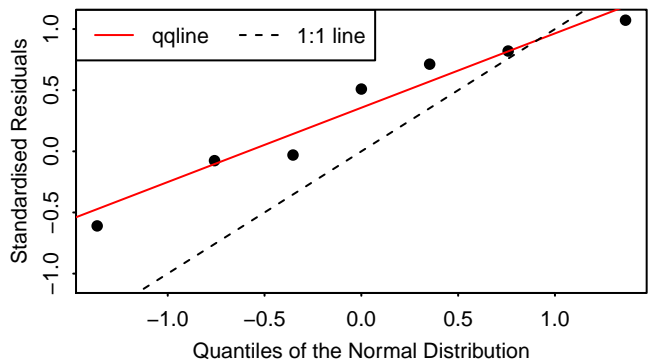

c) Standardised residuals over time

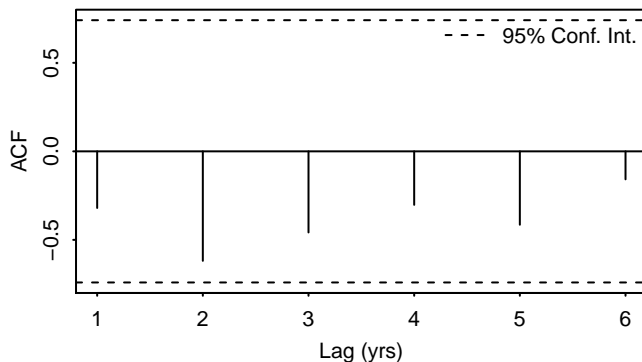

d) Tukey–Anscombe plot

e) Normal Q–Q plot

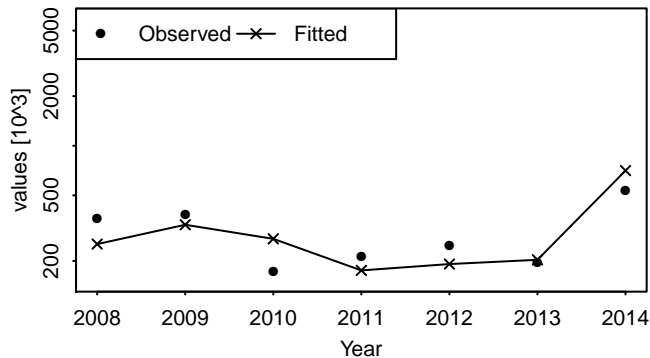

f) Autocorrelation of Residuals

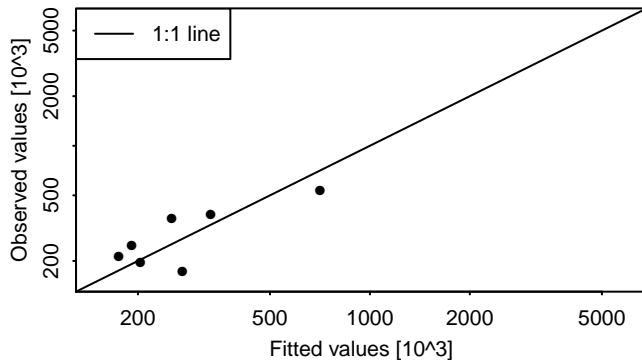

Diagnostics – MS HERAS, age 5

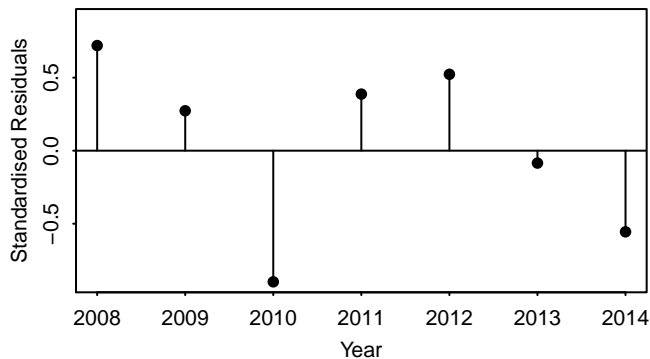

a) Observed and fitted values time series

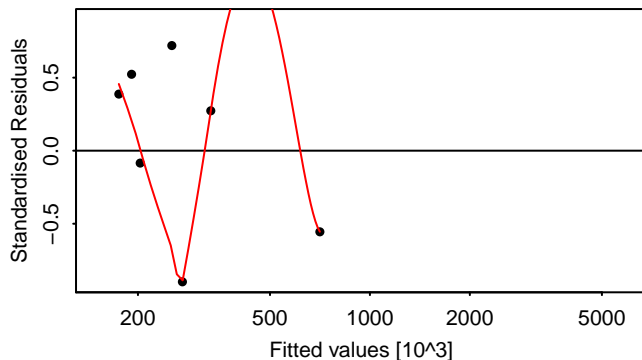

b) Observed vs fitted values

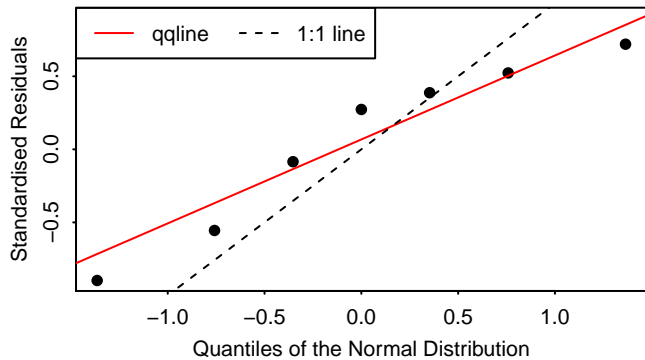

c) Standardised residuals over time

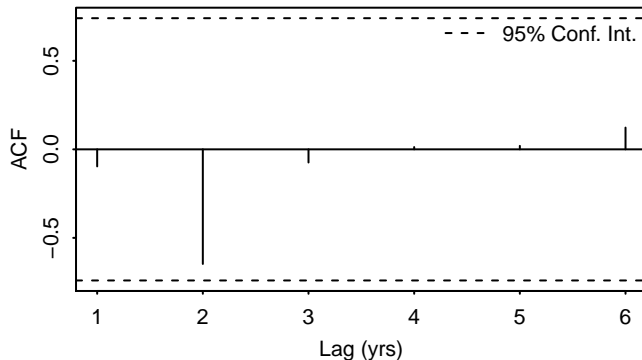

d) Tukey–Anscombe plot

e) Normal Q–Q plot

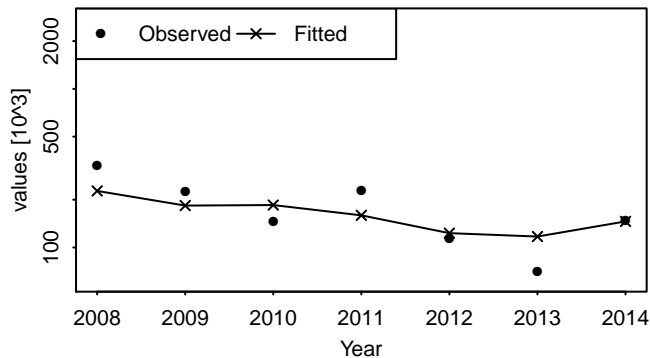

f) Autocorrelation of Residuals

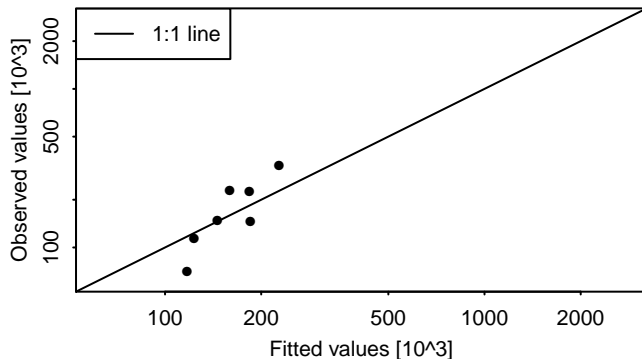

Diagnostics – MS HERAS, age 6

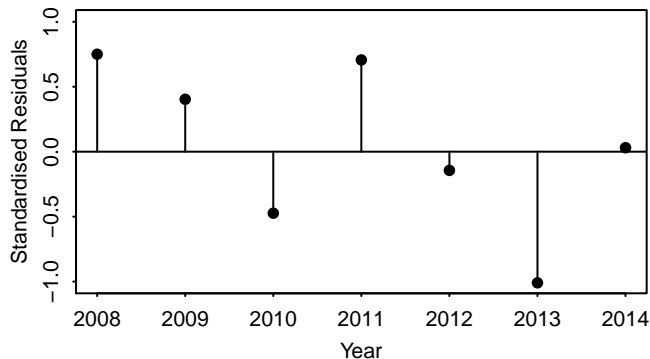

a) Observed and fitted values time series

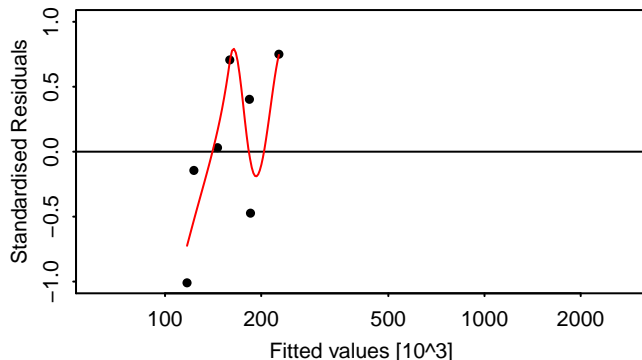

b) Observed vs fitted values

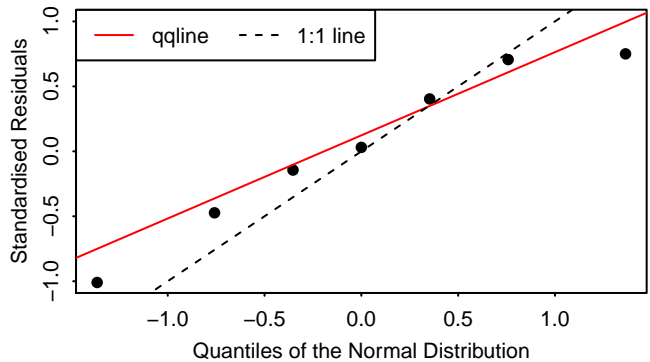

c) Standardised residuals over time

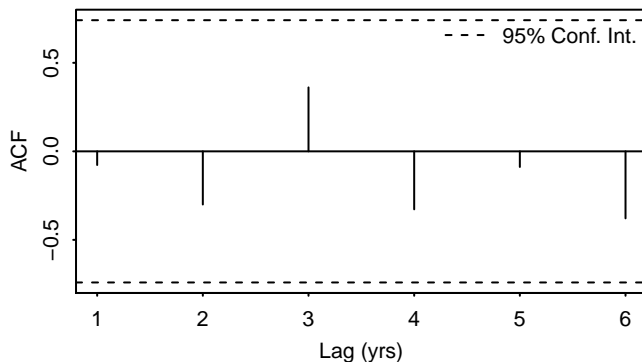

d) Tukey–Anscombe plot

e) Normal Q–Q plot

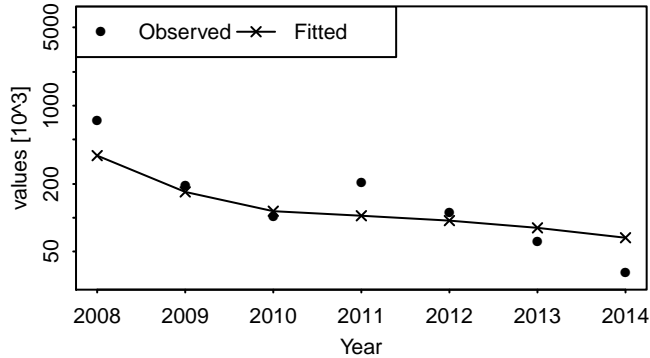

f) Autocorrelation of Residuals

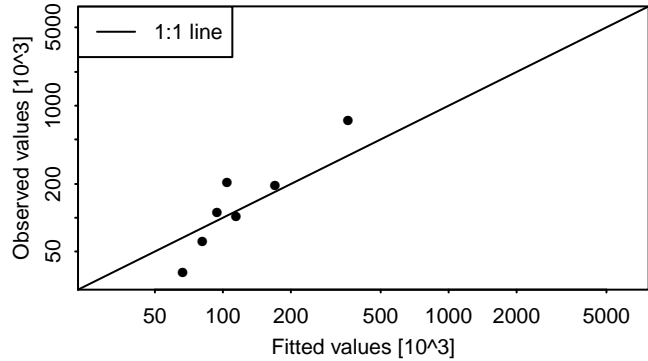

Diagnostics – MS HERAS, age 7

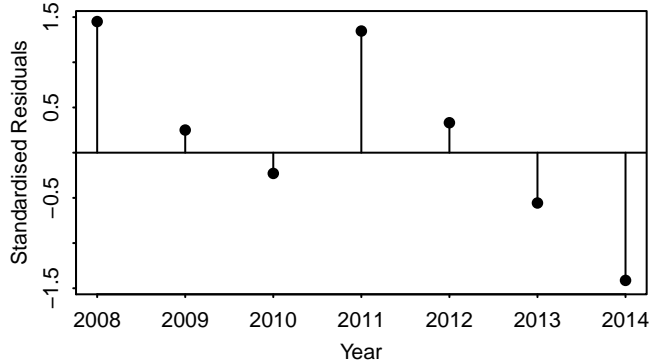

a) Observed and fitted values time series

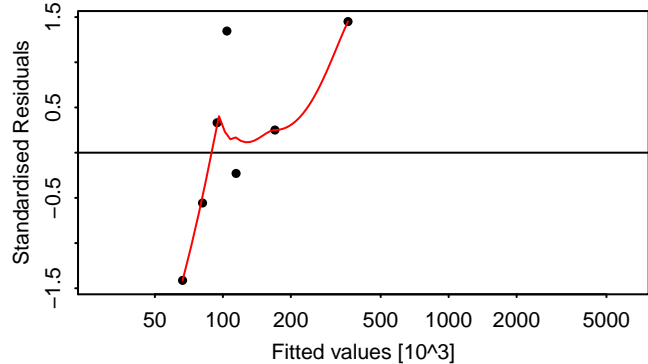

b) Observed vs fitted values

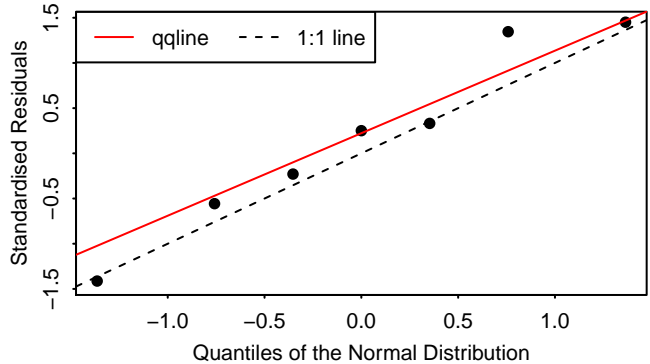

c) Standardised residuals over time

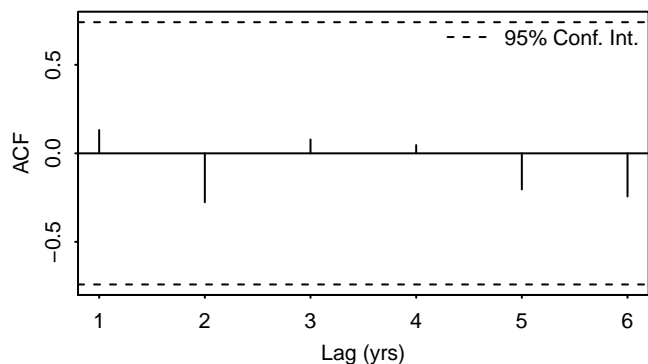

d) Tukey–Anscombe plot

e) Normal Q–Q plot

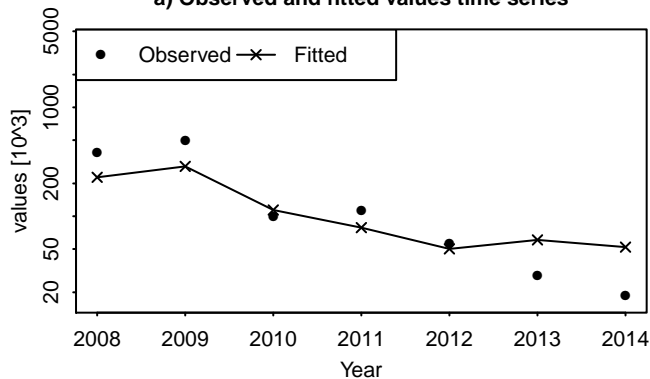

f) Autocorrelation of Residuals

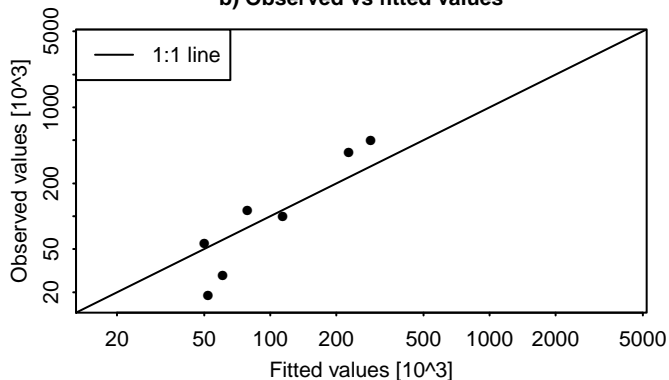

Diagnostics – MS HERAS, age 8

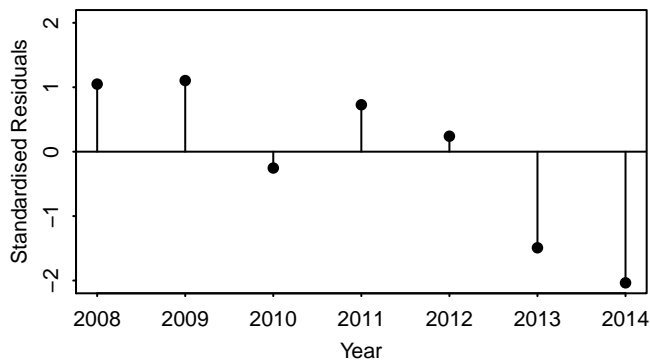

a) Observed and fitted values time series

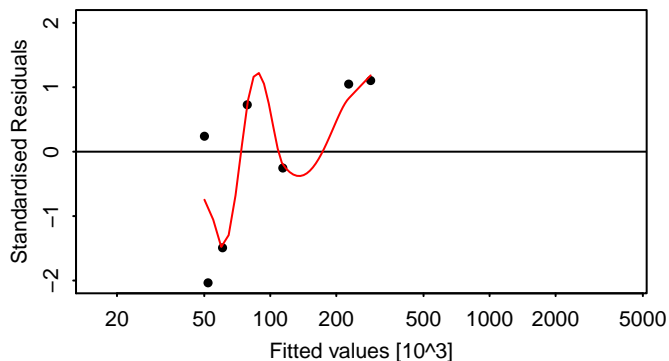

b) Observed vs fitted values

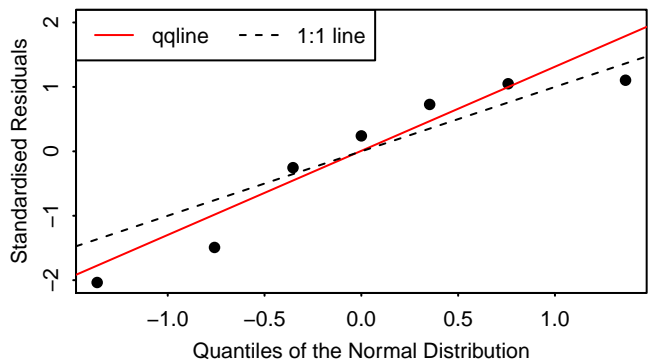

c) Standardised residuals over time

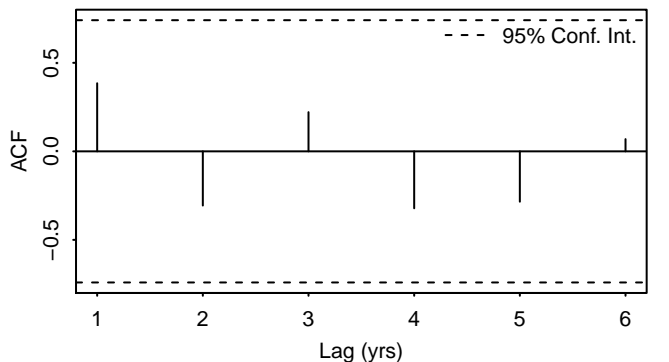

d) Tukey–Anscombe plot

e) Normal Q–Q plot

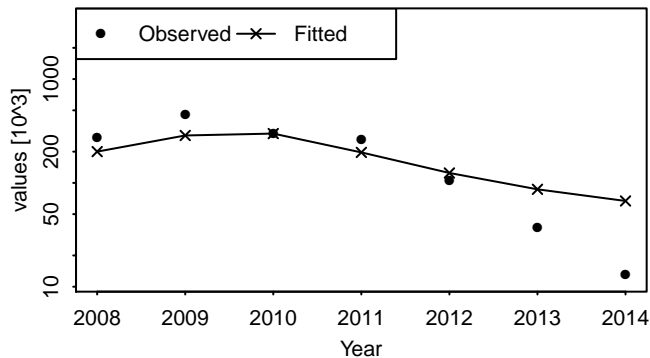

f) Autocorrelation of Residuals

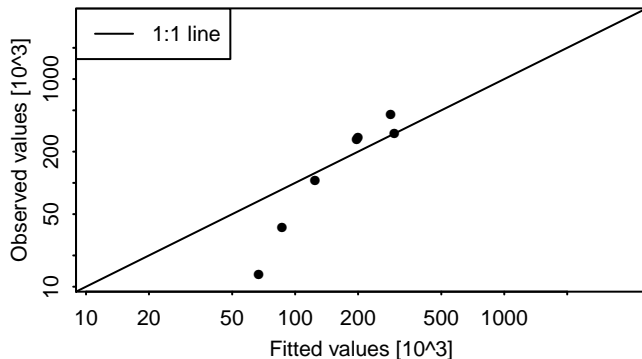

Diagnostics – MS HERAS, age 9

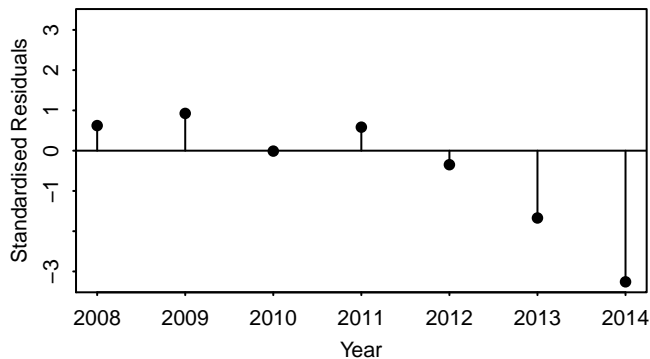

a) Observed and fitted values time series

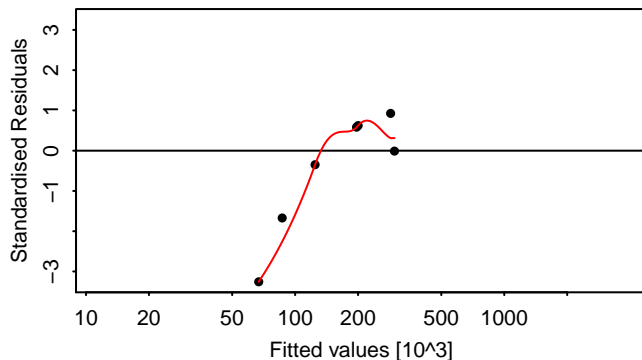

b) Observed vs fitted values

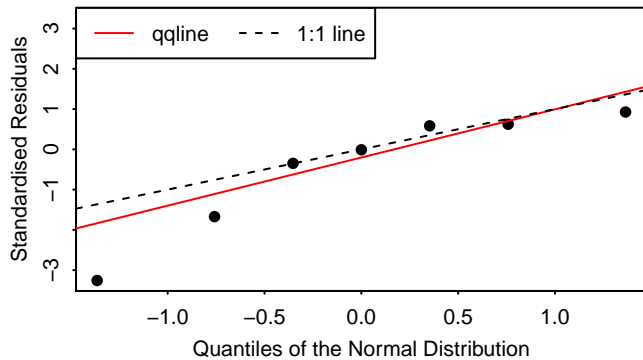

c) Standardised residuals over time

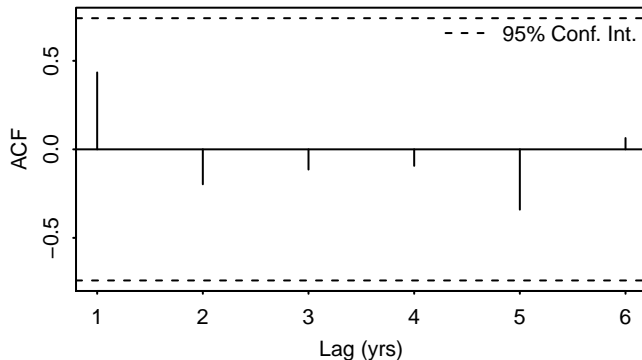

d) Tukey–Anscombe plot

e) Normal Q–Q plot

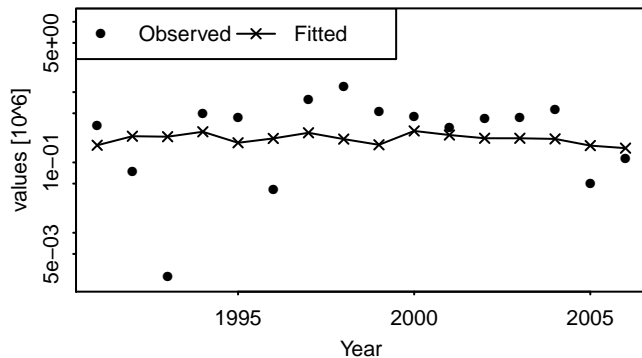

f) Autocorrelation of Residuals

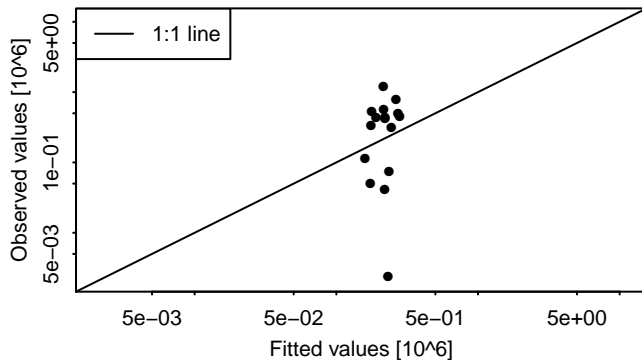

Diagnostics – WoS HERAS, age 1

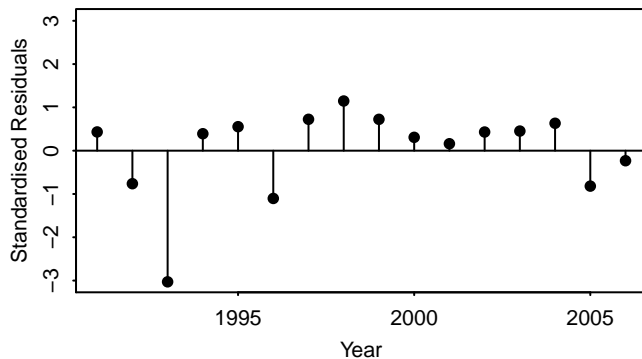

a) Observed and fitted values time series

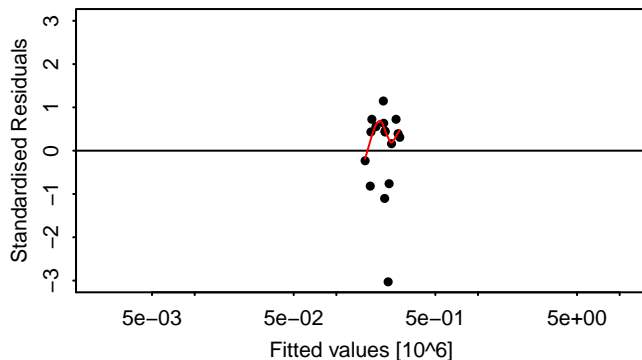

b) Observed vs fitted values

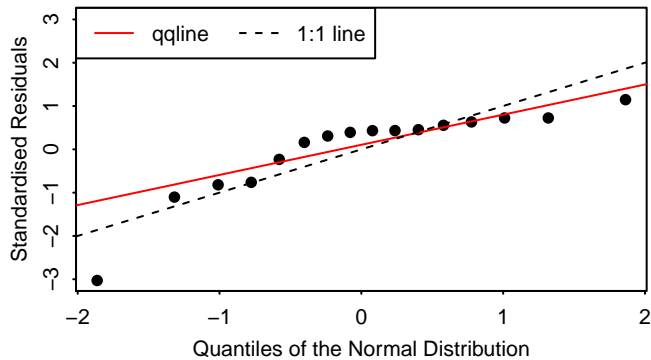

c) Standardised residuals over time

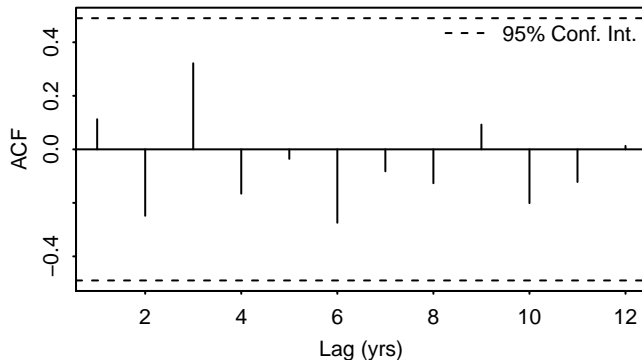

d) Tukey–Anscombe plot

e) Normal Q–Q plot

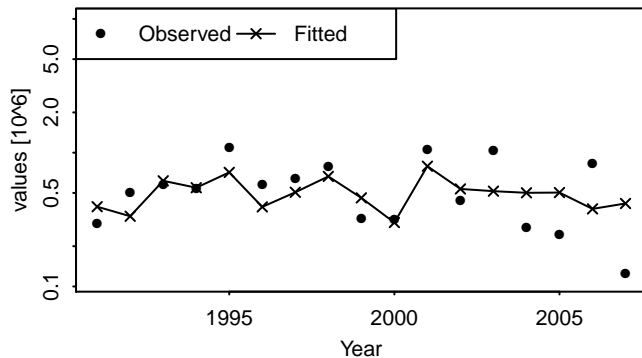

f) Autocorrelation of Residuals

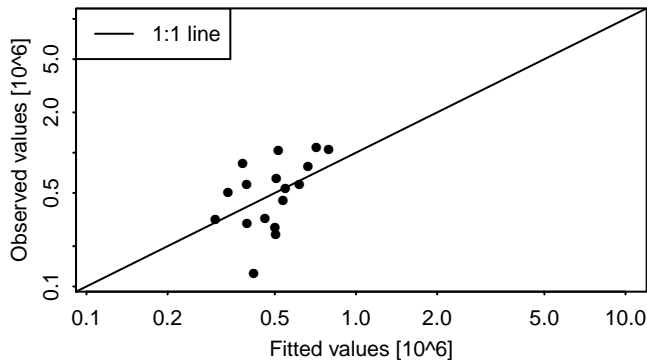

Diagnostics – WoS HERAS, age 2

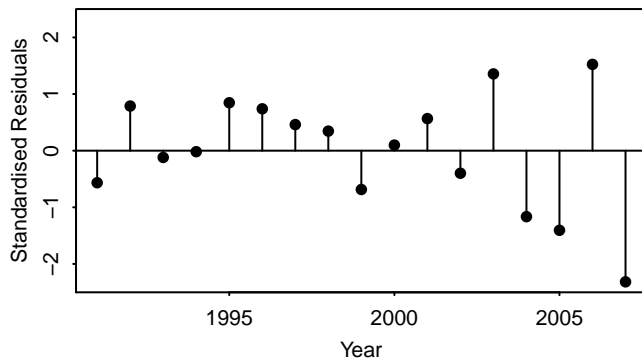

a) Observed and fitted values time series

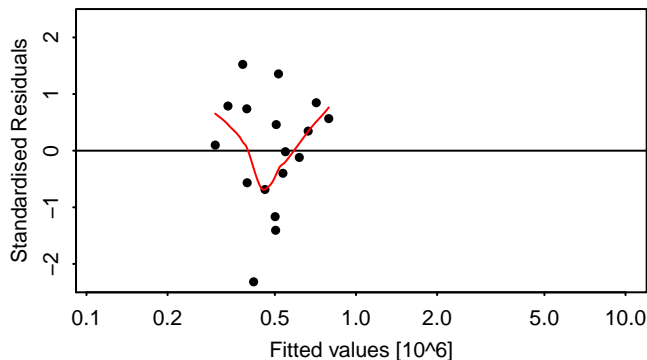

b) Observed vs fitted values

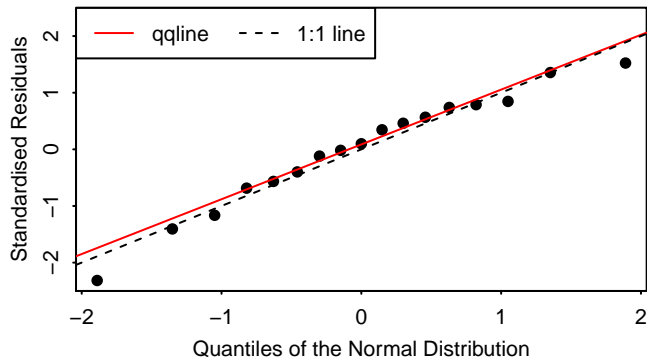

c) Standardised residuals over time

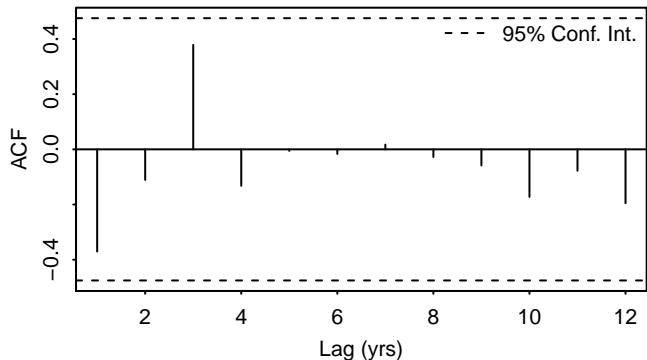

d) Tukey–Anscombe plot

e) Normal Q–Q plot

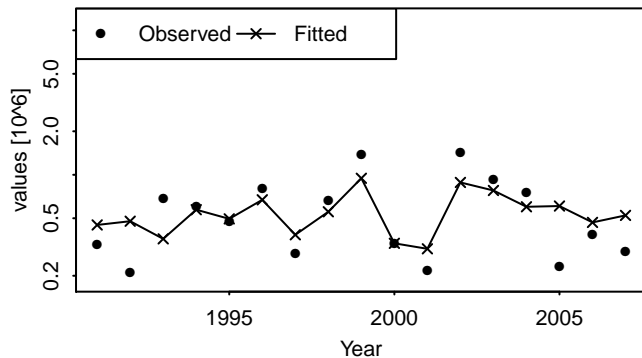

f) Autocorrelation of Residuals

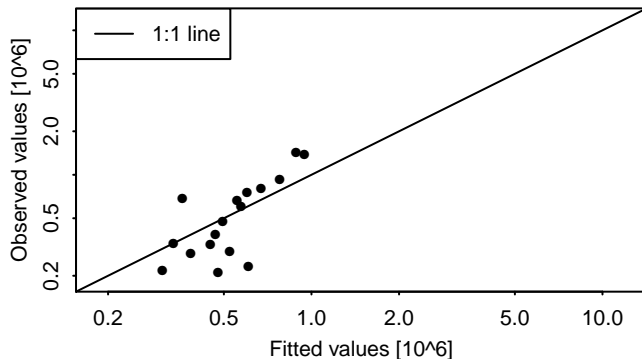

Diagnostics – WoS HERAS, age 3

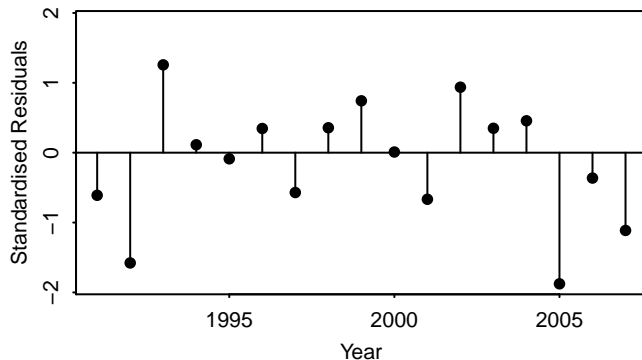

a) Observed and fitted values time series

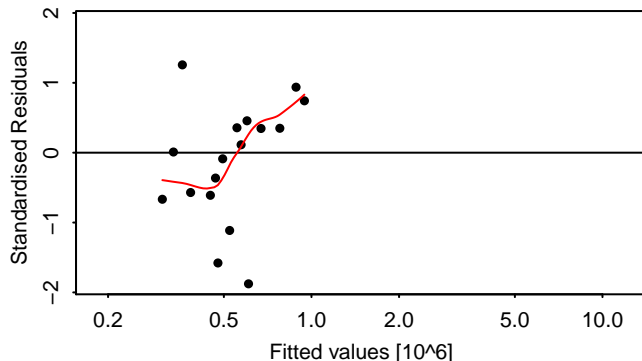

b) Observed vs fitted values

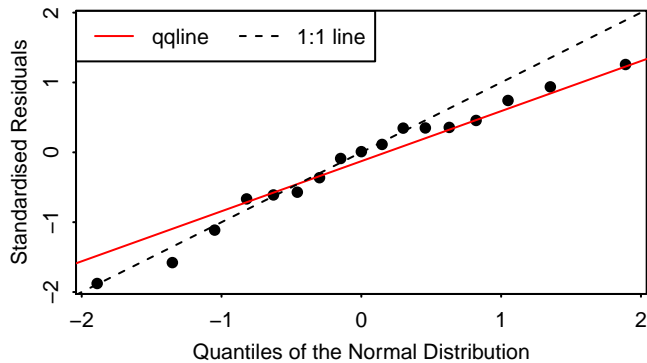

c) Standardised residuals over time

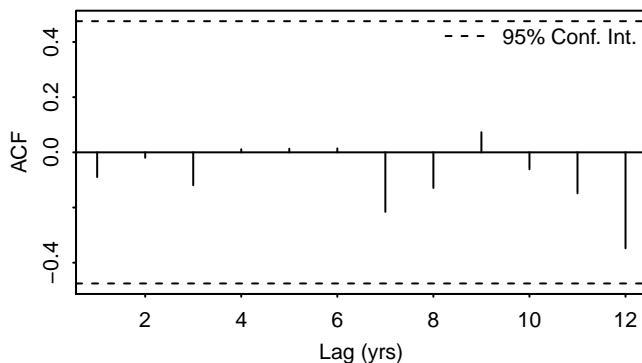

d) Tukey–Anscombe plot

e) Normal Q–Q plot

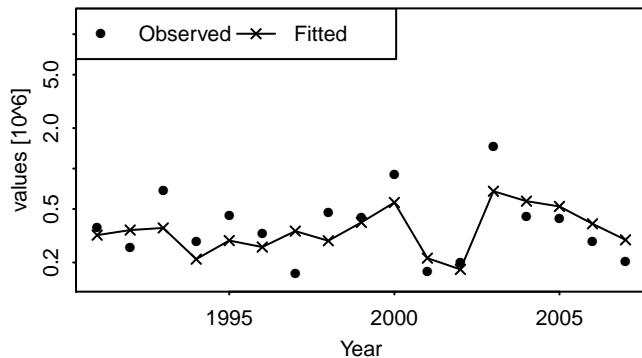

f) Autocorrelation of Residuals

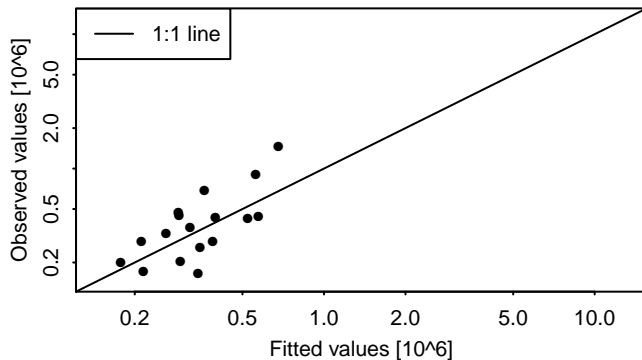

Diagnostics – WoS HERAS, age 4

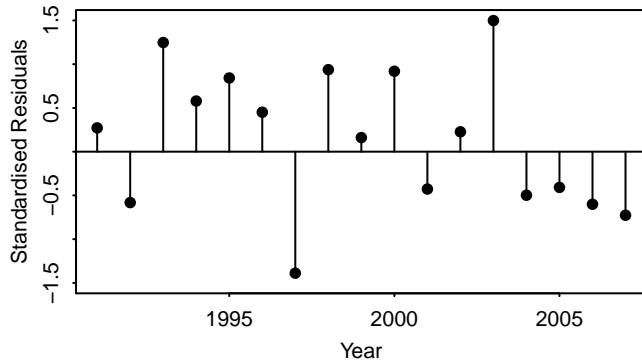

a) Observed and fitted values time series

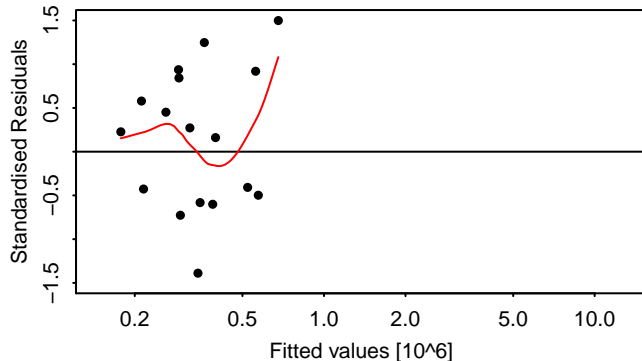

b) Observed vs fitted values

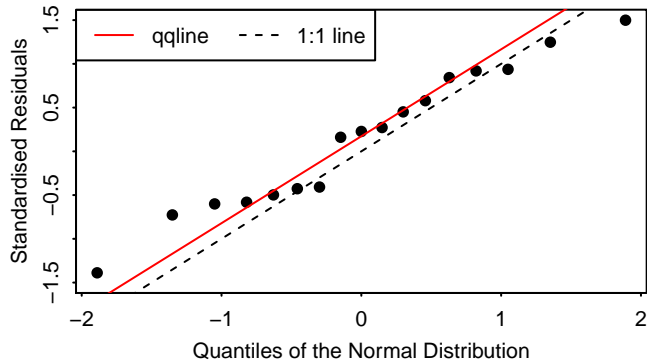

c) Standardised residuals over time

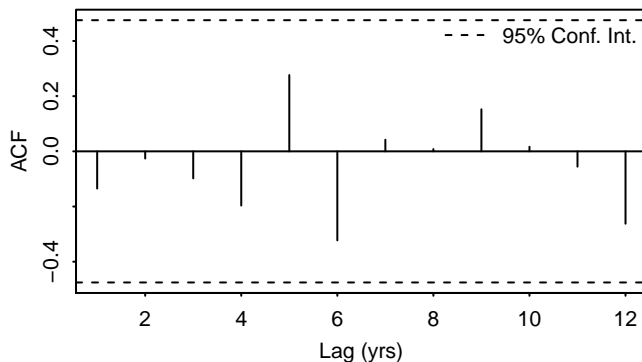

d) Tukey–Anscombe plot

e) Normal Q–Q plot

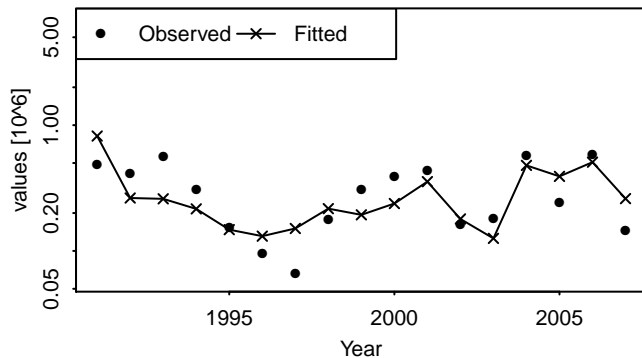

f) Autocorrelation of Residuals

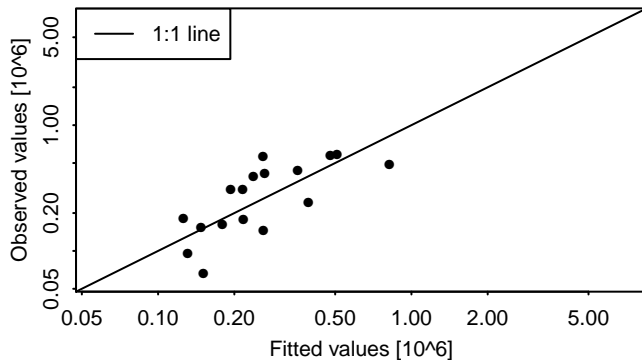

Diagnostics – WoS HERAS, age 5

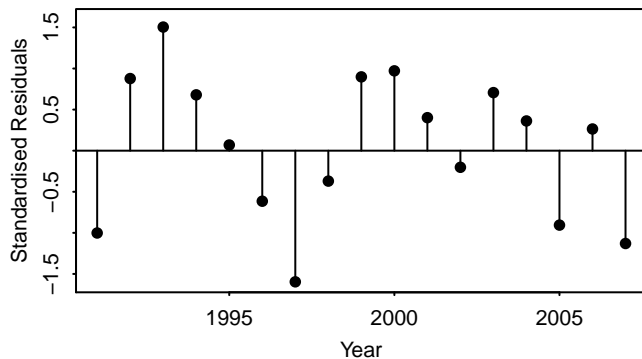

a) Observed and fitted values time series

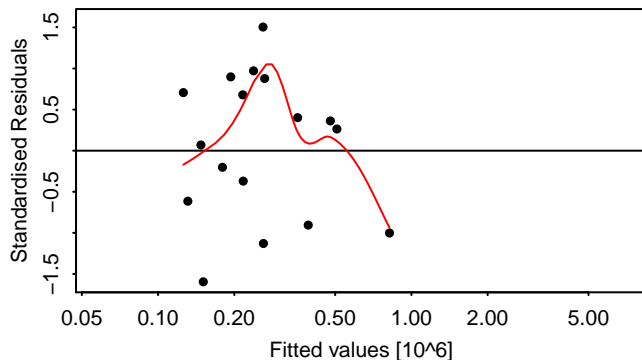

b) Observed vs fitted values

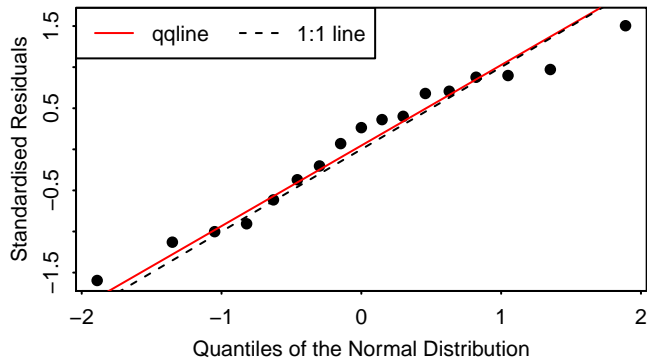

c) Standardised residuals over time

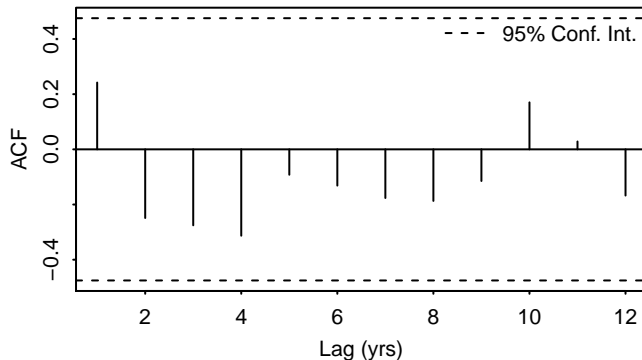

d) Tukey–Anscombe plot

e) Normal Q–Q plot

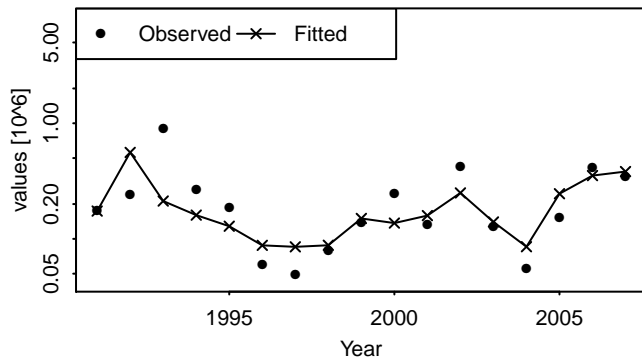

f) Autocorrelation of Residuals

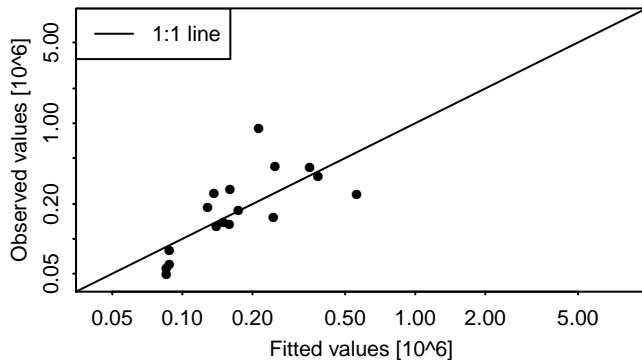

Diagnostics – WoS HERAS, age 6

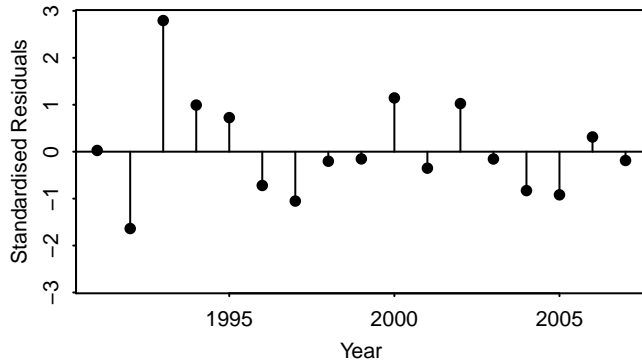

a) Observed and fitted values time series

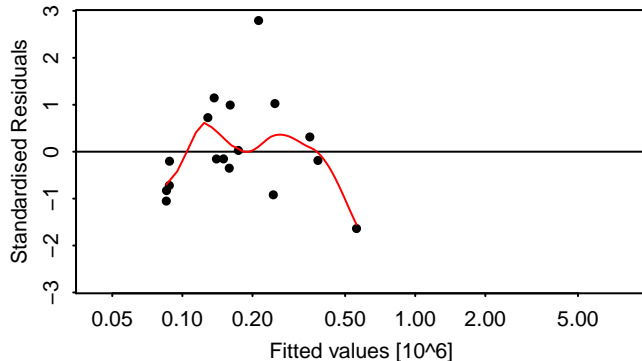

b) Observed vs fitted values

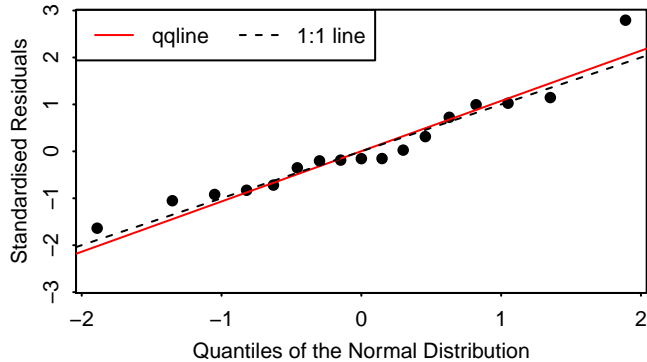

c) Standardised residuals over time

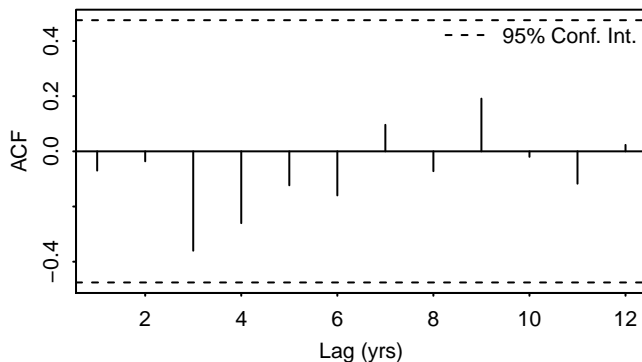

d) Tukey–Anscombe plot

e) Normal Q–Q plot

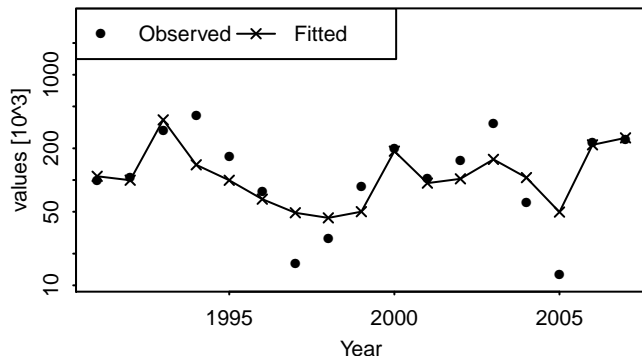

f) Autocorrelation of Residuals

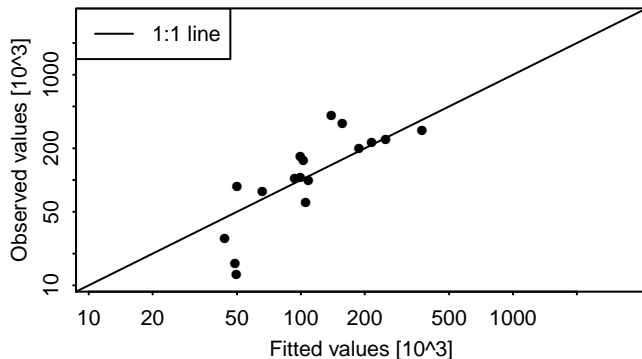

Diagnostics – WoS HERAS, age 7

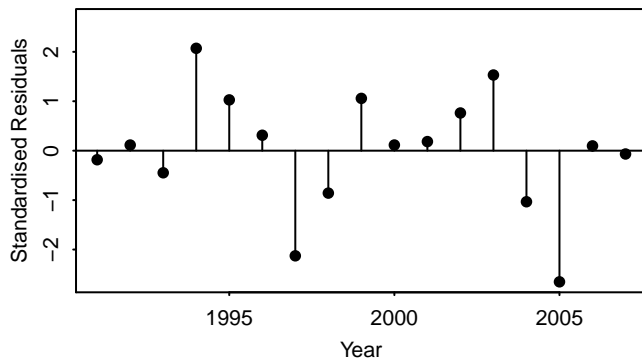

a) Observed and fitted values time series

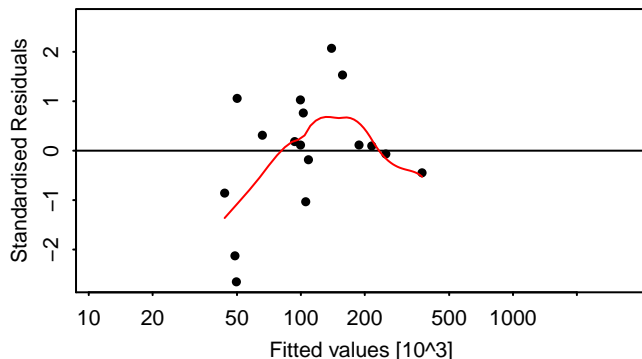

b) Observed vs fitted values

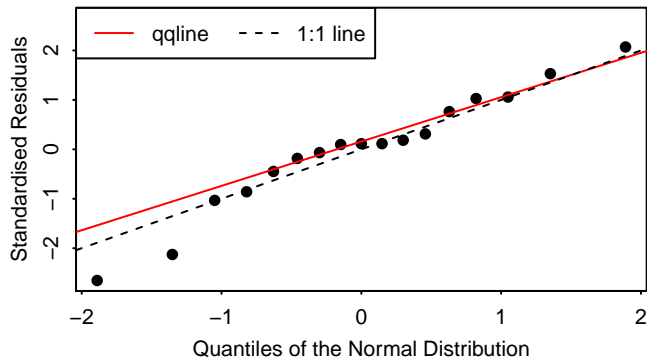

c) Standardised residuals over time

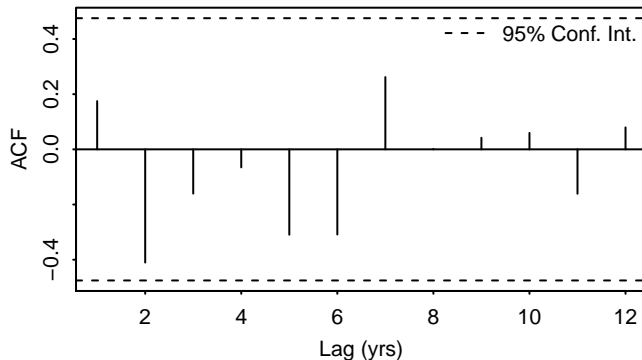

d) Tukey–Anscombe plot

e) Normal Q–Q plot

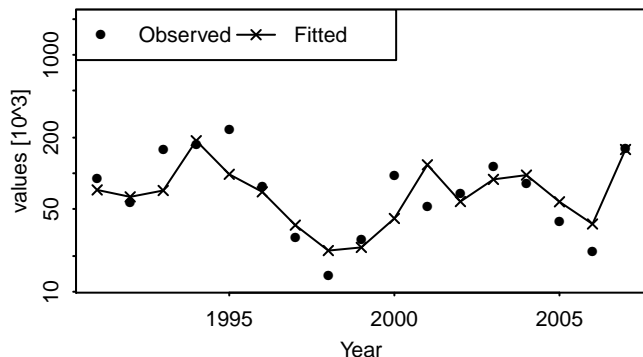

f) Autocorrelation of Residuals

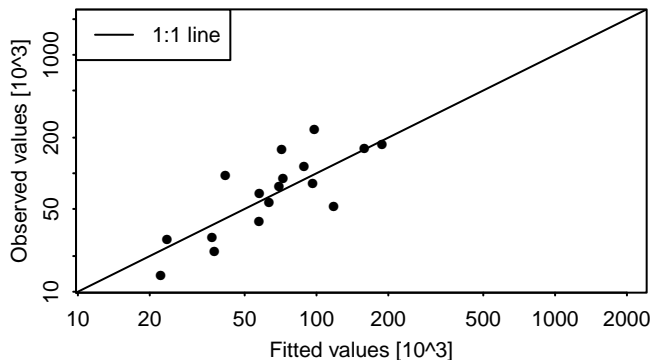

Diagnostics – WoS HERAS, age 8

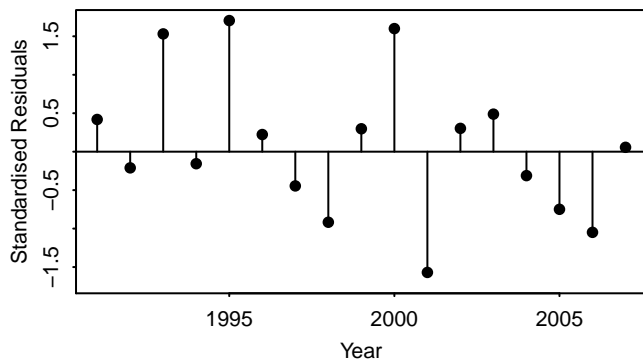

a) Observed and fitted values time series

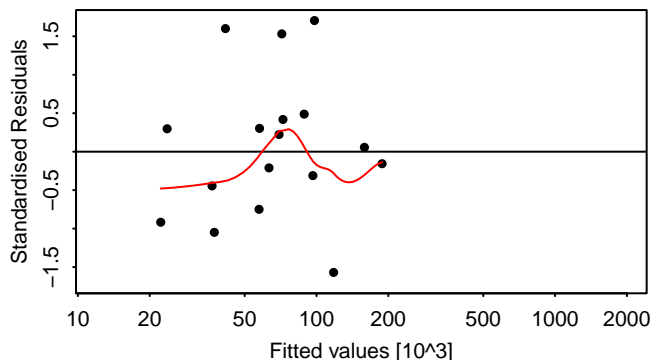

b) Observed vs fitted values

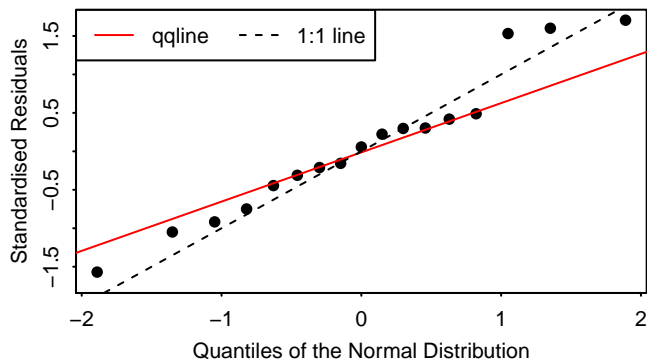

c) Standardised residuals over time

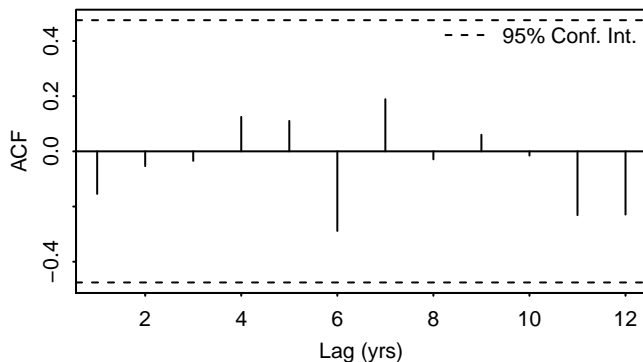

d) Tukey–Anscombe plot

e) Normal Q–Q plot

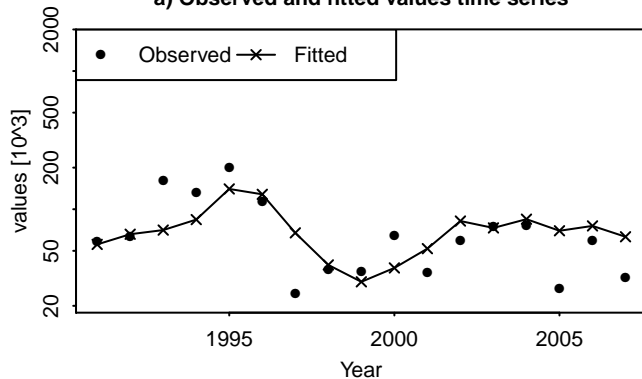

f) Autocorrelation of Residuals

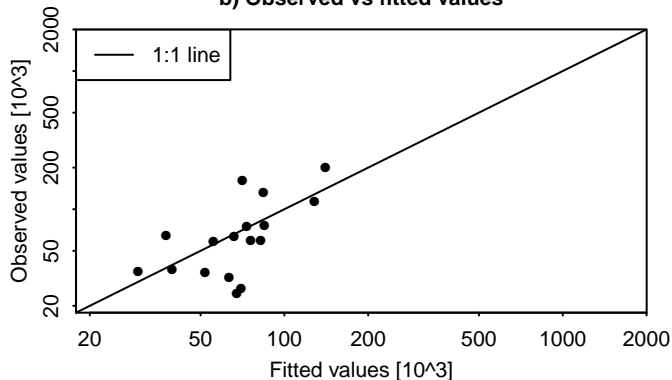

Diagnostics – WoS HERAS, age 9

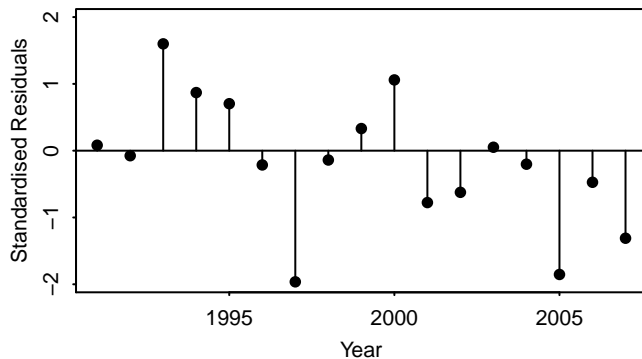

a) Observed and fitted values time series

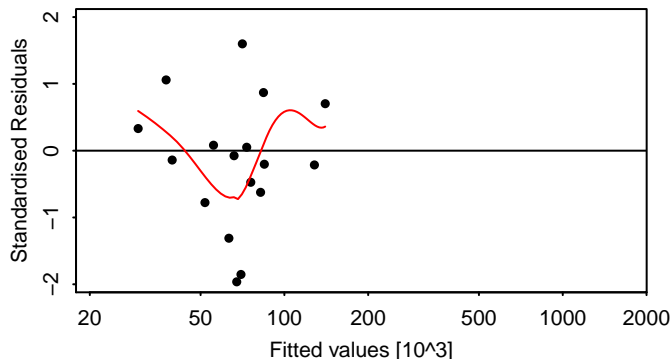

b) Observed vs fitted values

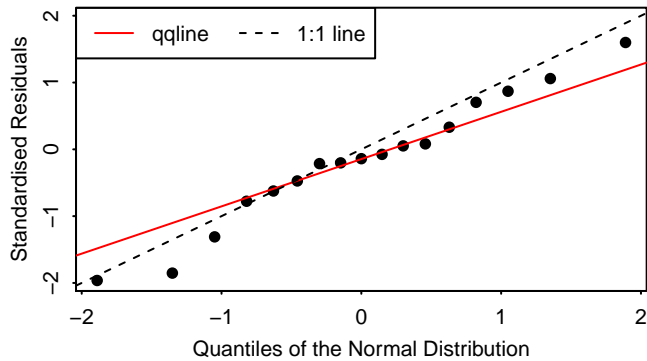

c) Standardised residuals over time

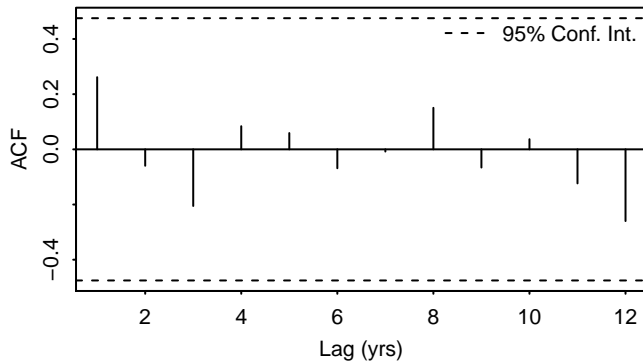

d) Tukey–Anscombe plot

e) Normal Q–Q plot

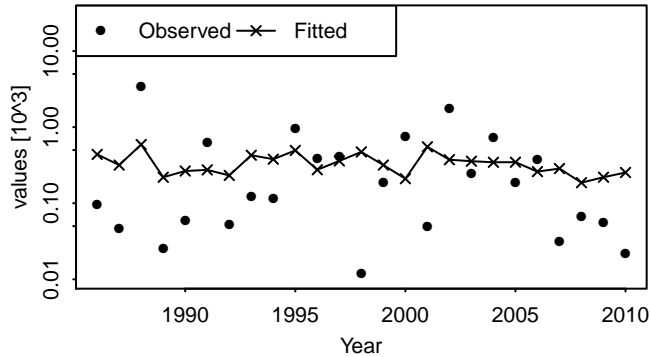

f) Autocorrelation of Residuals

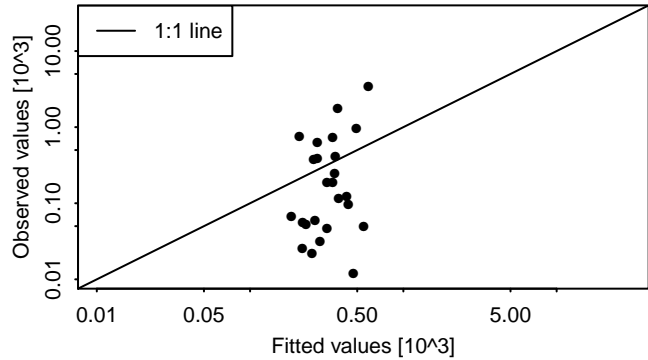

Diagnostics – IBTS_Q1, age 2

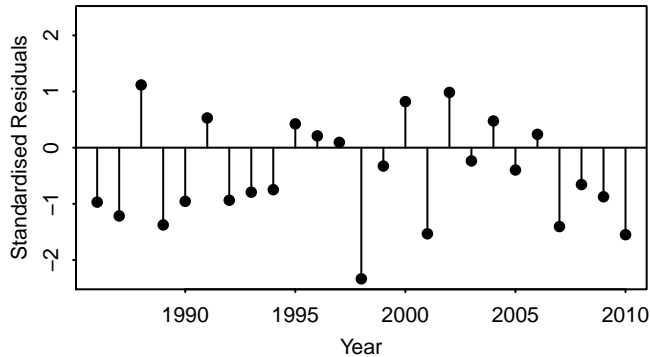

a) Observed and fitted values time series

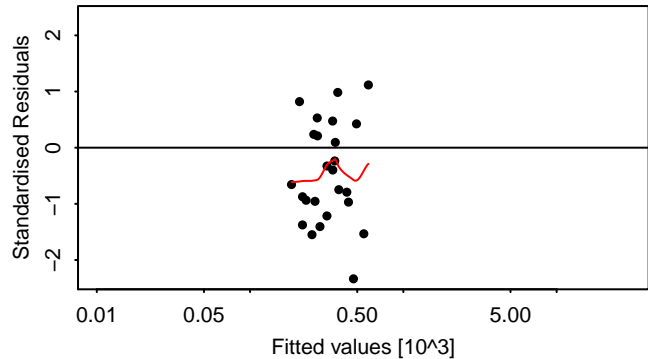

b) Observed vs fitted values

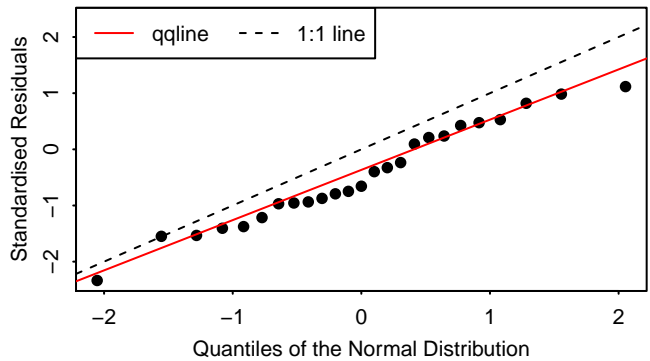

c) Standardised residuals over time

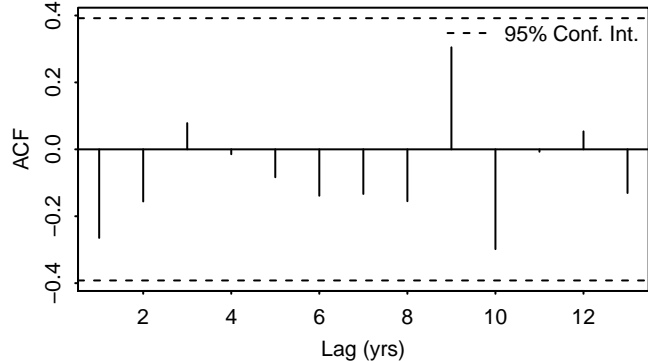

d) Tukey–Anscombe plot

e) Normal Q–Q plot

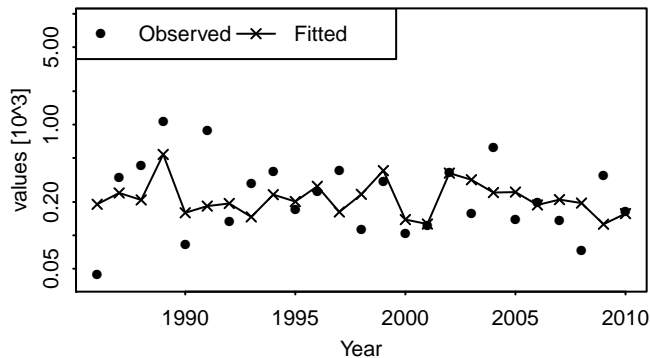

f) Autocorrelation of Residuals

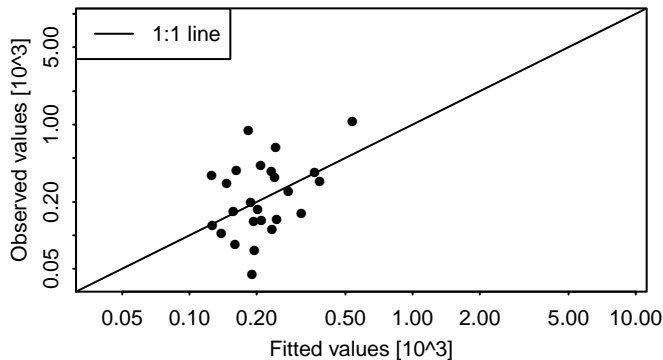

Diagnostics – IBTS_Q1, age 3

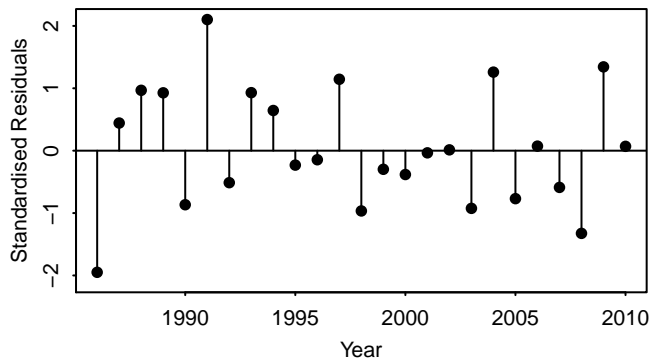

a) Observed and fitted values time series

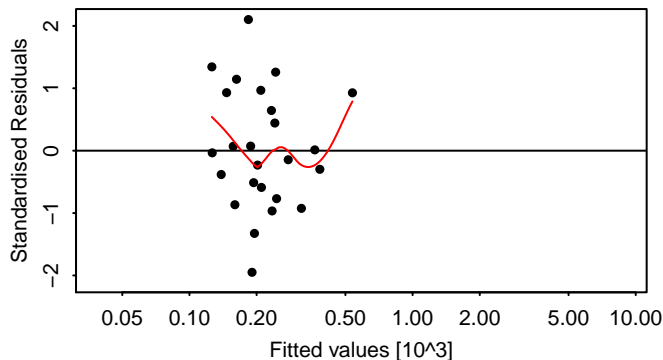

b) Observed vs fitted values

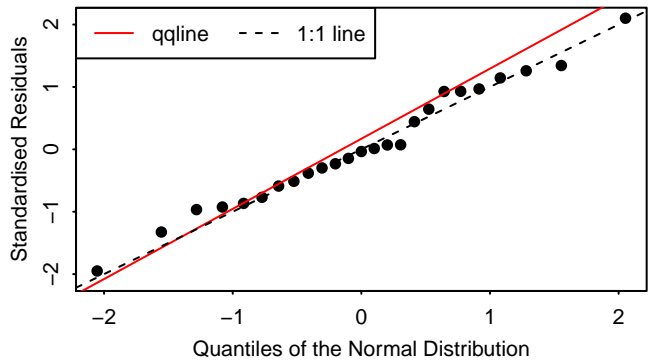

c) Standardised residuals over time

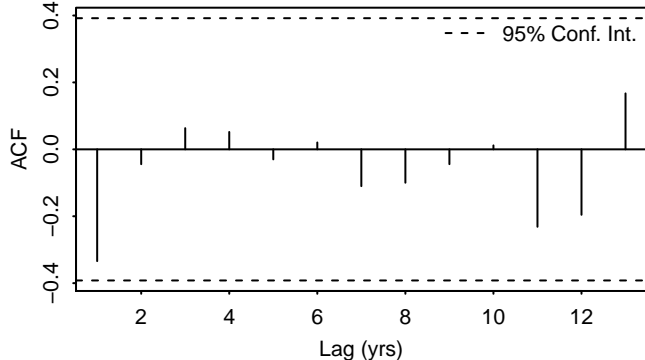

d) Tukey–Anscombe plot

e) Normal Q–Q plot

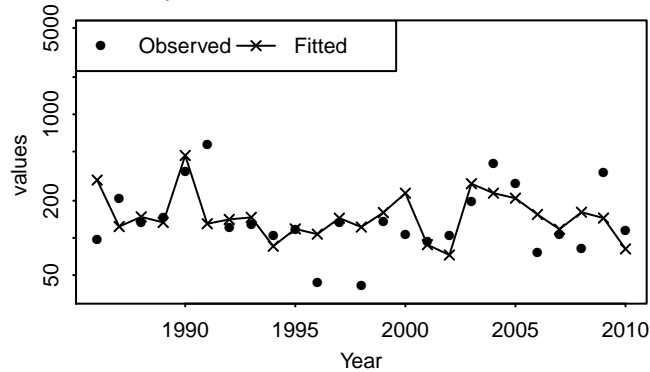

f) Autocorrelation of Residuals

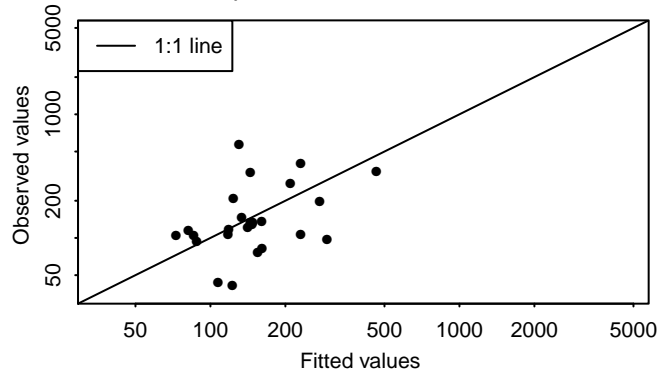

Diagnostics – IBTS_Q1, age 4

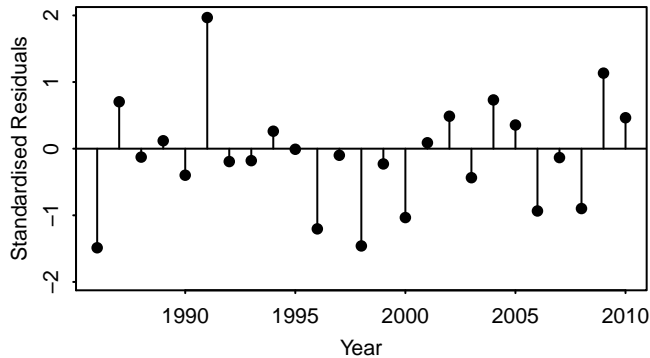

a) Observed and fitted values time series

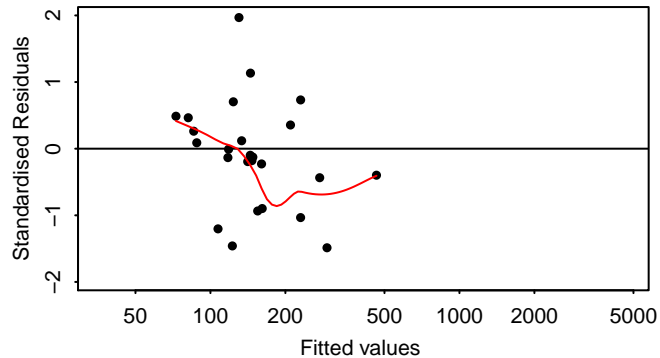

b) Observed vs fitted values

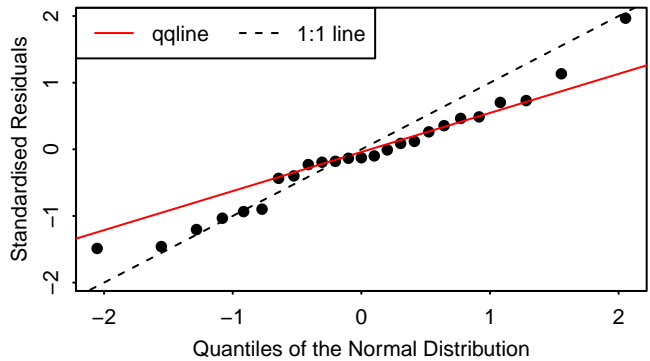

c) Standardised residuals over time

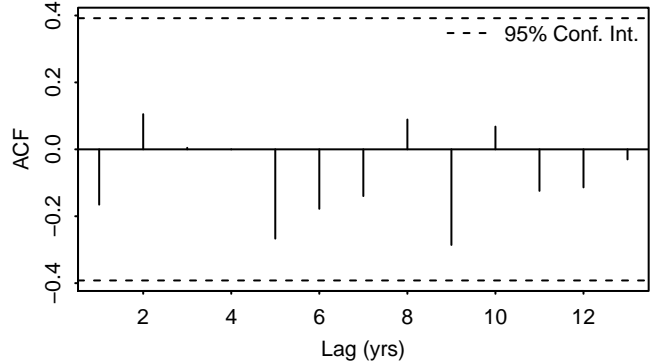

d) Tukey–Anscombe plot

e) Normal Q–Q plot

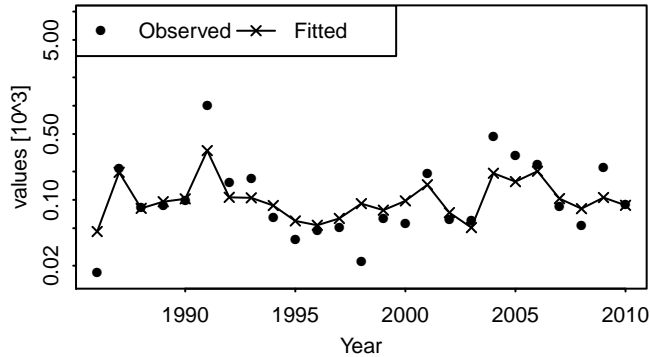

f) Autocorrelation of Residuals

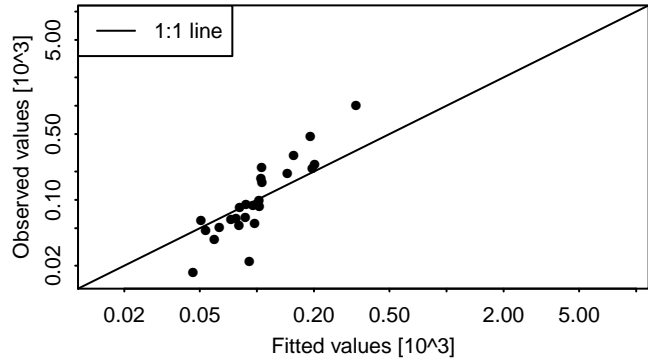

Diagnostics – IBTS_Q1, age 5

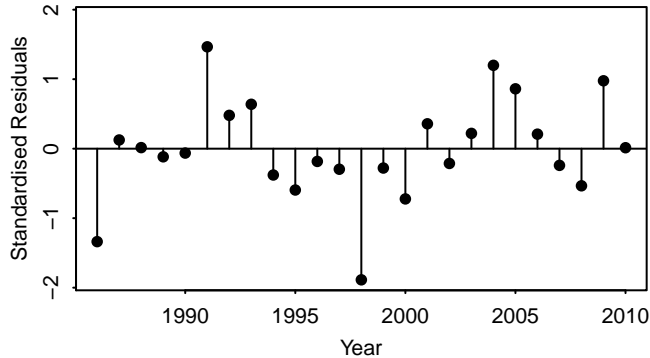

a) Observed and fitted values time series

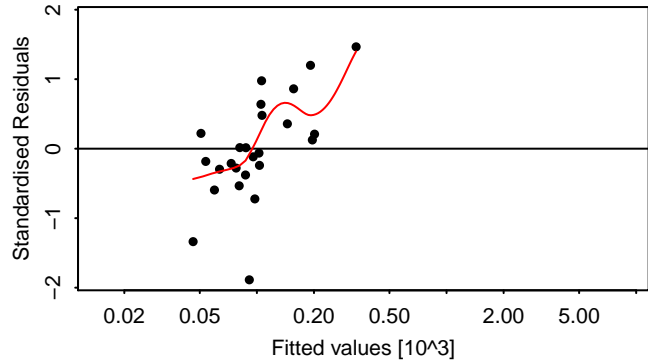

b) Observed vs fitted values

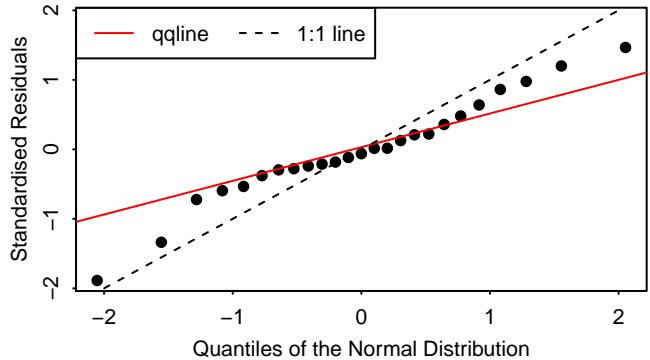

c) Standardised residuals over time

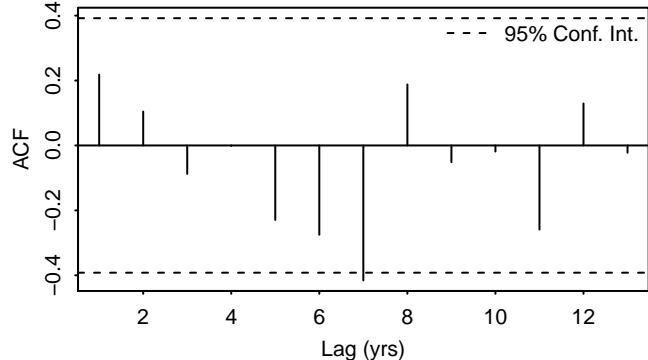

d) Tukey–Anscombe plot

e) Normal Q–Q plot

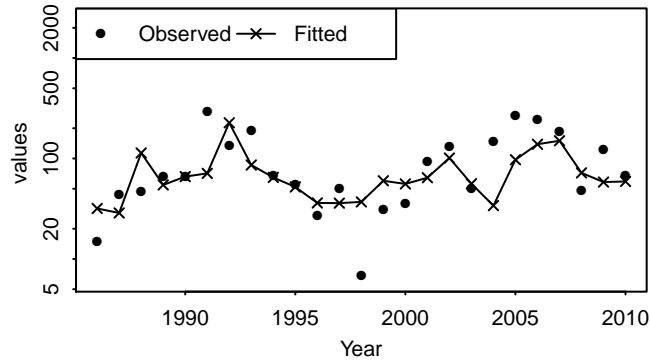

f) Autocorrelation of Residuals

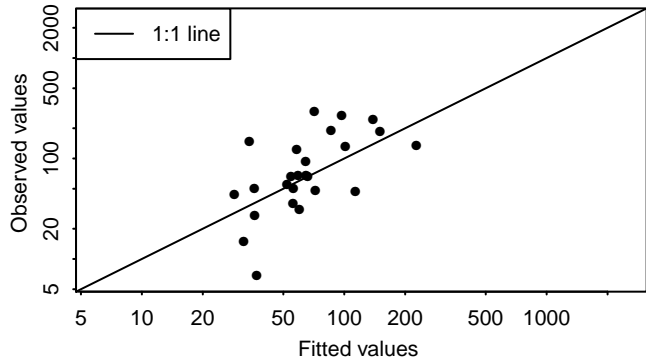

Diagnostics – IBTS_Q1, age 6

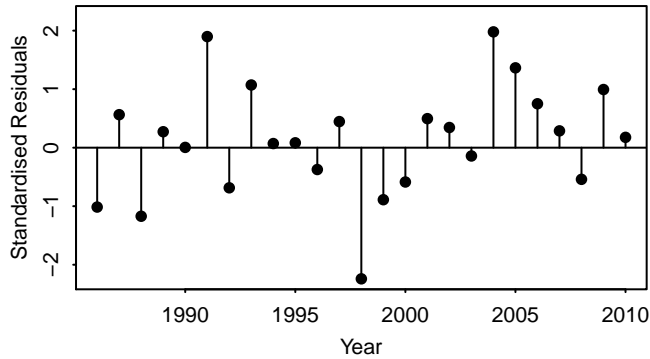

a) Observed and fitted values time series

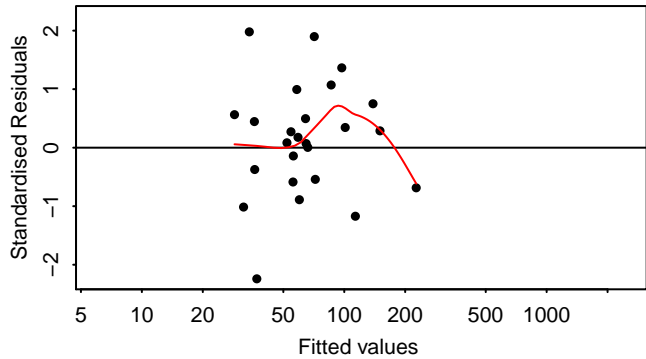

b) Observed vs fitted values

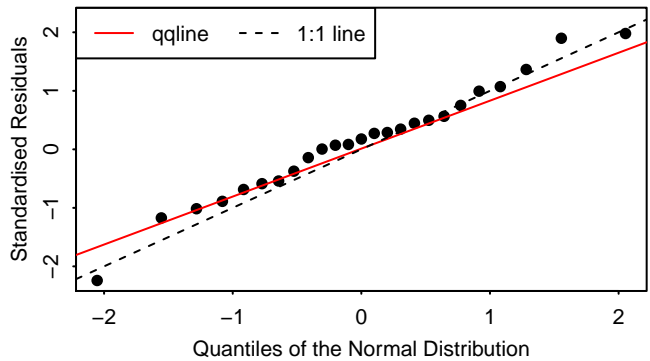

c) Standardised residuals over time

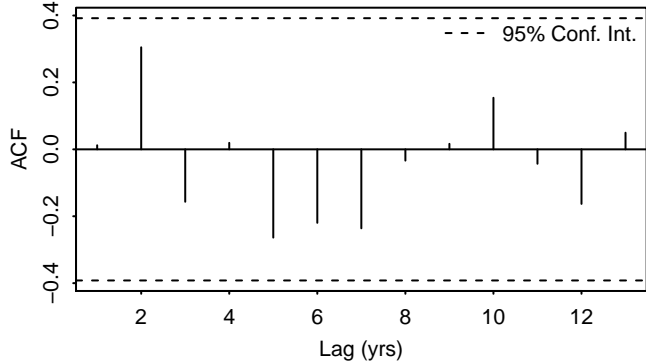

d) Tukey–Anscombe plot

e) Normal Q–Q plot

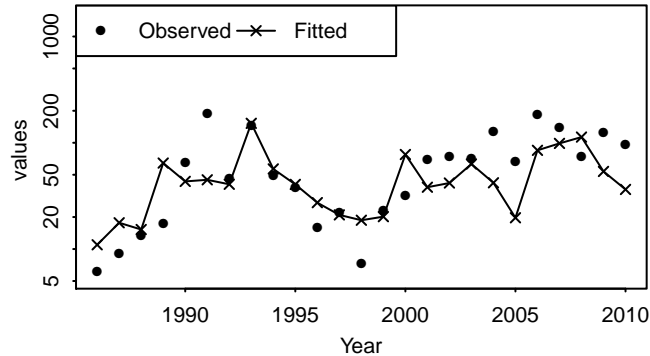

f) Autocorrelation of Residuals

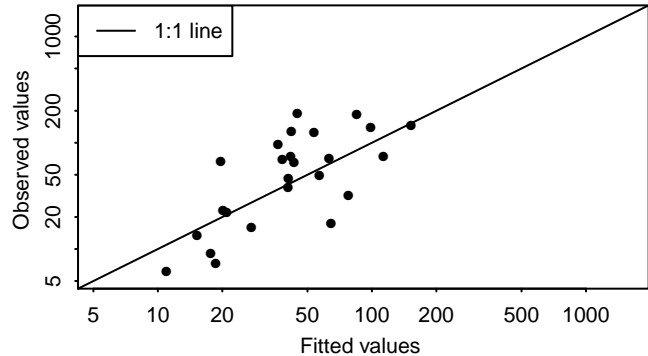

Diagnostics – IBTS_Q1, age 7

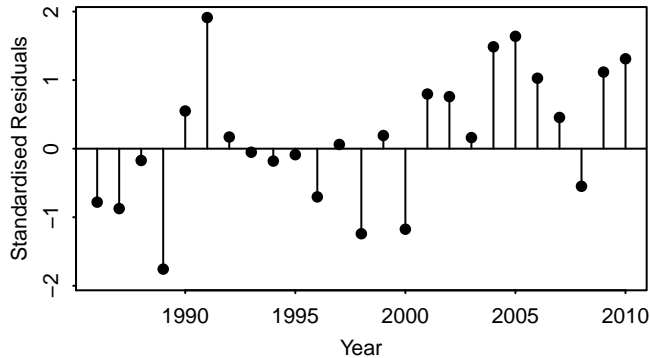

a) Observed and fitted values time series

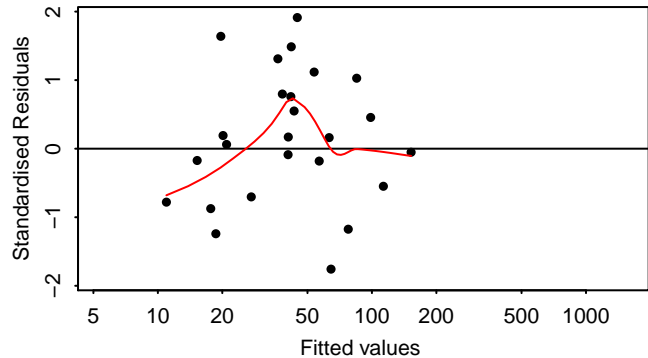

b) Observed vs fitted values

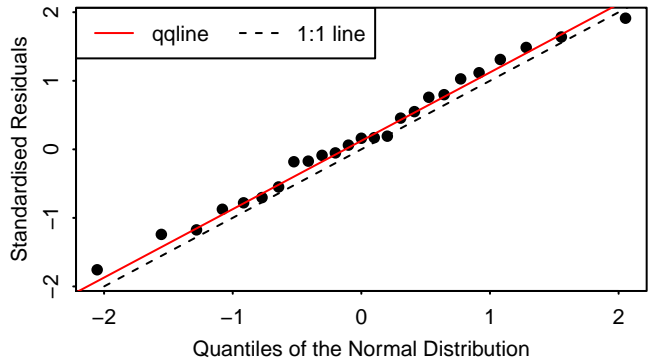

c) Standardised residuals over time

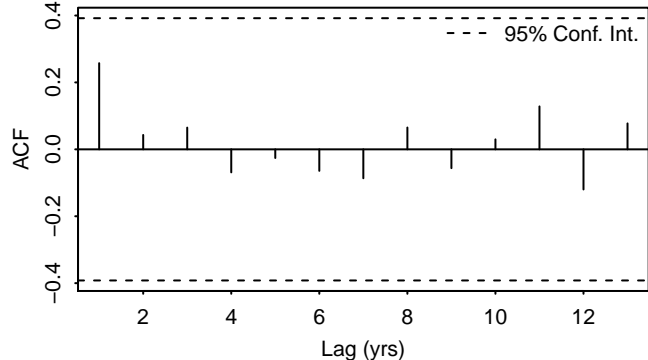

d) Tukey–Anscombe plot

e) Normal Q–Q plot

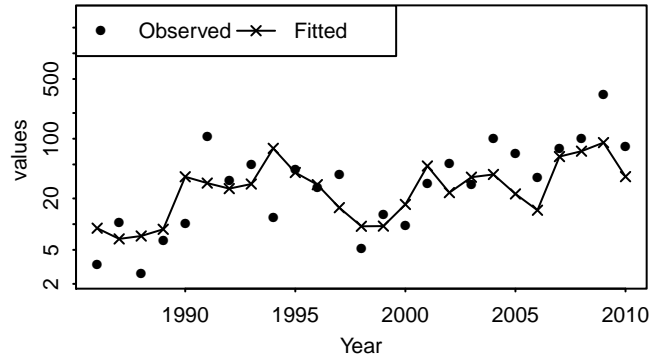

f) Autocorrelation of Residuals

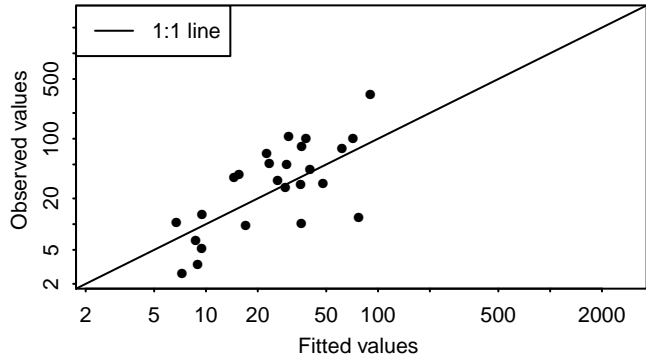

Diagnostics – IBTS_Q1, age 8

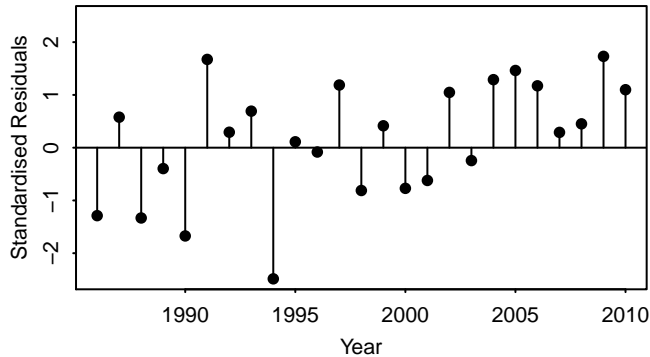

a) Observed and fitted values time series

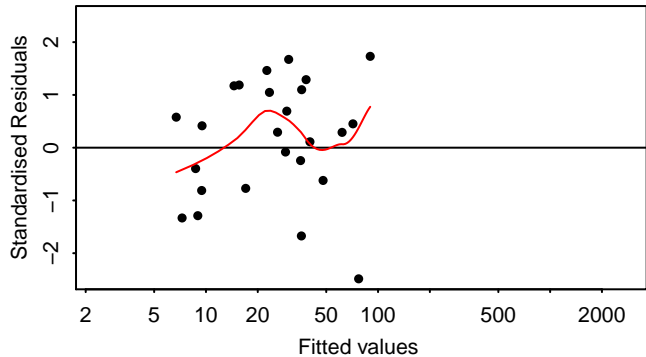

b) Observed vs fitted values

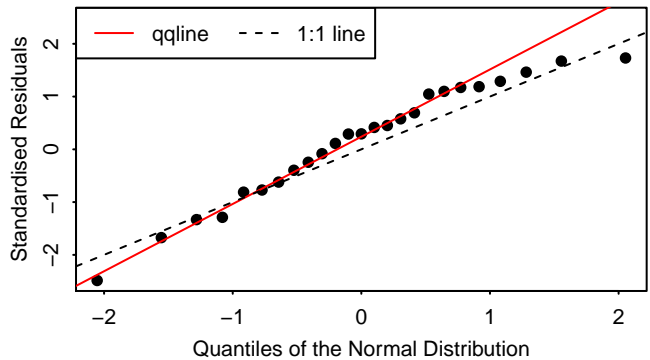

c) Standardised residuals over time

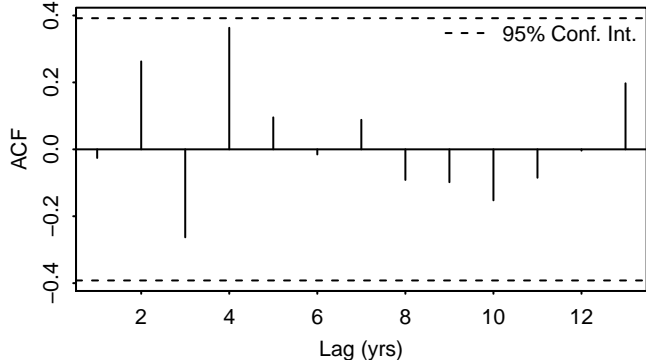

d) Tukey–Anscombe plot

e) Normal Q–Q plot

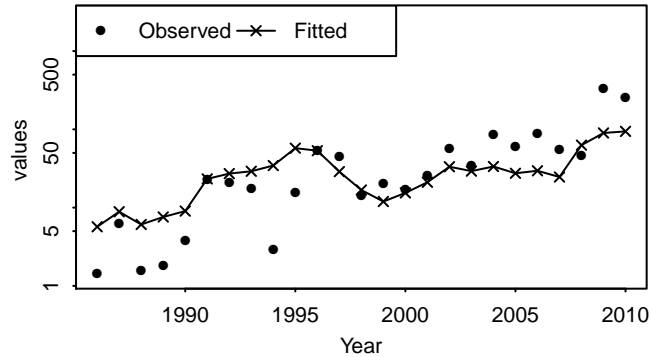

f) Autocorrelation of Residuals

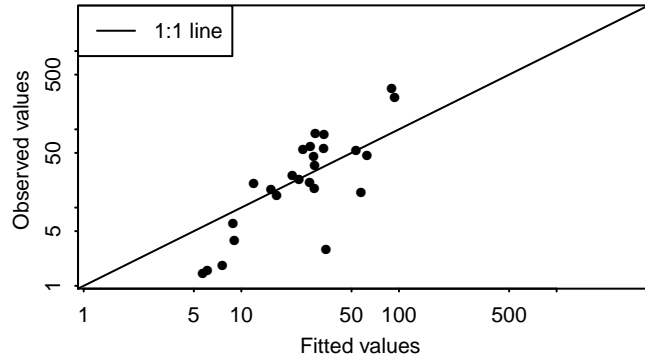

Diagnostics – IBTS_Q1, age 9

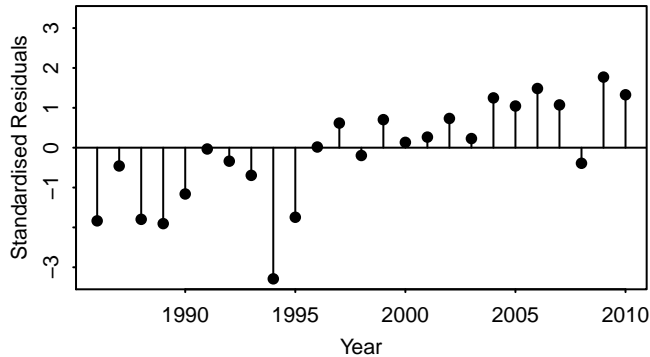

a) Observed and fitted values time series

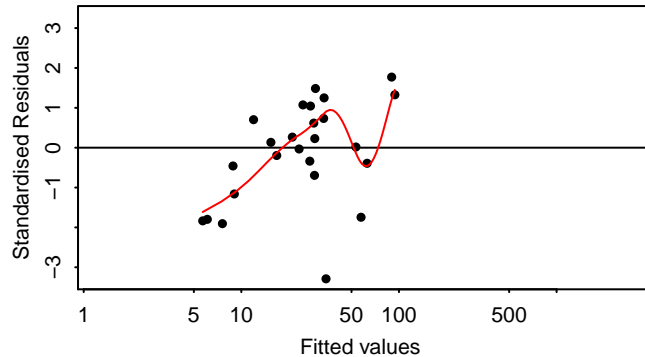

b) Observed vs fitted values

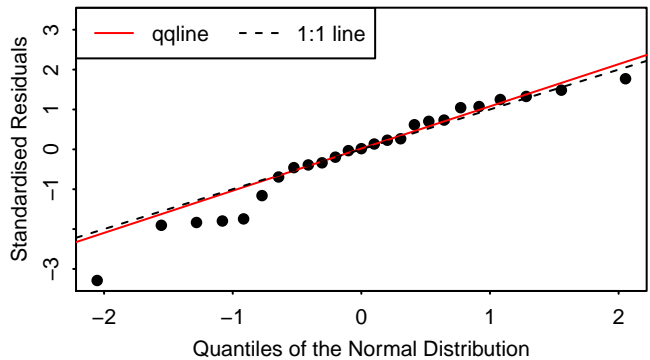

c) Standardised residuals over time

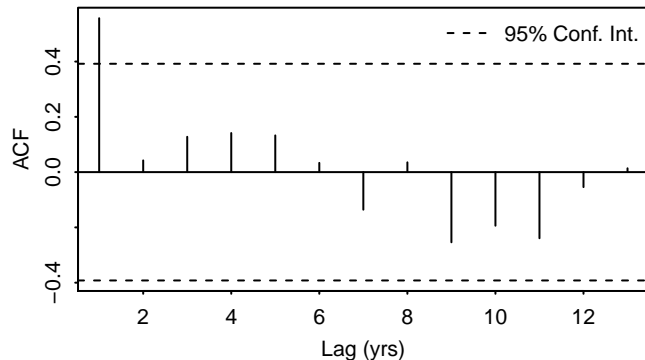

d) Tukey–Anscombe plot

e) Normal Q–Q plot

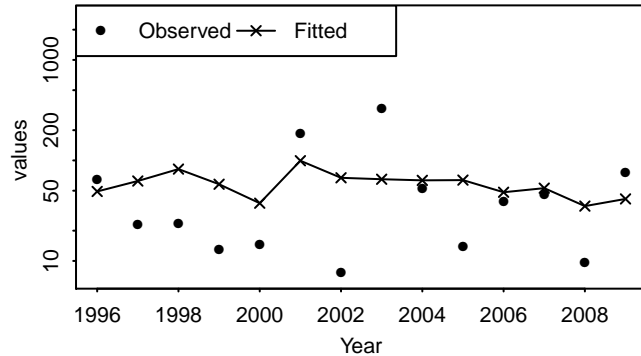

f) Autocorrelation of Residuals

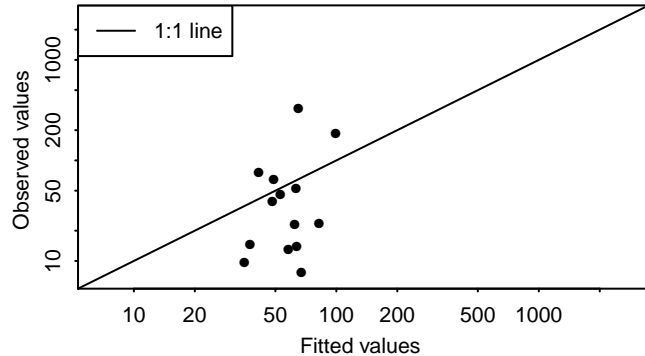

Diagnostics – IBTS_Q4, age 2

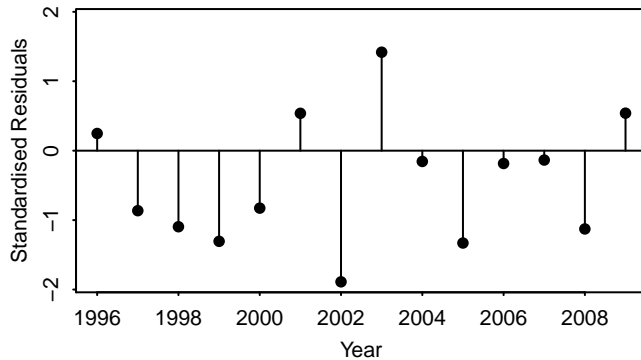

a) Observed and fitted values time series

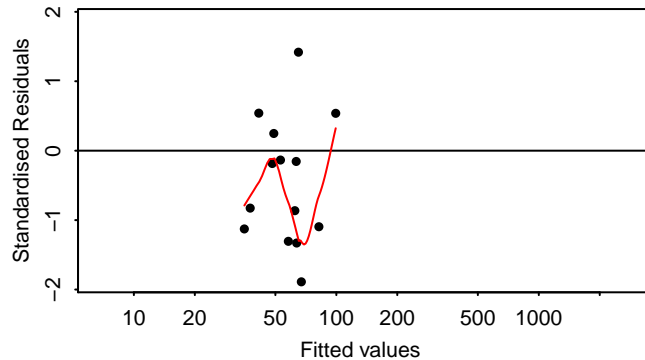

b) Observed vs fitted values

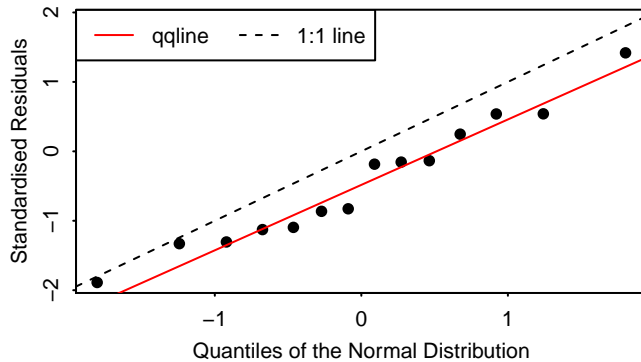

c) Standardised residuals over time

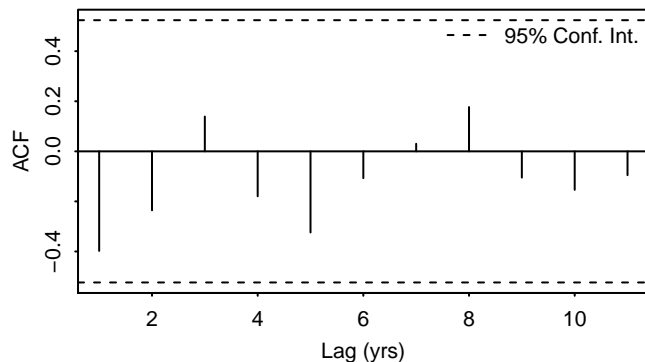

d) Tukey–Anscombe plot

e) Normal Q–Q plot

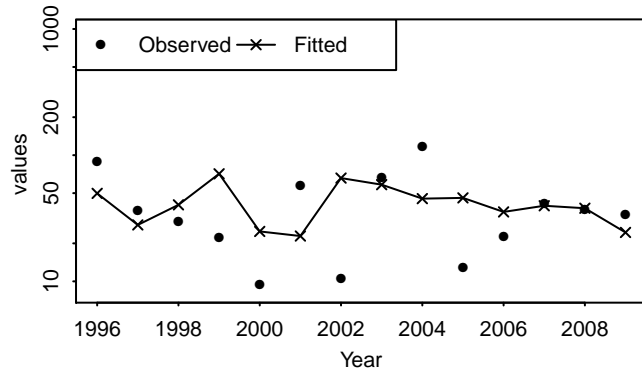

f) Autocorrelation of Residuals

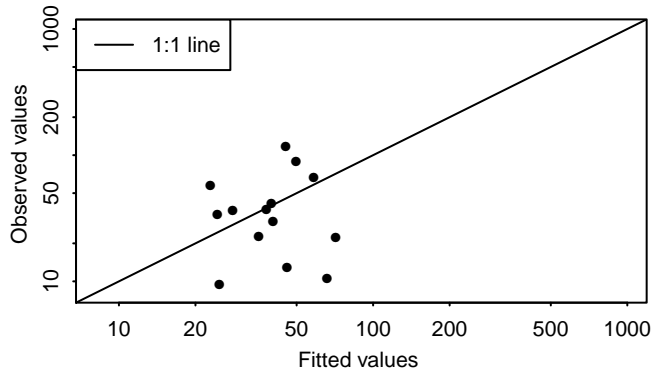

Diagnostics – IBTS_Q4, age 3

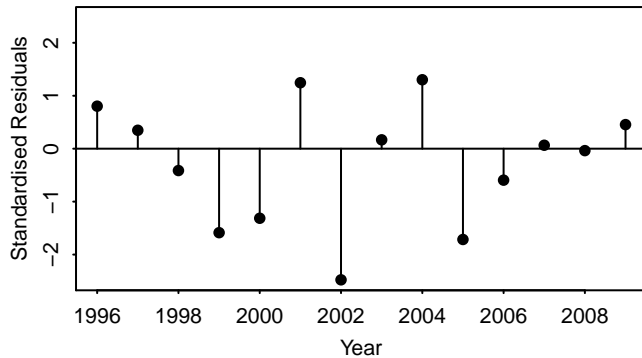

a) Observed and fitted values time series

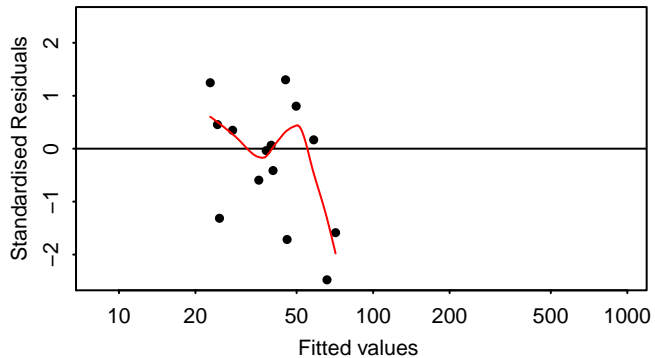

b) Observed vs fitted values

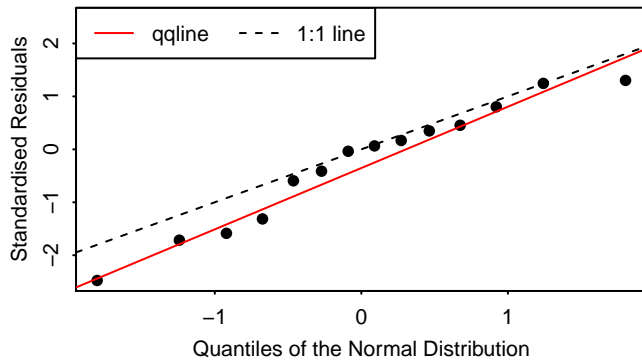

c) Standardised residuals over time

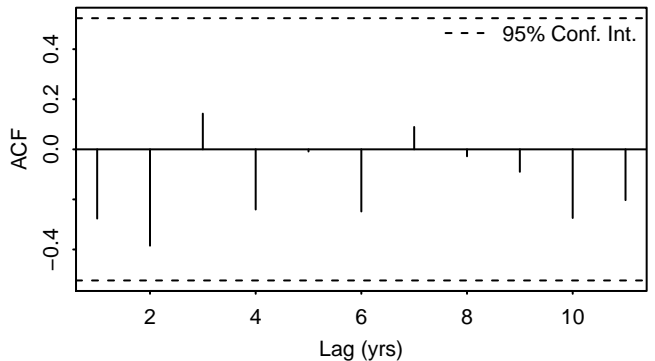

d) Tukey–Anscombe plot

e) Normal Q–Q plot

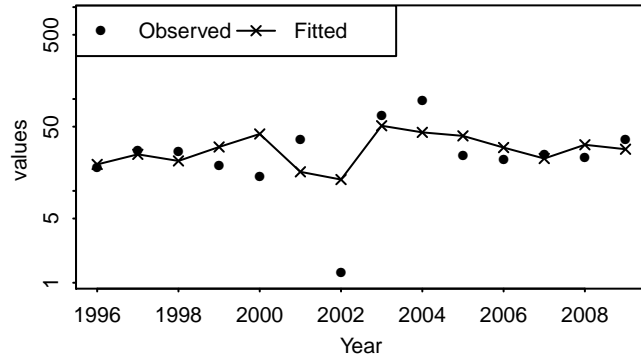

f) Autocorrelation of Residuals

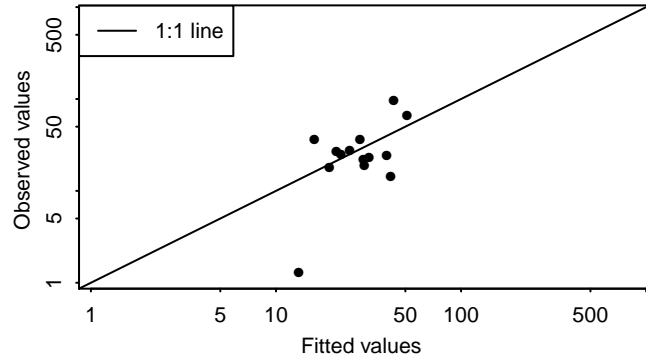

Diagnostics – IBTS_Q4, age 4

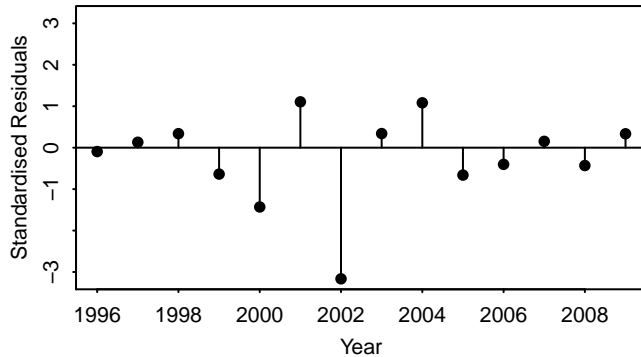

a) Observed and fitted values time series

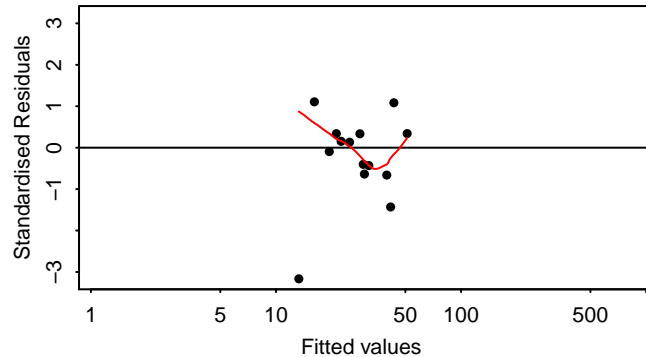

b) Observed vs fitted values

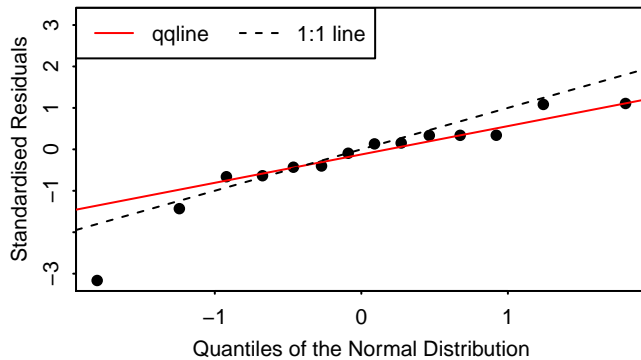

c) Standardised residuals over time

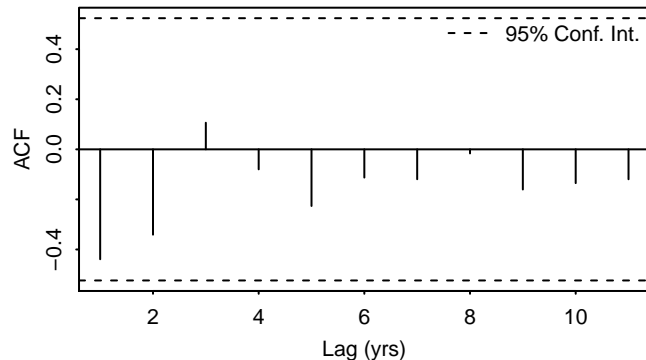

d) Tukey–Anscombe plot

e) Normal Q–Q plot

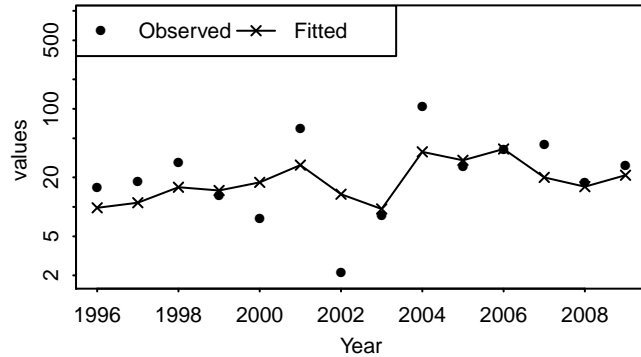

f) Autocorrelation of Residuals

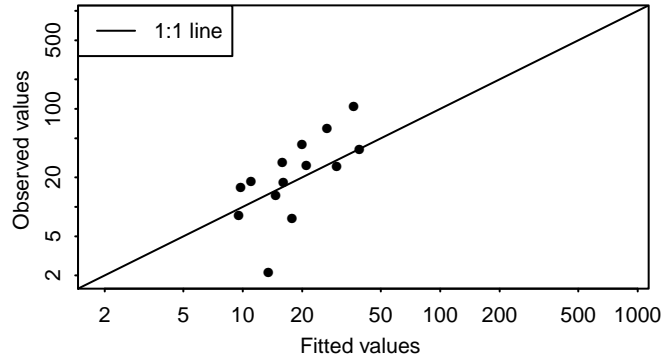

Diagnostics – IBTS_Q4, age 5

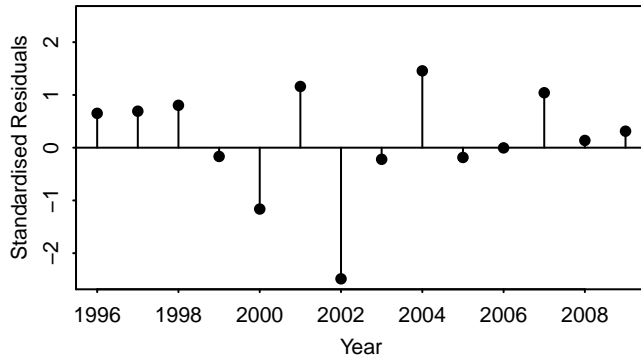

a) Observed and fitted values time series

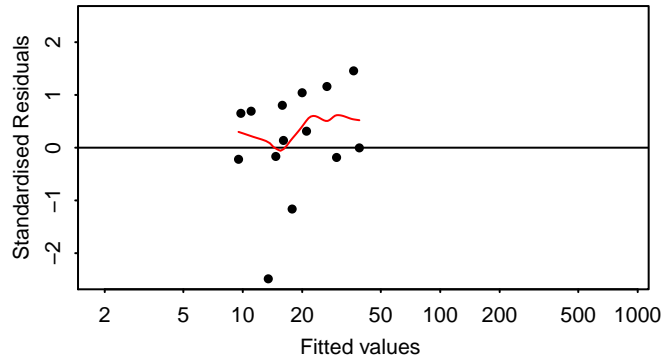

b) Observed vs fitted values

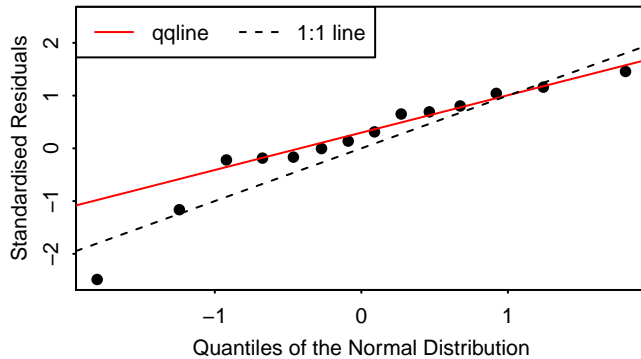

c) Standardised residuals over time

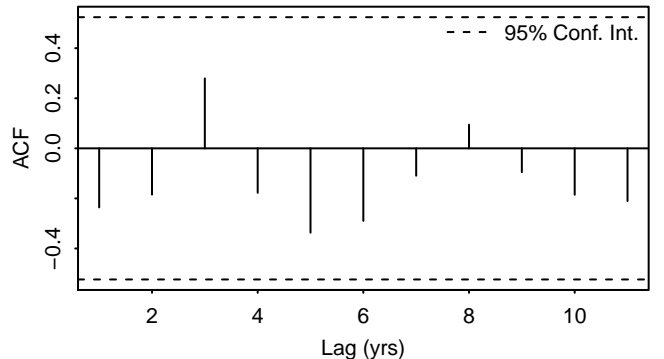

d) Tukey–Anscombe plot

e) Normal Q–Q plot

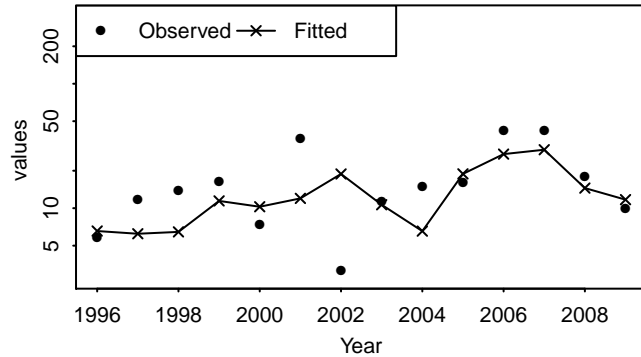

f) Autocorrelation of Residuals

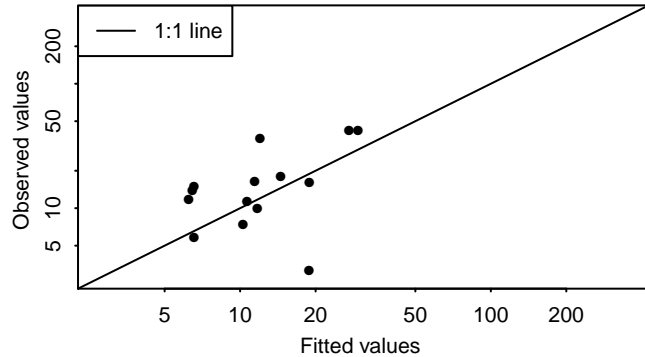

Diagnostics – IBTS_Q4, age 6

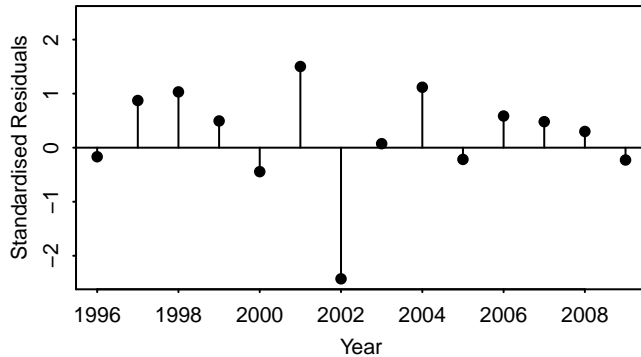

a) Observed and fitted values time series

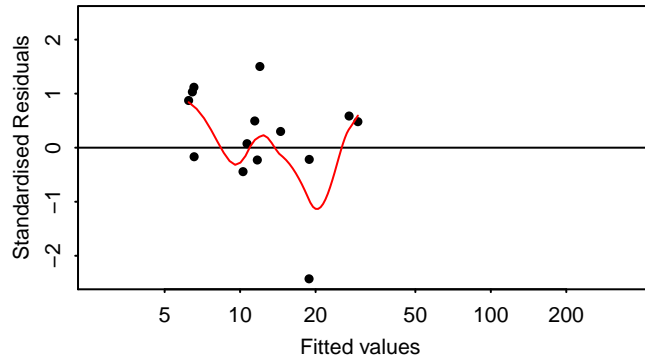

b) Observed vs fitted values

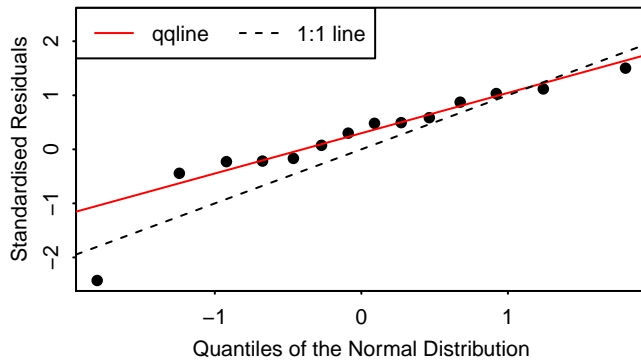

c) Standardised residuals over time

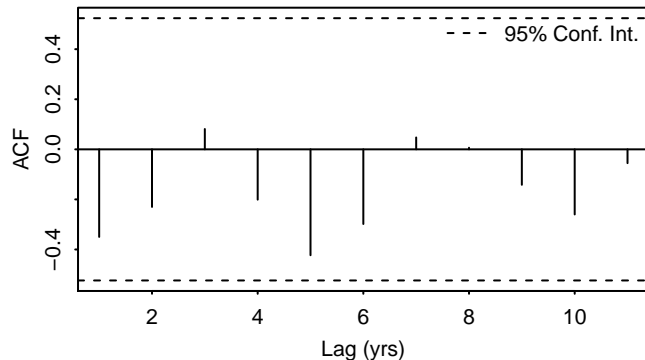

d) Tukey–Anscombe plot

e) Normal Q–Q plot

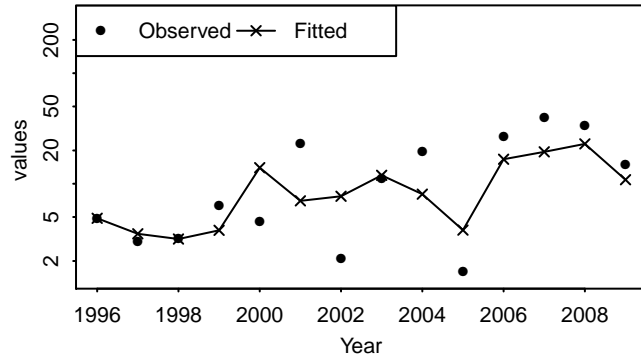

f) Autocorrelation of Residuals

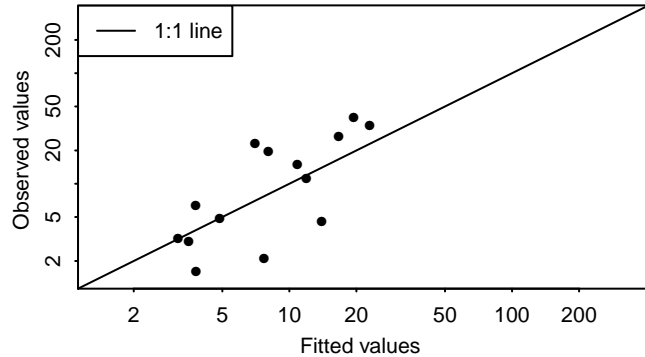

Diagnostics – IBTS_Q4, age 7

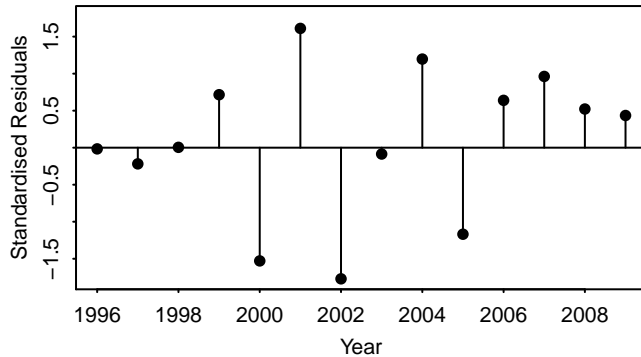

a) Observed and fitted values time series

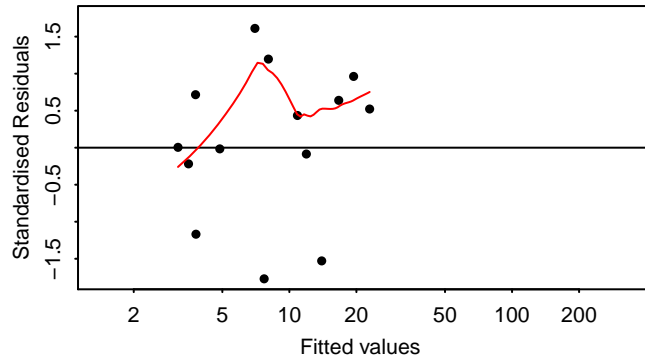

b) Observed vs fitted values

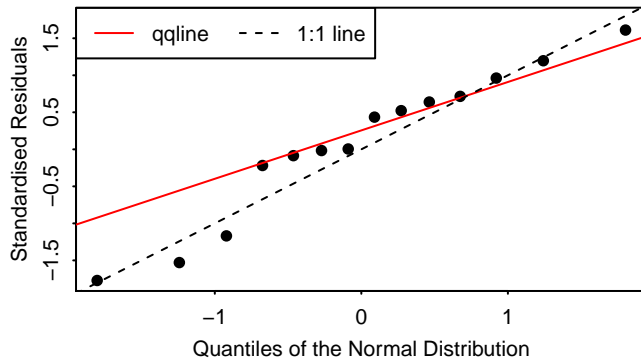

c) Standardised residuals over time

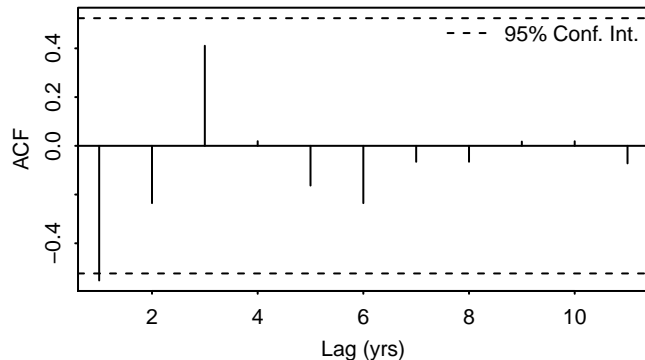

d) Tukey–Anscombe plot

e) Normal Q–Q plot

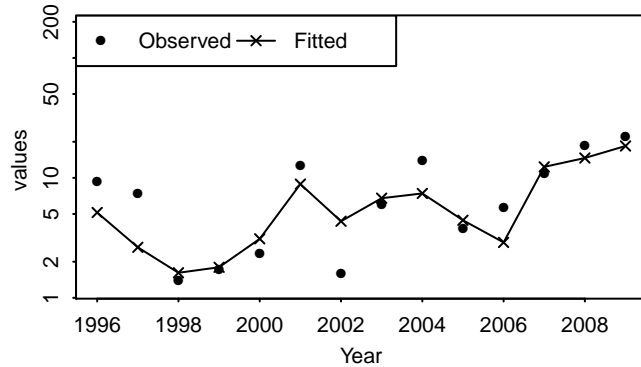

f) Autocorrelation of Residuals

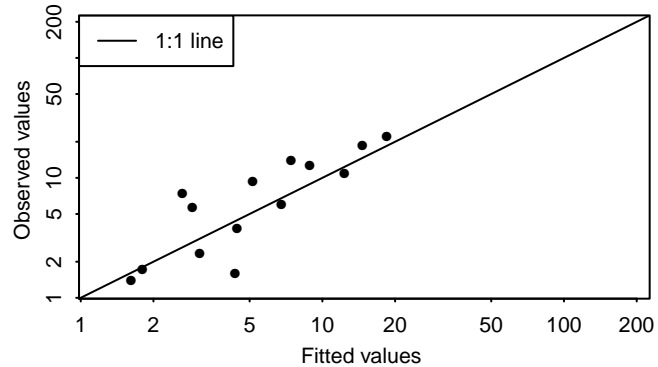

Diagnostics – IBTS_Q4, age 8

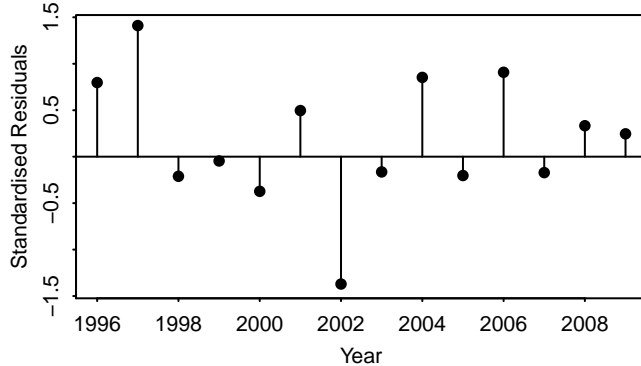

a) Observed and fitted values time series

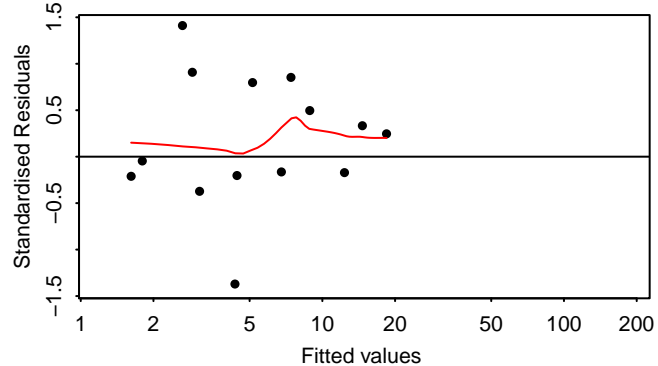

b) Observed vs fitted values

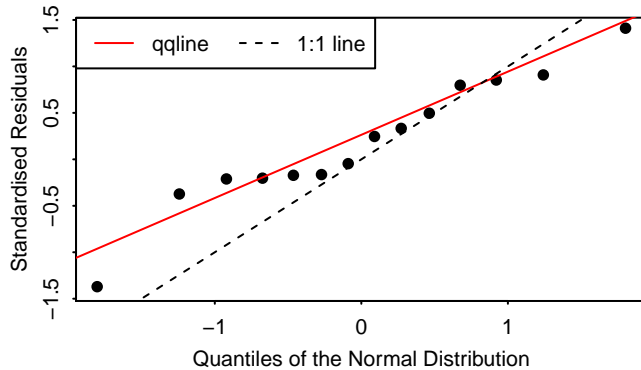

c) Standardised residuals over time

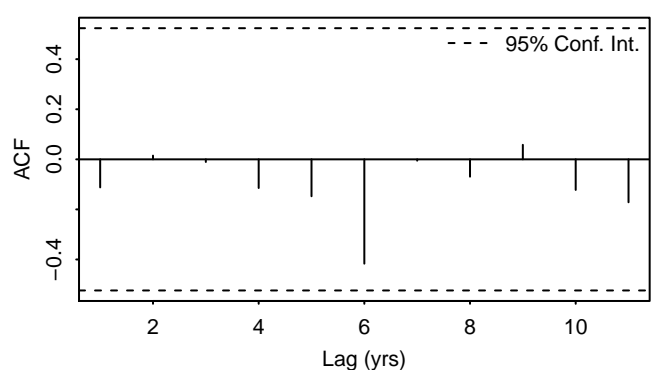

d) Tukey–Anscombe plot

e) Normal Q–Q plot

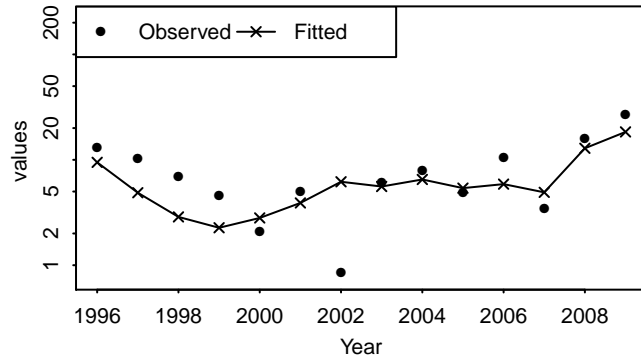

f) Autocorrelation of Residuals

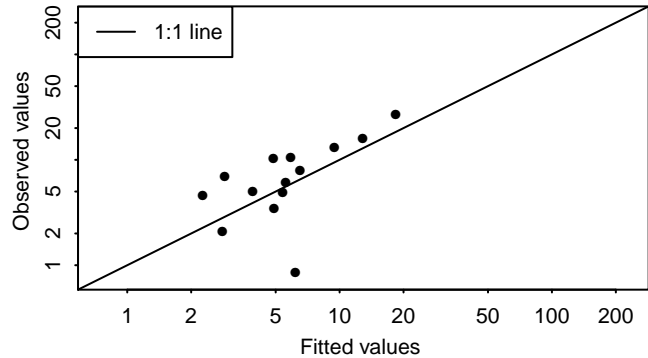

Diagnostics – IBTS_Q4, age 9

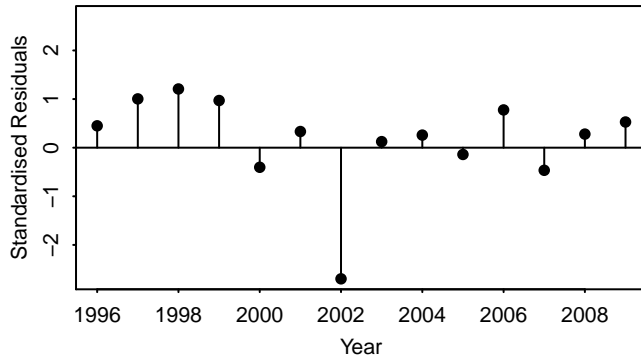

a) Observed and fitted values time series

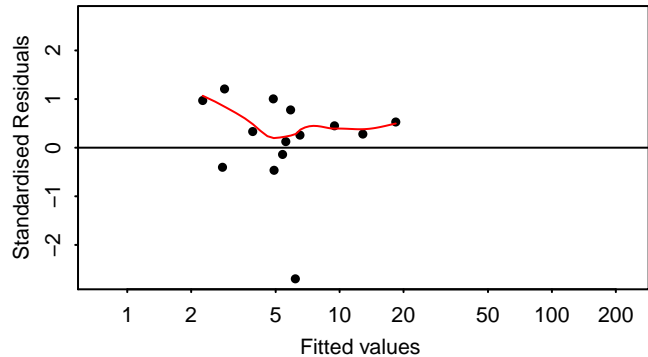

b) Observed vs fitted values

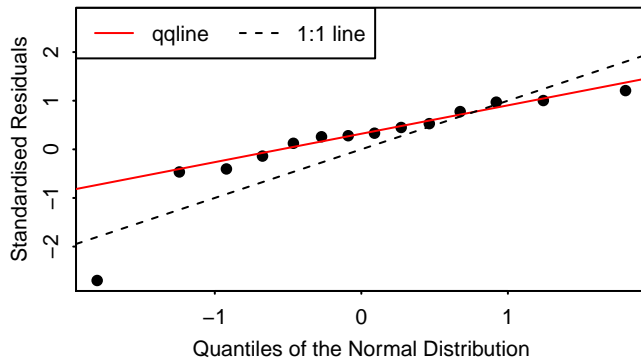

c) Standardised residuals over time

d) Tukey–Anscombe plot

e) Normal Q–Q plot

f) Autocorrelation of Residuals
